FUTURE FOCUS:
The Hawai‘i Innovation Initiative’s Forum on Medical Research, Cybersecurity & More

What are the recent medical and technological developments in the fight against cancer and infectious diseases?

What roles will new technologies play in health care delivery and data security?

What are the top priorities for federal agencies like DoD, NSA, SBA and others? How can Hawai‘i companies contribute?

You’re invited to learn more about emerging technologies, federal resources and opportunities available in Hawai‘i’s growing innovation ecosystem

October 5, 2016, 8:00 a.m. – 5:30 p.m.
October 6, 2016, 8:00 a.m. – 1:30 p.m.
