

Memorandum of Agreement: Transfer of General Education Core Requirement

Based on the attached rationale, CAPP made and seconded to approve the following motion.

“First, CAPP does not approve of the abolishment of the course by course evaluations as proposed in the draft “Memorandum of Agreement: Transfer of General Education Core Requirement,” dated November 14, 2009. Course by course evaluations form the basis for well-informed students planning and effective faculty advising throughout the student’s career at UHM. Second, students having completed their Foundations and/or diversification requirements at any UH campus be treated as having completed the same category of requirements at any campus of the UH System, unless there are factors that may make articulation unacceptable to the receiving campus. CAPP recommends the Senate not accept the Memorandum of Agreement in its current form but encourages to request for a revised document based on the two documents presented by GEC and CAPP.”

The motion passed unanimously.
