

MENTAL HEALTH CONCENTRATION ELECTIVES

(Revised Spring 2011)

Students in this concentration are required to take a minimum of one mental health-related elective. Mental health electives may be taken in the School or from other UH departments. The following are recommended to fulfill the requirement:

SOCIAL WORK

SW 663 Treatment of Chemical Dependency

SW 680 Ho`oponopono

SW 680 DSM-IV

SW 680 Health Disparities, Social Determinants & Social Work Practice

SW 680 Forensic Social Work

SW 680 Adventure Based Therapy

SW 706 Family Therapy

SW 707 Methods of Group Psychotherapy

SW 713 Social Work Practice With Sexually Oppressed Groups

SW 722 or SW 723 Social Work Practice in Health Care

SW 726 or SW 727 Social Work Practice with the Aged

SW 717 or SW 718 Social Work Practice with Families & Groups

PUBLIC HEALTH

PH 630 Cultural Competency in Health

SW 759 Child and Family Violence (cross listed as PH735)

SW 760 Interdisciplinary Perspectives in Child Abuse and Neglect (PH735)

NURSING

SW 776 Seminar on Women and Health (cross listed as NURS744 & PH744)

DISABILITY STUDIES

DIS 681 Multicultural Issues

DIS 683 Interdisciplinary Disability/Diversity Issues

WOMEN'S STUDIES (need to petition with instructor consent to provide graduate-level supplemental work)

WS 305 Women and Health

WS 446 Gender Violence over Lifecycle

NATIVE HAWAIIAN HEALTH

NHH 545 Native Hawaiian Health Care

Not all of these elective courses are offered each academic year. As an option, students may develop a clearly documented, in-depth mental health 699 in collaboration with a specific faculty (699 to be approved by the mental health concentration chair).
