

System Discipline Meetings

The ACCFSC passed a motion requesting that the system have a budget that would provide funding for disciplines to meet on a biannual basis. These meetings would be faculty driven with a specific purpose or issue. These discipline meetings would foster a more collegial environment, which would result in more articulation of courses and would make transferring within the system easier for students.

There are 470 faculty on the neighbor islands, which would mean that 235 would be traveling annually at a cost of 276 per individual for a total of 62,745.
