How can we achieve the State of Hawaii’s goal to increase in local food production 20% by 2020?

1. How does our food supply impact ocean health?

2. How do we address issues of food security and food waste in our campuses and communities?

3. What percentage of university lands are currently used for:
   - ornamental
   - hardscape
   - parking
   - research
   - food production
   - functional landscaping
   - ornamental landscaping

4. How prepared are our communities to feed themselves for two weeks in the event of a natural disaster?
