University of Hawai‘i Libraries Information Literacy Committee
Meeting Notes
November 16, 2005

Present: Randy Hensley, Dawn Jones, Vicky Lebbin, Xin Li, Anne McKenna (Chair),
Kevin Roddy, Tara Severns, Jue Wang, Thora Abarca (Recorder)

Excused: Laurel Gregory, Diane Nahl, Ellen Peterson, Jennifer Campbell-Meier

1. October 2005 Meeting Minutes were approved.

2. LILO Update:
   - Kevin has corrected the technical problem caused by adding journal
     entries with single quote marks. He got the code from NCSU. Thank you
     Kevin!
   - There are over 500 students using LILO this semester.
   - Suggestion from the group: add course/campus/instructor information to
     the journal to track students. Kevin will investigate.
   - Comments from faculty and student users of LILO would be very useful.
     Committee members should follow up with their faculty.
   - Kevin will contact the faculty who attended the LILO workshop in May
     2004 to follow up. (Thora to provide names/campuses/e-mail addresses).
   - Suggestion: allow students to make multiple accounts in LILO if they
     have several research projects. Kevin will investigate.

3. Assessment:
   - Kevin has added a very short survey to LILO. So far only a few students
     have responded.
   - Should we add more questions to the survey? It was suggested that we add
     a question with a rating scale.
   - Anne shared some surveys from other campuses.
   - It was decided to keep the LILO survey short for this semester.
   - Jue suggested having the instructor require students to write a paragraph
     about LILO. This could provide thoughtful comments and useful insights.
     Great Idea! Jue will suggest this to Donna Matsumoto.

4. Ideas to Enhance LILO:
   - There is interest in using WebCT functionality to allow for testing,
     surveying and data collection for LILO. Kevin will investigate. Randy will
     find out about the future of WebCT at UH.
   - Discussion on adding video clips to LILO. Randy volunteered his LIS 100
     students to tape video clips that could be inserted into LILO to add tips or
     insights from the student perspective. The committee thought this was
     brilliant. Students could take the content and put it in their own words.
     Randy will identify content areas and work with his students. This could
     carry over to Vicky’s Spring LIS 100 class.
• Discussion on adding a gaming component to LILO. Committee members to brainstorm and investigate. Further discussion expected at future meetings.
• Kevin will investigate elements of TILT that might also be imported into LILO.
• Very exciting discussion on the evolution of LILO and where it might go in the future.

5. Internship:
• Kevin has had one student interested.

6. LOEX of the West Conference:
• Vicky announced that we are waiting for a response from the UH Libraries Council regarding funding possibilities for the upcoming 2006 conference. It is hoped that UH will support the conference since it is usually held on a campus affiliated with a university. Laurel Gregory will follow up.
• Members of the UHLILC will have slots to attend the conference.
• Diane Nahl submitted a proposal to present LILO at the conference.

7. Mapping the LILO Journal Questions to the ACRL Standards:
• Vicky used Megan Oakleaf’s document to map the questions to the ACRL standards. The committee decided to review and revise this document. The standards were assigned to librarians as follows:
  Standard One: Jue/Dawn
  Standard Two: Anne/Thora
  Standard Three: Tara/Xin
  Standard Four: Kevin/Randy
  Standard Five: Vicky/Diane
• Each team will check the mapping for their standard and review the journal for additions. Vicky will give us a deadline for completion.

8. Followup workshop for writing faculty and instruction librarians on LILO in May 2006:
• Tabled for discussion at the January meeting.

9. The next meeting date was changed from January 18 to January 11 due to ALA Midwinter and other scheduling conflicts.
