

HAWAI'I'S LIVING REEF EVENING

at Hanauma Bay Nature Preserve

Saturday, July 10, 6:00 p.m. - 9:00 p.m.

Bring your family to the Hanauma Bay Nature Preserve to learn more about conserving Hawai'i's precious coral reef ecosystems.

This fun family event will provide valuable information on Hawai'i's marine resources while also giving the public an opportunity to re-experience Hanauma Bay Nature Preserve.

Listen to information sessions on coral spawning and other coral reef related topics given by marine experts, find out about Hawai'i's Living Reef Program – a new collaborative coral reef public awareness effort, learn more about other marine conservation efforts in Hawai'i, take part in hands-on activities and games for all ages, and find out what you can do to help conserve Hawai'i's marine environment.

This event is co-sponsored by Hawai'i's Living Reef Program and the University of Hawai'i Sea Grant's Hanauma Bay Education Program.

Join us Saturday evening!

For more information on Hawai'i's Living Reef Evening, please call 397-2664 or 397-5840.
