Big Boys Dodge Gambling Raid

Witchhunt Absurdity Shown At UH As Dr. Marsh Speaks

By KOJI ARYOSHI

Yielding to security or the temptation of money can lead to absurdity. This is actually what has been witnessed at the University of Hawaii.

Two eminent scholars were invited to speak at the University. One spoke. The invitation to the other was rescinded. Dr. Daniel L. Marsh, chancellor of the University, who was principal speaker at the Charter Day ceremonies on the Manoa campus, was mentioned during the Northampton column in the New York Times as having been invited to speak at Harvard. Communist party fellows traveling with Dr. Marsh also spoke.

Someone told Dr. Sinclaire. It was said that Dr. Marsh himself conveyed the message that he was told to invite a fellow who is not American. Because of his views of which the committee evidently did not approve.

When Dr. Marsh spoke at the annual meeting of the University, the Manoa campus was in the midst of a controversy over the cancellation of an invitation for Dr. Louis L. Latimer to lecture in the new chemistry building because of his association with the Communist party. Dr. Pauling, who has affiliation with the committee, has been invited to speak and he has refused to testify falsely that he is not a Communist.

Since then Dr. Pauling, who has told the California State University, has been invited to speak at the University. The RFC Scandal Shows Shape of Bigger Washington Scandals To Come—Glazer

The RFC scandal in Washington now, says William Glazer, ELNC representative in the capital, is just the start of the controversy over the cancellation of an invitation for Dr. Louis L. Latimer to lecture in the new chemistry building because of his association with the Communist party.

Dr. Pauling, who has affiliation with the committee, has been invited to speak and he has refused to testify falsely that he is not a Communist.

The first incident of a series which became a riot, with Negroes being thrown out of a hotel, in which Chicago police stood by and did nothing while the mob threw rocks and shouted racist epithets.

The police!” says Mrs. Thompson.

HRT Fails To Answer Union's Query; Action On Pensions Halted

There is evidence, A. Rutledge, agent of the Teamsters Union, to indicate that the Honolulau Rapid Transit Co. may be unilaterally altering the pension plan which was important a point during negotiations that extended the strike four months ago.

Rutledge Favors Legis. Control of Milk Price Here

Following talk among Dairymen's groups that the ten-cent increase in the price of milk is unwarranted, the NBC asked A. A. Rutledge, business agent of the Teamsters Union (AFL) whether he considers milk a necessity, about the union's sentiment on milk prices and the following appeared:

"Apparantly the people and the legislature here just can't care about it. Otherwise, they'd do it."

Cemetery Game Is Open In Morning, Pinched In P. M.

By EDWARD ROHRBOUGH

The police vice squad raided the Lin Yee Chung Manse cemetery on Wednesday at 1:15 a.m. and arrested 15 persons for gambling on the cemetery pavilion. But the big boys—businessmen and heads of important figures of the Chinese community, who was arrested, was active at the pavilion sporadically since 4 a.m. and got away.

That they escaped, says Sgt. Chris Futa, who led the raid, is no fault of Futa himself. "As soon as I get the information," Futa said, "I made the raid.

A number of those present jumped over the sides of the open pavilion, Futa said, and escaped. (more on page 7)

ILWU Convention Declares Fight On Wages, Freeze, Support for T.H. Dockers

(from page 1)

phone of the Queen's Surf orchestra, scheduled to undertake a resolution supporting the Hawaiian longshoremen in a nationwide strike. Walker's plan was to meet with local leaders of the Hawaiian longshoremen in the mainland to arrange the strike.

"When you get the ports closed," he said, "and we can do nothing about it, then we must arise and support the cause, just as the mainland workers are supporting the cause."

Local 6 Feeds Debt

As a result of Walker's visit, Local 6 had told him that the local union's debt was high, due to the high unemployment among the members. Walker decided to hold a meeting in February to discuss the situation and to raise funds to help the members.

When William Lawrence, Local 9, returned from his trip, he reported that the local union was facing a similar problem. Walker recommended that Local 9 also hold a meeting to discuss the situation and to raise funds to help the members.

"The depression has hit us hard," he said. "We must unite and support each other to overcome this difficult period."

Strong Bridges Backing

"The support of the Local 6 and Local 9 members has been invaluable," Walker said. "Their backing is crucial to the success of our cause."

"Our goal is to unite all the longshoremen across the country and to demand fair wages and working conditions."

"We will not give up until we achieve our goals," Walker concluded.

M&R Pushes Small Drug Wholesalers Out of Some Lines

McKesson & Robbins, wholesale drug distributors, have taken over the exclusive agency for various Mainland pharmaceutical lines and some local drug companies. The move was made in order to consolidate their operations and to streamline their operations.

"We are committed to providing quality drugs to our customers," said a spokesperson for McKesson & Robbins. "This move will allow us to better serve our customers and to provide them with the best possible service."
Wailuku Residents Ask New Firehouse; Hit Unsanitary Conditions of Old One

By EDWARD DIMORIO MAIIL—We want a new fire station, and we want it as soon as possible,” say residents at the Wailuku station. “We want to keep our residents in good physical condition but it’s tough if we don’t have the facilities.”

The demand for a new fire station at Wailuku is backed by others in the community who are familiar with the unhealthy conditions of the current quarters and the cramped station where the fire-fighters run up a narrow stairway when an alarm is sounded.

This writer interviewed businessmen, government workers and politicians in Wailuku regarding the need for a new fire station and their comments follow:

Herbert Rodríguez, owner of Herbert Furniture and Gift Store: “Sure we need it, and want it, too. But just not now.”

Mr. Duk, owner of Democratic Choph Suji: “Yes, we’d like to have it if possible and I think it will bring our fire insurance rates down.”

Mamerto Andrus, owner of a U-Drive and taxi business: “Sure, good if we can have a new fire station.”

L. Thomeo Noda, of the Wailuku fire station: “We need a new fire station.”

D. Noda said he will immediately send his health inspector for an inspection of the fire station. It will be up to the inspector to determine if they are safe.

A local boy, back from Kaua‘i, says the number of soldiers who have shot themselves with guns is over 200, and that there has been more than has ever been reported. He added that over 100 men have been seen trying to take their own lives.

The Advertiser editor, which issued the story, refused to comment on the matter, but said that the number of soldiers who have come out to be fed and received in California.

The HEART MAN from California, who has covered the E.L.V. convention, was being kidded at a press conference by a member of the Kuhn family. The Kuhns are the owners of the drinking fountain (G.O. Regional Director) who进行了 the press conference.

“Fifteen,” he heard the heart man, “has been drinking mine.”

Whatever happened at the convention, McClellan, Daylomans, guests, from both homes to attend the Marine Cooks & Stewards party at the Royal Brewery and to say they had a fan that was more than 111 miles, to the place that they had been.

Two guests who had arrived in the island on Thursday morning were: Bill Chelsea, of the Western Union Radio Directory and W. C. Woman, who has been appalled by the crowd. Other guests included Willy Sf, Mr. Alpert, Board Agent; Ciporio Darmo, Board Agent; E.H. Sych, of the L.B. Business Amos, and Henry Erostein, UPW Regional Director; Sarn Kazima, USW, and Mrs. Hall, Allens, proprietors of Hall’s Saloon.

FREEDOM OF THE PRECINCT DEPARTMENT: Your daily dailies told you with big, speaking headlines, how the Portland branch of the MCS "revolved" some months ago, but they weren’t filled with you that the Portland courts upheld the MCS expansion of the agency. A. W. Robinson, who brought an insurmountable to a victory in an effort to uphold the MCS, is the National Maritime Union of the World’s largest labor union. A. W. Robinson was ordered by the court to turn over the union funds to the city until the union funds which he had taken illegally. Robinson is now openly on the NMC payroll according to the MCS "Voice." The MCS "Voice."

EILEN ALLEN'S box was at it again last week, adding a few more feet to her collection. The letter explaining that the IKCO has been opened with various committees and repealing the smear. An announcement of the sale of the Ingo, title of Pacific Relations and the smear it got, didn’t reach Mr. Allen, a member, as much as it might have, in spite of the deprecation of the club, he found himself forced to run at the time.

FRANK JAWORSKY, branch manager of the N.R.C., and others, have introduced a bill which is meant to produce war funds from Hawaiian dollars. The bill now in the Congress is not concerning with "wastes," or members who have come into the country illegally and may be put out of the country. The bill, which is this bill, was introduced by the Department, which has been sent back to Mexico. The term "wastes and insolvency, a reference to those people used to swim the country, via the Los Angeles, to dodge immigration officials.

FOR THE INFORMATION of everyone, Mrs. Dorotha Lambert was the mother of certain letters to the demand relating to the Gote-Zang, scrap, such is the case. With respect to all, the Lambert's were written to say that if she ever wrote letters. Letters to the newspapers, "Propounding questions which I can answer but you shall have. We insist that they come out to be fed and received in California."

April 5, 1951

One Week Fish Holiday

SAN FRANCISCO (AP) - The fisherman's division of the International Union of Hawaiian fishermen's union has declared a one-week "fishing holiday" in the Sacramento-San Joaquin delta in protest against attempts to introduce live river to commercial fishing.

The union, which represents thousands of fishermen along the delta, has been trying for years to prevent the introduction of live river to commercial fishing.

The one-week "fishing holiday," which began last Monday, is aimed at drawing attention to the potential dangers of introducing live river to commercial fishing.
"Get Bridges" Home Front Part Of Empire Plan, Hallinan Says

Addressing the delegates at the Ninth Biennial Convention of the ILWU on the second day of its session in Boston, Massachusetts, former Attorney General Hallinan described the current situation, he said, during the Bridges-Bohannon conflict as "dangerous." He outlined the reasons behind the prosecution of Bridges, as they related to the action taken by the labor leaders.

In his speech, as taken from the convention's proceedings, Hallinan says, "It is not the purpose of the Labor movement to use its power to do wrong. The ends which we seek to attain must be achieved by proper and constitutional means."

As previously stated, Hallinan entered the case with the idea that this was a pretty clear case in which a man was charged with a criminal indictment in a federal court and that the case was properly brought and properly tried. He claimed that the First Amendment of the Bill of Rights was a complete defense in the case.

But according to Hallinan, in the case of the Modern Law Review, the jury was asked to determine whether the American Bar Association, the National Association of Manufacturers, and the American Journal of International Law, and the American Bar Association, the National Association of Manufacturers, and the American Journal of International Law, were justified in issuing a statement that the case was a violation of the First Amendment.

"It's a violation of all the rules we've been taught," Hallinan said.

Role of Military

"How are we going to make Americans understand that we need military labor?" Hallinan asked. "We need to make it clear that the military labor is necessary for the defense of our country.

The resolution also stated that any man screened off military jobs "shall be returned to full constitutional rights and his union rights under contract to work back on commercial jobs.

Maisie Cernahan

Before the vote, discussion ranged from the merits of the bill to the potential effects of the vote on the labor movement. "I think we shouldn't screen off military jobs," Maisie said. "It's a violation of the First Amendment."

ILWU Delegates Unify on Screening Protest After Confusion Is Cleared

After two hours of discussion, the ILWU convention Wednesday named a resolution demanding the abolition of the Coast Guard's screening program. The resolution included: "We condemn the Coast Guard's screening program. We demand the termination of the Coast Guard's screening program."

"We demand the termination of the Coast Guard's screening program," Maisie said.

Estes Mace, Honolulu 159, said he had already been screened off the waterfront for two weeks and he thought that this resolution was a violation of the First Amendment.

Not Aimed At Communists

William Trullman, an ILWU delegate for the San Francisco waterfront, said he thought that the resolution was aimed at Communists and that it was a violation of the First Amendment.

How Sales Tax Works To Advantage of Stores
By a former accountant with F. W. Woolworth of California, who knew whence she speaks.

The strongest point of opinion of the new sales tax is that it places the 3-cent-per-gross tax on retailers, not on manufacturers. The theory is that the consumer will not notice the tax since it is on all goods for house consumption, and a very good point it is too.

However, putting aside the question of evasion and sinfulness, any sales tax puts a disproportionate amount of extra burden on the man who pays the tithe, or the retailer, at the expense of the consumer.

The only example to cite is that of a customer shopping in a store like Kress, or any other which carries many items priced at less than $1, and whose purchases are paid for at the counter where they are bought, or the retailer on the Territory on the amount of gross sales accomplished, not on each individual sale, but the customer must pay the tax on the total purchases as each individual customer or department.

B.3.2 per cent of $1 = 3.2 cents; 3.2 per cent of 30 cents = 0.0096, but since there are no coins of less than one cent below the Territory, this purchase of a 3-cent Yacht Sticker, or one cent in sales tax. Five 20-cent items give a total of $1 which at 3.2 per cent on sales tax the store will pay the treasury 3.2 cents.

To be more explicit, 2.4 per cent of $50 is $1.20, which is what the Territory would receive. $60 worth of 20-cent purchases would give the Territory a total of $12.00 in sales tax.

Stop and think for a minute of how many small store owners, for instance, the man next door, or the one you can see by the road, will have to draw their dreams—department store and goods will increase in the same price, but the customer will pay more, and to the consumer of goods they will take more, then they must turn to the market or the market has a higher price, and the local consumer is the one who pays the price. In the case of the sales price.

The same rule of thumb, ladies, the poor folk with the least money, who must shop in small quantities, will pay the greatest share of the taxes.

Lurline Represented
The Marine Cooks & Stewards Union also voted in the last sea last week to go out on strike, a strike which is considered an opening move to the strike of the other workers, and the last move in the big battle being fought.

The strike is in support of the demands of the Marine Cooks & Stewards Union, which has been in negotiations with the owners for several weeks, and the strike is expected to continue until a satisfactory settlement is reached.

Fraternals Greetings
To All Members and Delegates to the ILWU 9th Biennial Convention

EAST MAUI MAKES PROGRESS

In its final session on April 15, the Hawaii Legislature passed a bill which would enable the Maui Land & Tax Corporation to acquire, by lease or purchase, through the Territory of Hawaii, land to carry on athletic, recreational, and other activities which would be beneficial to the public. The bill provides for the building of a stadium and gymnasium in Lahaina proper for the use of all community organizations and clubs.

Without the support of the Community Association and the Maui Community Council, the bill could not have been passed. The corporation has been working for many years on a program of running athletic and social activities so sorely needed in and around Lahaina.

The plan which impresses most of the critics of the organization is the establishment of a community center and a community gymnasium, which has stores of the plantation and houses the organization, the W. K. Kellogg Foundation.

When the plantations saw the strong growth of the unions and the militant attitude of labor in even athletics and recreation, the grip of the boss gets even stronger. The plantation activities have been reduced to non-landsite-activities. The present president of this association is Bill Bell, president of Honokaa School, with Dr. William Murray of the plantation a principal figure on the inside job of keeping the plantations covered on what was done.

Frankly, I am prejudiced in favor of the West Maui AEA because we know that the organization is made up of workers, while the Community Association is made up of community workers who are more often than not, will not listen to the voice of the plantation and the big shots.

For example, one day I met a gentleman from the Community Association who said, "I don't think the sympathetic ear is to their liking. In the meantime, the active support of the plantations and their workers to their project and the W. K. Kellogg Foundation to be a better community for West Maui will mean a faster culminating of the other issue, which we hope in the near future, a swimming pool.

SPORTS TID-BITS FROM HERE AND THERE

The following news items were introduced for the purpose of keeping the fans up to date on the latest in the world of sports to keep them informed of the latest news.

A well-known sports figure was covering a demonstration this week on the West Coast, and was inquiring about the recent AFL football season. Among the other things he discussed with a small group of people, he did not mention in the recent AFL football season. Among the other things he discussed with a small group of people, he did not mention the financial end of the season, saying quite a surprise that more fighters were not sent and that lucky, the buses of Paul Fain's and James Griffin were paid for by their respective service groups.

We understand that approximately $10,000,000 was spent in acquiring and paying for the plants in the recent AFL football season. Among the other things he discussed with a small group of people, he did not mention the financial end of the season, saying quite a surprise that more fighters were not sent and that lucky, the buses of Paul Fain's and James Griffin were paid for by their respective service groups.

Llanos' 'Silent Partner' Unnamed In Indictment

(from page 1)

wheel in the big financier's local area.

An informed source told the Record that a large chunk of the money Llanos and his group look to raise from the high-stakes video ball tamuamis and investment schemes is in the hands of 'labor's partner.' He said this may be one reason why his name has not surfaced.

Acting U.S. Attorney Howard K. H. Hirasaki, who said the unnamed local tax payer is Llanos, added that he knew of other Filipinos who were involved in this same money-raising scheme, enough to make $50,000 a week.

Attorney Quirino, brother of the Philippine president, became interested in the case after a friend of his had been arrested.

The two men were first brought to public attention by the Rascals' advertisement in the Record.

Llanos Threatened Associate

The associate, according to Quirino, was Llanos and two associates to whom he threatened violence.

Llanos has threatened to kill two associates, the associate who threatened violence. The two men had come here at Llanos' request. This operator was associated with two others.

More On Dr. Marsh

(from page 1)

ation to Dr. Pauling, unfortunately.

If someone had pointed out to Dr. Lincolin a New York Times article of June 22, 1949, which mentioned the FBI report with which he was concerned, Dr. Pauling was not speaking to the university, this latter criticism would have been irrelevant. He would have said that the FBI report mentioned the War Department's claim that Llanos was a spy.

When asked by the FBI if he knew about the FBI files and about the McCarran-Walter Committee's charge of Dr. Marsh, President Johnson said, "No, I don't have any comments on that." But Dr. Pauling's mail has been opened by the FBI.

Rutledge Favors Legis. Control of Milk Price Hike (from page 1)

what the California legislature did—set up a milk commission in the state—was first reported by the Public Utilities Commission, because milk is an item so clearly essential to the everyday needs of the people.

There are two way of defying price-cutting efforts of milk producers. Rutledge said. "One is by an unprincipled man, who is a vigilante, and has prices. A strike is temporary, but it looks as if prices are going to be permanent..

Clonie Thompson Would Tell Truman Of America's Rotten Discrimination

(from page 4)

aon, sorrowfully. "They would have thrown rocks at themselves. They just stood up and laughed."

When Arakaki returned to the territory, he gave the Record an exclusive interview which was published Nov. 17, 1944, giving the Territory of Hawaii its first account of a story which was published widely over the mainland. "It was the way the Big Island unions described it."

"What was the aftermath?"

Committee Formed

Bernard Lucas, another delegate to the convention, said that the anti-discrimination committee was formed because it only happens once a year and that there were many big shots there.

He said that he had made a speech and several prominent men around a fan-tan table were so impressed with those guys here, he said, that they asked him if there was a payroll to policemen.

"Farrow Defied "No," they answered. "We don't bother us, that's all. They just keep on with it."

Passing to note that the police are not interested in the matter because it is only happening once a year and that there were many big shots there. The convention proceeded to name Mayor Martin H. Kennedy who eventually set up a "police vigil!" and the series of racist incidents gradually ceased.

They (the racists) first thought Negroes would go on strike. But then the response was anti-Negro and anti-Japanese. They have thrown all the bodies of the other numbers of the U. S. S. "loathe" because they are afraid of the discrimination in the state."

"They're all just about alive," she says. "I've been refused in Washington, too."

HURT Fails To Answer Union's Query; Action On Pensions Hinted (from page 1)

One letter from the company regarding the pensions has been ignored. Farrow answered, and he has sent a second, a registered letter. If it is ignored also, he added, that the company will be fined and fined to take action—either strike investigation.

The name is not a viable one for the time being. It is simply the name of a Newman committee.

The company's union is under the Un-American activities committee, which has been a great deal of trouble to them.

"I'll raid anyone for gambling," he says. "I wish I could get the information."

SPOTTED LAND PROBE

If the members of the Territorial Senate are willing, the probe on government land this week can expect a great deal of information on land monopoly in these islands.

The investigation, as announced, will be limited to the island of Hawaii, through inquiries on control of government land by private holdings throughout the Territory is long overdue.

When limited to one island only, the public may well ask: How far will the senators go? Will they merely scratch the surface or will they go down into the heart of the actual plots that actually plague the people of the Territory, a great majority of whom are land-hungry.

There are approximately 2,273,293 acres on the Island of Hawaii. Of this, 1,227,289 acres are government lands, either Federal, Hawaiian Homes Commission, other Territorial Commission or other. The Tribal to large private holdings own 1,150,686 acres of land. All other private holdings own less than 21,152 acres.

Besides owning half of the Big Island, many of the 32 large landholders lease big chunks of government lands to small farmers, home-owners and businessmen.

Everywhere in the Territory where people are on leased lands, property improvements lag. And at the same time, tenants live in insecurity, with the expiration of leases drawing nearer by the year. And evictions take place in all these times.

The whole system of land monopoly must be broken up. Land laws enacted years ago to benefit the big landowners must be wiped out. This would give the people opportunities to own property.

Why should 32 large landholders own half of the Big Island, and not satisfied, grab government leases?

There is need for laws to curb them.

SENIOR HILL'S SALES TAX

The people of the Territory do not need a regressive sales tax to replace the present regressive gross income tax. Those who represent from service and labor of others should be taxed progressively, and their income. The major could never be borne, as all big business interests and those who have more than one dollar interest in the said tax, would be exempt. With food exempt, other items would be taxed higher for the principle is to make the man pay.

Pressure groups, with big business leading them, now say that a sales tax is good for the common people, as it exempt foods. For the big business interests would be interested in the common man, they would be out pushing a progressive income tax. For many years I have been for the progressive income tax is more beneficial. Their customers are the common people who will spend only as much as they are able to, and sales tax benefits the big-income earning businesses.

How Sen. Pettigrew Blasted Slave Labor In The Hawaiian Republic

When the question of secession of the Hawaiian Islands was debated in Congress in the 1890s, there were some congressmen who... and that a "slavery" territory would be made part of the United States.

Sons of Missionaries Enacted Penal Labor Laws

The men who enacted those laws, the sons of the missionaries, who are the government down there today are the men who are foolishly playing upon this very Senate floor as the highest type of American manhood," Senator Pettigrew said on the same day. He criticized Senator Morgan of Alaska, who ran the Hawaiian Republic was the best government he ever saw.

"The senator from Alaska fought for several years to maintain slavery in this country, and perhaps has something to do with his opinions. In his opinion, a government that is in favor of human slavery is the best government on earth," he added.

To show the strength of labor on the plantations, the senator had the Senate secretary read an editorial from the Honolulu Independent of Friday, November 19, 1877, entitled "Slavery in Hawaii," which said:

"Hawaii is the only state in the Union where there is no labor troubles, working conditions, or any other issues that arise from the lack of labor. The result is that there are no dangerous strikes and that plantations eventually will go up in flames to carry the war of the ignorant classes, who think that they are being ill-used and ill-treated by their employers, and who are justified in their belief, according to all fair-minded men with experience in plantations and methods.

"As stated, a Japanese laborer ships by the Ewa plantation, claims that he was assaulted by an overseer, who fractured his arm. The pay, however, has arrived recently and does not understand English, was advised by his more experienced countrymen to call upon the district judge attended by the district court of the island. He said, poor devil was, of course, prohibited from leaving the plantation by his white boss. Then he got angry and, after a palaver with his gang," all decided to quit work and go to Honolulu to see the representatives of their government."
