Save time and money by choosing the right care options. When you need care, remember that emergency room visits are expensive and aren’t necessary for illnesses or injuries that aren’t life threatening.

Use this guide so you know where to go for your care.

**Primary care provider**
See your PCP for routine and preventive care that isn’t an emergency. 

**For example**, if you have swelling in your ankle that isn’t painful, but you’d like to get it checked out.

**HMSA’s Online Care**
Connect with doctors and specialists online from anywhere in Hawaii, 24 hours a day, seven days a week. There’s no copayment for Online Care® visits.

Use Online Care for the same reasons you would see your PCP.

**Urgent care providers**
Go to an urgent care provider if you have a health concern that isn’t an emergency but needs attention sooner than you can see your doctor.

**For example**, if your ankle is swollen and painful but you can still walk with some assistance.

**Emergency room**
Go to the emergency room if you need immediate care in a hospital setting and/or you’re experiencing a life-threatening emergency.

**For example**, if you fracture your ankle and you’re in severe pain.

**More tips**
- Use the directory on the back page to locate an urgent care provider near you.
- Register for HMSA’s Online Care now so it’s easy to log in when you need it. Go to hmsaonlinecare.com to register and download the app on your smartphone.
- Follow up with your PCP after an urgent care or Online Care visit.
Most urgent care clinics are closed on Thanksgiving Day, Christmas Day, and New Year’s Day.
