Change of Library Council Liaison
Paula Mochida will replace Laurel Gregory to be the Library Council Liaison. Paula will attend our next meeting on March 15, 2006.

Representatives from UHLILO to attend the Council’s Meeting
Kevin Roddy and Jue Wang will demonstrate LILO at the Council’s April 21st meeting. Ann McKenna may be able to join too.

LILO update

- Kevin has sent the data he retrieved from LILO to Diane Nahl. Diane will assign the students in her class to work on the data: Rubric for LILO Journal. Violet Harada of SLIS will be involved in the work also. They will take sections from the journal, analyze it, and define between the lowest objectives to the highest objectives. They will also take sampling from each campus.

  This project should be finished in April and the results will be presented in LILO presentation at LOEX-West Conference.

- Randy hasn’t sent the updated standards mapping to Diane yet. Diane needs the most updated standard mapping to work on. Diane wants the standards mapping to update her course materials.

- Kevin reported that 256 people have signed up for LILO since the beginning of this semester.

- Library School Intern Diane Kunichika is helping Kevin with the improvement of LILO. Diane K. has much experience in programming. Kevin and Diane K. have met with technical staff at Manoa to discuss issues like having multiple accounts for one person in LILO. Kevin feels more comfortable now to work on some
aspects of LILO. He plans to tighten up the code and redo the cascade style sheet in LILO. He also wants to add some “Hawaiian flavor” to LILO. This coming summer will be a good time to work on LILO improvement. Hopefully people will be able to have multiple accounts in LILO next fall.

• Kevin stated that he will not get things from LILO to WebCT after some investigation. Maybe only tests will be provided in WebCT.

• Kevin will do a workshop on LILO on the KCC’s professional development day. Jue Wang will do a campus-wide LILO workshop next semester. It is organized by several committees on campus. The workshop is one of the WAC series. Laurie Ann reported that a faculty member is using LILO. The committee suggested that we should ask her to give us a syllabus so we can keep it for our record. Ellen Peterson reported that she is just keeping her feet wet at MCC. She feels that she has missed something since she came on board late. Kevin will send her the resources she needs. She will put LILO on the library web. She planned to go to LOEX-West Conference and hopes that she will have more ideas when she comes back

• Xin Li said that she will send us the link for HCC General Education …

• Randy Henley and Thora said at a previous meeting that both of them will be working on pre and post tests.

• There are five survey questions in LILO right now. We may want a grading system or a box so people can write their comments on LILO. We feel that we are coming along pretty smoothly.

• We want to plan a meeting with interested faculty in fall. Right now we need to update the faculty list which is maintained by Thora. It has been a while since our last meeting. Some faculty members have retired. New names need to be added. Kevin said that we need to show to the faculty that we are listening to them and are doing our best to meet their needs.

• Kevin asked if we know how many people use Guest Button. The reason why he was asking is because he has to keep both versions (user account or guest). Sometimes there is no time to keep both versions update to date. The most updated version is the user account version.

Library School Internship

• Diane Nahl said that we may interest SLIS graduate students in internships in Fall 2006. However, there are more proposals than students. Libraries have to market themselves and compete for students. It is not enough to just post proposals on the library school’s web site. Libraries should send proposals to Rebecca Knuth,
SLIS Chair at knuth@hawaii.edu. Librarians can advertise their internships at listserv: lis-stu@hawaii.edu  The deadline for proposals is April.

The date for next meeting will be 10 AM to 3 PM on March 15th, 2006 in HCC.

Meeting adjourned at 10:30 AM.
