Governor's Son May Take Stand For Accused Rapist

Fascination Faces Law Test; Police Said Dragging Feet

"Fascination," the game that seeks use a combination between bingo and kilee-bull, is due for a crackdown by police and the C-C prosecutor's office in the immediate future.

The RECORD learned from highly reliable sources that actions is already planned to make a "test case" of the lottery aspects of the game which was brought into Honolulu by Ria Mainland owner John Gibson, and which is installed in and operates from the Walkiki Bowl and Kalakaua Ave.

Now in operation more than a month give the chances given in hours of 20 early the opening by a number of members of the police vice squad who played and departed without making a pin.

Pressure Used on Cops

Both political and local pressure are reported to be forced on the police force by four, Miho & Goy, the law firm representing the main owners of the Walkiki Bowl. Under this pressure police have been reported dragging their feet.

In the office of C-C Prosecutor St. Sure, however, the story is different. Although St. Sure will say nothing, the RECORD is reliably informed that his office (more on page 7)

Hi-lights of the News

**Ike: Worse Than Empty Theatrical Gestures**

"I know the law (Taft-Hartley) might be worded in such a way as to make it unconstitutional, and neither do I...it must not be one of those empty theatrical gestures so often made in recent years," was the comment by Sen. Robert A. Taft.

So said Eisenhower at the AFL convention in 1952.

**HIS UTERANCES** were soft-soaping in efforts to make labor easier to handle -- to soften it in the minds of Congressmen who will vote on Taft-Hartley.

The reason Eisenhower's promises to amend Taft-Hartley has turned out to be more of a problem than AFL's Labor League for Political Education did with his old promise to employ a demonstration andonsense campaign if the President's "promise" was a non-runner.

The Senate Labor Committee, of which the Democratic-sponsored Taft-Hartley Amendment was a member, was criticized by the Administration-sponsored Taft-Hartley Amendment.

"Since this Eisenhower-sponsored bill contained some bad language than good amendments, defeating the former would be for labor," said the majority leader, Harry F. Byrd, in the Senate.

The present make-up, he continued, had thrown out each amendment one at a time, the good one would have been defeated, and the bad one left in the final bill.

**Brownell's 'Subversive' Package Opposed**

In recent weeks the top leaders of AFL and CIO joined joined unions in vigorous opposition to the administration's attempt to sneak through Congress.

The administration's package, which included both labor and anti-subversive bills, has met with opposition from unions and organizations.

The House Judiciary Committee, July 15, stood firm and voted out the Walter sub-committee recommendations for the Taft-Hartley Amendment.

**Brownell's 'Hit and Move for Labor Front**

Brownell was the sitting target of the administration's packages to force through the so-called "anti-subversive" bills, but labor unions in the past have slowed down the Democratic majority moved ahead.

"The two major bills are to be amended," said the administration's Brownell bill.

**Brownell's legislative package as bills which would hit all labor -- right, center, and left.**

The changing tide in political views became sharply apparent in the past five weeks as Congress moved closer to the down-tum and reformative legislation was pushed vigorously.

A good example was a song written in the Machinists' Monthly Journal for August by Pres. Hays of the International Association of Machinists (AFL).

In the article entitled "or Forth Freedoms," Hays sternly defends the Constitution and sharply attacks Sen. McCarthy.

The new bill strengthens the Constitution to that which are being exposed to McCarthyism ever printed. And Joseph and Edward Alsop, leading conservative columnists for major, syndicate, have taken an unstanid lead in exposing the lies of former Communist officials and other establishesthmoopahs on Brownell's staff of informers.

**THE BROWNELL -- Eisenhower speech play was taken -- this week he voted for a bill which United Press said compel the Communist Party to register its political branch as a corporation.**

The bill, to the chairman of the committee on labor, is an amendment to the Taft-Hartley Act.

**What's Happening on The Labor Scene**

While Brownell pushed the administration's police state legislation against labor and pro-labor organizations, these were some of the events taking place under existing laws:

- In New York, the American Safety Traction Co., July 10, notified 600 employees that it was selling out its Brooklyn plant and moving its operations to Virginia.
- In southern Pennsylvania, 2,000 coal miners had quit work because the government had decided to close the company.
- In Oregon, 600 workers were on strike for better wages.
- In Pittsburg, Westinghouse Electric Co., July 14, ceased hiring 5,000 employees to complete the construction of a new factory.
- In Chicago, Armour & Co.'s meat packing plant was shut down July 13 by an anti-union strike of 5,000 workers.
- In Washington, the Labor Department reported that new claims for federal unemployment compensation increased by 50,000 or 18.8 per cent the week ended July 3 to a total of 310,000.

**Wall Street Journal Hits Police State Methods**

Brownell this week, through the United States Post Office, said "the atmosphere is so tense," that the administration's bills would give the President sweeping authority to arrest workers suspected of being "subversive." The effect of the bills, he said, would be to "sweep aside" all private industrial plants.

**BLOCKED IN HIS ATTEMPT to force through the bills requiring licensing of all labor organizations, Brownell is talking to groups of the Democratic majority in an effort to soften them."**

**MEET ON INDOCHINA ARMISTICE Talks were opened July 15 as they met in Geneva for the thirteenth session. The French foreign minister Jean Finel Dalle in an Eden.**

PEACE WINS IN INDO-CHINA
The cease fire in Indo-China brings peace to the last major hot war front in the world.

The eight years of costly fighting, stopped by efforts of peace-loving people in many lands, is another blow to colonialism and a victory for people struggling for independence, self-respect and better livelihood.

The Indo-China truce concluded at Geneva shows once again that negotiations pay off, and that those who warmonger for a global conflict in this H-bomb age are irresponsible seethers and that they can be relied upon.

John Foster Dulles, secretary of state and Wall Street's representative in Washington, clearly demonstrated that he and his teammates were against a truce but for continued conflict and at the same time for a drive in Southeast Asia to effect a military and political settlement in the region.

The Geneva conference of representatives from various countries which brought victory on the peace front gives hope for settlement to issues in Korea where the war ended a year ago.

The cease fire in Indo-China provides for a truce line at the 40-mile waltz at the 17th parallel. In Vietnam the North Vietnamese People Democratic Republic will administer an area of 50,000 to 60,000 square miles and the French and the puppet regime will occupy an area about 9 million people.

Truce terms for Laos and Cambodia were also signed.

Terms for the Vietnamese elections by July 1956, and interested parties can discuss the elections at the conference. This agreement was reached after the French, under pressure by Ho Chi Minh forces since Indo-China the people are prosperous with the French and the puppet regime, and are supporting the independence movement of the People's Republic. They can win an election right away.

While the U.S. supplied arms and personnel and monetary aid to the French in executing the colonial war, Dulles refused to be a signatory to the cease fire. In the concluding talks which brought peace to Indo-China, the U.S. administration remained aloof. But the representatives of nations negotiating the truce were encouraged by a U.S. promise, given through U.S. Undersecretary of State Walter Bedell Smith, that the U.S. would support the truce and not disturb it by force or threat of force.

The unexpected cold and wet war policy which began with the Truman and Marshall plans was haddly exposed during the last round of the Geneva talks. The Western alliance, held by_herbs and economic control, showed wide fissures.

So, the Magazine of Wall Street wrote June 29, "Now, since the big blow to our allies, at a great sacrifice to the American taxpayer, it is time that we make some demands on our own account. . . . The President should make it clear that the American people are using their patience with British opposition to our base and should be assured that a mutual- -strategic policies, and that we expect the British to cooperate with us wholeheartedly, as allies should."

Wall Street was losing patience with British reluctance to go whole-hog on Wall Street's policy, but the Wall Street pressure is not because it is a plan because of money used for, destruction More and More, and strongly opposing the dangerous militarization program.

KUAI Nites
Criticism of poor herrings practices are being voiced against Hawaiian, Fruit Packers Ltd., Ha- waian Fruit Can Co., Ltd. American Can Co. Ltd. in view of the acute territorial unemployment situation.

Hawaiian Fruit Packers has many territorial workers who are on vacation on their employment routes, especially for Ha- waian Canneries. American Can has been using a lot of Filipinos for packing more.

Only Kauai Pine has set a definite policy on hiring. First chance opportunity is given to the unemployed workers. If several weeks back first set a precedent. When learning that a country fire- wood supplier has fired his wood gatherer, he immediately has him on.

UNITED STATES report that in the next year or two about 110 job eliminations are to take place at Hilo Plantation. Thus far three job eliminations have occurred with 16 pending next week. These job eliminations to occur by the end of February. Some of the closing notices are scheduled to find a solution to this serious situation.

THE COLD recepcion of Supervi- sor "Matt" Seraefilo is getting from key unions might be a good indication of the campaign for the county chairmanship. Last week the at the Woodlawn Plantation meeting of talking union leaders from Ke- na, Hilo, Kauai, Molokai and Kau- lae, said Serafilo is getting closer by the day.

THE GENERAL public around Hanapepe, who are familiar with the salt from beach and stream, are warning each other of some salt is going to be built in the area. Now there are a few lutha and activity around Hanapepe, who have visited.

Those who have visited this area claim there is no place on Kauai that would equal it. Some improve the area with the sand and water area will satisfy not only salt- making but fishermen and campers, too.

Will politicians make commitments to gain the votes in the county? How is that election is coming up?

WEST KAUAI Pony League opened with six teams enter, the games are played at the bases, 7th and 9th, and with some good pitchers hitting a beat a strong Waimau 6-3. The teams enter the defensive championship, favored by many to take the title. Waimau, Kau- makani, Makawao, Kalawao and Kealia.

First and second round games will play off (2 out of 3) for championship. Games will start 12:30 p.m. and will be played on Mondays and Fridays.

PROFIT GOES
Large profits a year ago, whole- saling at 41 cents in San Fran- cisco and 36 cents in Los An- geles, has carried over into the California Farm Reporter.

Cost of production has gone up due to increased costs of state agricultural extension re- ported out studies, thus 44.5 cents in San Bernardino county, 43.7 cents in San Bernadino county 43.7 cents in San Bernardino county.

Locally, April Honolulu prices have been brought to the market and some of them have averaged 76 cents a dozen, 9 cents less than in April 1933.

Mainland prices for apricots this year have averaged 10.5 cents per dozen less than in the spring of 1934.

CANDIDE Not Obscure
It took a furor in Vienna, Aus- tria, more than three hours to decide that Voltaire's CANDIDE- The Optimist- is not "obscure" but are instead written in a "matter-of- fact" manner.

The State Prosecutor had asked that a book of quotations from the Bible and other classics be banned. Meanwhile, in the United States, articles from the New York Times and the Bible contains to be banned from college courses.

The book contains those para- phrases which have Biblical des- criptions of life and death, love, marriage, sickness, and other sexual activities. —From Express, June 24.
Ken Sakamoto Driving; Pfeifer, Oshiro Win

Ken Sakamoto (Car No. 15) took first place in the 60-mile stock car race Tuesday night at the 100-lap race at Washougal, Wash. The 100-lap race started and ended at 9:30 p.m.

Oshiro Shows Class

A more spectacular finish to the top was demonstrated in the 60-lap stock car event as Jimmy Johnstone, No. 5, crossed the finish line at 2:10 p.m.

Johnny Oscuro took over the wheel of the no. 52 a few months ago when his brother, Ken, left the sport. Oscuro picked up driving skills rapidly and surprised stock car fans when after a few appearances he took a heat race championship at the red flag event taken by Tomm Arakaki. (No. 8).

In the major race of the evening, Ken Sakamoto stood out among seasoned drivers who have been away from the national scene. Sakamoto started the race and stayed up front. On the 25th lap, Sakamoto took over Jerry Usser, No. 92, a thing which rarely happens when Usser’s car is in good running order.

Usser who started the race at the top of the grid was overtaken by Sakamoto during the 35th circuit when he overtook Sakamoto. But Usser was still about a lap behind.

Sakamoto is one of the top drivers in the area and has been a strong contender in recent races.

REJECTION TO RECORD’s ITEM

Howscoy Cancer Story: Gets Dr. S. REPLY, AMA VIEW

A RECORD reader sent in a personal letter and in the name of the American Cancer Society, requesting information on the Howscoy clinic for cancer treatment. The letter was the July 6 issue of this paper.

The story mentioned that gos- top colon cancer, disease which has been a problem in medical circles for the past 50 years, is now on the clinic’s radar. The clinic has been working on a cure for cancer for decades, but the progress has been slow.

That in 1990 a complaint was filed under the Federal Food, Drug and Cosmetic Act in Texas, alleging that the clinic was using unapproved treatments. The clinic claimed that it was using treatments that were not approved, but were in the process of being approved.

The case was prosecuted successfully, with the clinic being fined.

The case took a turn when the clinic was accused of using unapproved treatments.

The American Cancer Society (ACS) is a nonprofit organization that is dedicated to preventing cancer and helping cancer patients and their families.

The ACS provides information about cancer, its causes, its symptoms, and its treatments.

Doctors say that the disease has not been cured, but that it can be controlled with treatment.

The ACS says that the disease is caused by tobacco, alcohol, ultraviolet light, and other factors.

The ACS says that cancer is caused by genetic factors, such as a family history of cancer, and by environmental factors, such as pollution.

The ACS says that cancer can be treated with surgery, chemotherapy, radiation, and/or other treatments.

The ACS says that cancer can be prevented by avoiding factors that cause cancer, such as smoking and excessive alcohol consumption.

The ACS says that cancer patients should see a doctor if they notice any changes in their bodies that could be symptoms of cancer.

The ACS says that people with a family history of cancer should see a doctor if they notice any changes in their bodies that could be symptoms of cancer.

The ACS says that people with a family history of cancer should see a doctor if they notice any changes in their bodies that could be symptoms of cancer.

The ACS says that people with a family history of cancer should see a doctor if they notice any changes in their bodies that could be symptoms of cancer.

Hawaiian Family of 6 Live In 1 Room; Urgent for HHC

What is "urgent"?

One Hawaiian family whose head has had an application in with the Hawaiian Housing Commission for months has recently been seen by a commissioner who found a man and wife and four children living in a single room because they couldn't find anything better. Their trouble was not altogether lack of money. In fact, the commission was told at a meeting this month, the family couldn't even afford to pay the rent. The children live on a priority list along with similar cases, to be given homes when and as soon as the money becomes available.

The company, called B&D Promotions, will focus on promoting local boxers and bringing in national boxers to Hawaii. The company's first event is scheduled for next month, and tickets are expected to sell out quickly.

**LOOKS LIKE ERNIE GREEN**

Ernie Green, a 20-year-old Hawaiian, has won the Hawaii State Lightweight Championship. Green defeated his opponent in a close match, and is now preparing for a title defense in the upcoming national lightweight championship.
WHY GOP POLITICIANS WANT BROWNELLISM NOW

BY JOHN B. STONE
Federated Press

A study of the origin of the specific bills in the so-called Brownell program which make their way in the National Association of Manufacturers, the U.S. Chamber of Commerce, the American Mining Congress and such corporations as the General Electric Co. The motive here is obvious—preservation of the status quo and sweeping conditions.

That’s why Joe AFL and UAW joined in this year’s action with less recusely members of the House judiciary committee in an attempt to block this session, at least, passage of the two anti-union bills. Anti-union and the trials to liquidate “Communist infiltrated” unions and the bill to set up a nationwide blacklist against workers who the attorney general thinks violates minimum wages laws. “Elbaslana”

Prefiguring Fall Campaign

Such severe restrictions would be a prefiguration of the House judiciary committee of a plan to set up a national security commission to look into the whole question of so-called Communist infiltration into the U.S. Congress and other governmental bodies. A STUDY OF THE political origins of the atomism campaign to get the Brownell program passed at this session would give Democratic congressmen a crucial but clear picture of what the Eisenhowers are up to. If the Democratic senators and congressmen ever saw that picture, they would voted not to go on the operation and enactment of Brownellism at this session would become an impossibility.

It should be obvious from the way in which Brownell took a leading role in the Senate subcommittee hearings into the Harry Dexter White case, even dragging FBI Dir. J. Edgar Hoover into congressional participation, that the Eisenhowers administration was preparing mass anti-red hysteria as its chief weapon in the 1954 fall elections.

To Brand Every Democratic Liberal

The eagerness with which GOP National Chairman Leonard Hall, Sen. Joseph K. McCarthy (R., WY.) and others took up the cry of 20 years ago about the “Communist infiltration” of the New Deal in the Senate, and all the Democratic senators, was evident.

After all, the chief actor for Eisenhower in that scoundrelous undertaking was Brownell! And the chief present man in it was the Eisenhowers program of union-busting and civil liberties smashing was Brownell’s. The Brownell moves in both instances are the same—creation of political hysteria that will brand every Democratic liberal a traitor and elect only Republican Democrats.

SHOULD ANY DEMOCRATIC senator or representative want the record spoken out in detail, he need only read a memo prepared by the staff of the Senate Republican policy committee entitled: “The Unconditional Fugitive: Fugitive Pong, Mibo & Choy, and that St. Sur has succeeded, after several ef- forts, in spurring the police force into action.

There is by OOP standards anyone who voted against Taff-Hartley was considered a demagogue. The status quo and naturalization act is a red.

Hit Brownell Package As “Neo-Fascism”

brownett wants Congress to go to the elections. Then every Democrat who during the Truman and Brownell administrations had one score voted to his credit can be carried to the conservative in the election campaign and if Brownell gets his bill the OOP voters can scream, “Why, under federal law this man should be in prison.”

The "Trainman News" newspaper of the conservative area of the railroad, branded the Brownell package “Neo-Fascism” in its July 12 issue. If Democratic politicians want to escape the fate of all non-conformists under fascism, they had better wake up before they become wholesale victims.

AND IN 1954?

"The burden of taxation on the property in the Kingdom is very unequably borne. The total assessed value of real and personal property is $6,770,500,000.00. The corporation property is assessed at $4,485,500,000.00. The assessed value of real property is $2,285,000,000.00. The assessed value of personal property is $1,985,500,000.00. The assessed value of real and personal property is $6,475,500,000.00." - W. R. Castle, "Taxation in Hawaii," in Hawaiian Annual, 1892.
**ECONOMIC STAGNATION**

Administration apologists and economists who still use McKinsey-era textbooks may pretend to take some satisfaction from the June employment and unemployment figures. But practical men can't. Even if we take the official figure of 3,267,000 unemployed at face value, the picture is disheartening. For, as CIO Pres. Reuther will put it, the picture is one of "economic stagnation." Under the tender guidance of his business, our economy has sagged to such a degree that hundreds of thousands of young people, who regularly enter the labor market during this period, just didn't bother to hunt jobs. They knew the jobs didn't exist. —CIO News

**EISENHOWER FARM PROGRAM**

The cost to the taxpayers of Uncle Sam's farm price supports during the past 30 years has averaged about 35 cents per person per year. The amount Uncle Sam has spent on farm subsidies has been only a small fraction of the amount spent in subsidies for business and industry. Yet in Washington today, the Eisenhower administration is attempting to weaken farm price supports. The big "factory" farmers may be able to stand it, but weakening of price supports may well mean the bankruptcy of hundreds of thousands of "family" farmers. Pres. James C. Patton of National Farmers Union estimates that if the Food, Agriculture & Conservation has his way, 1 1/2 million farm families will be forced off the land.

**FRENZIED PATRIOTISM**

It was bad enough when Ben Joseph McCarthy undertook to impeach the President from the Senate Senate's gallery for the honor of the country. But what is going on now is one of the greatest April Fools' Jokes of modern times. Mrs. Katharine St. George of New York apparently has gone one better. She wants to repeat the first amendment to the constitution! Mrs. St. George is a Republican. The St. George bill is one to "repeal the transnationalism through the mail at less cost than cost of publications, books, other printed matter, and films containing material contrary to the best interests of the U. S."... The first amendment to the federal constitution was designed to forbid such censorship. It was written into the constitution because the founding fathers feared that they had overlooked writing a guarantee of a free press... They believed the old republic had more to fear from the supression of ideas than from the exercise of an untrammeled freedom of the press and freedom of speech. —Minnesota Union Advocate

**LIKE TAKES HIGH ROAD AND NIXON LOW ROAD**

When Pres. Eisenhower—by the sake of the country and his own legislative program—goes to repeal the nasty political tactics of Vice Pres. Nixon, Nixon, for example, says Truman, Adlai and the Democrats in general "lost China." When did they, or the U. S. for that matter, ever "own" China? Moreover, the Truman administration did everything possible to save China from the "Reds" except the one thing that could have done it. They tried to send millions of American soldiers to fight a fullscale war in China, soon after World War II. If Nixon were honest, he would admit the American people were in no mood to stand for that. Nobody but the "China Lobby" was demanding that at the time. And that lobby was not working for the interests of the U.S. It was working for China's knee deep.

**Africa Next?**

With the cease-fire agreement after eight bitter years in Indochina, the colored peoples of the world have won another victory in their drive to end what they call "white imperialism." The aim is setting the colonizing solvent in Asia, the day draws closer with a few more of our colored sons in Africa on fire.

The lesson is being learned among the yellow, brown and black people that the wearer of power is linked with the welfare of all others. Division along lines of color makes no place but the oppressor's.

Some 140,000,000 people live in Africa. This population is larger than that of Asia. But since World War II, something like 900,000,000 Asians have achieved independence. What Africa has lacked in numbers has been made up for in natural resources. In their desire to grab the gold, the imperialists of Europe have shattered tribal customs and forced a new mode of living upon the people. With the eruption of liberation movements, the Africans are increasing their demands for the right to control their own destiny and better their living standards.

Aimed Oppressors and Now...

Colonial mismanagement is the cause of the trouble in Kenya between the Mau Mau and the white minority. The same conditions exist in and gobbled up rich areas in Asia, Africa and the Pacific were white. Those cost from London and Paris and the capitals of Europe to rule the yellow and brown and black subject people were white. No wonder, then, that a white skin is equivalent with Progress in all areas.

We in America had the power to change this. At the end of World War II, when America emerged as the world's greatest nation and as the champion of democracy, we could have minimized the color issue by backing the aspirations of these emerging non-white peoples and helping them get independence.

But a nation which permits discrimination and which allows its own non-white citizens to live in an inferior status could not possibly champion non-whites elsewhere. So we went to the aid of the oppressor, giving money and munitions to the dying empires of France and England and Holland. Today we are up to our necks in imperialism.

**Dawn Will Come**

Dr. Ralph Bunche of the UN in a speech May 1 so labeled us in no uncertain terms. And showdown is to come. We may have to answer at Harvard University in Washington, D. C., Dr. Meredith Johnson, B.S.E., this burning question: "To the U. S. military power to support police domination, the economic and social segregation and humiliation of the people of Africa?"

We have failed to hold the line for white imperialism in Asia. If the people of Africa rise up in anger and we fall back, we will not only lose what we still hold but we will not hold back the dawn. There are serious students of Africa who believe colonialism must be eradicated from Africa within five years. Already some sections, such as Nigeria, are on the road to independence.

**Not Isolated but Inter-related**

It must be remembered that Asians who have been isolated among the majority of people of Africa. There have been conferences and close cooperation between the major parts of Asia and Africa. Indonesia has asked for a conference between Asian countries and Africans. The Indonesian-Asian meeting was held April 10.

The question of colonialism is not isolated, (more on page 7)
