WELCOME to the FREE GARDEN

This garden was established by eating in public. It was designed to be a sanctuary from the hustle and bustle of school life, and to be a physical reminder that this is your school you should have the right to take advantage of it. The garden is planted and maintained by people like you.

Feel free to pick the fruits, vegetables, herbs, and flowers as you like. If something you want isn't here, go right ahead and plant it. Weeding is always needed (it's also quite therapeutic) if you're stressed out. As always remember: this is your garden. Enjoy it.
