

# Senator Gary Hooser Lecture Legislation Involvement and Environmental Legislation!

Presented by Kauai Community College Clubs:  
Phi Theta Kappa and Environmental Club.

Senator Hooser will speak on how to be effectively active in the legislation process. He will also share with us facts and issues surrounding current legislation for environmental preservation such as issues involving marine debris, photo-voltaic energy, green house gas emissions, and clean-renewable energy sources. He will discuss some of the important attributes that we should develop to become future leaders in creating solutions for these environmental issues.

**Monday**  
**December 1st, 2008**  
**12-1pm**

**Technology Room 114**
