A8.260 Emergency Procurements

1. Conditions for Use

Normal procurement procedures may be suspended for the purchase of goods, services, or construction in emergency situations. Emergency procurement may be utilized only to purchase that which is necessary to cover the emergency; subsequent requirements shall be obtained using normal purchasing procedures.

For this purpose, emergency procurement shall be considered only when the following conditions exist:

a. A situation exists which creates a threat to public health, welfare, or safety such as may arise by reason of major natural disaster, epidemic, riot, or fire; and

b. The existence of such condition creates an immediate and serious need for goods, services, or construction that cannot be met through normal procurement methods, and the lack of such goods, services or construction would seriously threaten the continued function of the University, the preservation or protection of property, or the health or safety of any person.

2. Procedures

a. Fiscal officers are authorized to approve emergency expenditures within their purchasing authority. For expenditures exceeding the fiscal officer's authority, the Fiscal Officer shall contact a designated departmental fiscal officer with greater purchasing authority or the Office of Procurement, Real Property and Risk Management (OPRPRM), as applicable, for approval prior to proceeding with the emergency work. For purposes of securing such approval, the following information shall be obtained:

1) Nature of the emergency;

2) Work to be done including goods, services, or construction to be procured;
3) Name of contractor and reason for selection of the particular contractor;

4) Estimated amount of expenditure.

b. Such competition as is practicable shall be obtained to assure that the required goods, services, or construction are procured in time to meet the emergency. If an award is made on the basis of only one quote, OPRPRM Form 95, Determination of Cost or Price Reasonableness, shall be completed.

c. The program shall monitor the emergency work and, upon completion, submit a confirming purchase order (Refer to APM Section A8.250.13, A8.250.16.b, and A8.250.17) and all supporting documentation to the designated departmental fiscal officer or OPRPRM, as applicable, including 1) a memorandum signed by a responsible individual of the program citing the nature of the emergency that necessitated the purchase action and indicating the probable loss, damage, or injury to University property and personnel which might have occurred if the goods, services, or construction had not been immediately obtained, and 2) any agreements, including any pertaining to price, made orally with the contractor.
