*Bill descriptions provided by Legislative Reference Bureau’s “Bills Passed by the Hawai‘i State Legislature Regular Session of 2017”*
PREFACE

This report, prepared by the University of Hawai‘i System Office of the Vice President for Budget & Finance/Chief Financial Officer and the Government Relations Office (GRO), summarizes actions of the 2017 Regular Session of the 29th State Legislature affecting higher education.

The information provided includes summaries of individual bills and are arranged by subject matter under broad categories, such as academic issues and health issues. Note that bills under “Academic Issues” could also apply to health issues as well, and vice versa, but it is listed under a single category. Within each category, bills are listed in numerical order, not in order of significance.

Each summary is merely that—a summary. It is intended to direct the reader’s attention to a bill and to provide enough information for the reader to determine whether detailed analysis and possible development of an implementation plan is necessary. The summary is not a substitute for a holistic analysis of a bill in light of the particular circumstances of an office or institution.

The full text of each bill is available through a hyperlink in the electronic version of this document. The text, as well as the legislative history of each bill, is also available at www.capitol.hawaii.gov. This website is maintained by the Hawai‘i State Legislature and contains many other resources regarding legislation.
INTRODUCTION

The State Legislature adjourned its 2017 Regular Session on Thursday, May 4th passing 230 bills, 49 of which impacted the University of Hawai‘i either directly or indirectly. The University of Hawai‘i worked very hard with a number of lawmakers to advance the university’s needs and priorities.

This session, the University of Hawai‘i had a total of eleven (11) proposals approved by the President and introduced as part of the 2017 Governor’s Administrative Package. Five of those measures did not pass the legislature, which sought to: prohibit smoking on all UH campuses; provide statutory guidelines for the Hawai‘i Promise Program (however funding was appropriated in the state budget for this program); reinstate the president as the chief procurement officer; make rule making consistent between chapter 91 and 92; and encourage the development and use of microgrids.

Six of those bills passed the legislature:

- HB 425 (Act 038, SLH 2017) makes certain sections of the Code of Ethics inapplicable to technology transfer activities sponsored by University of Hawai‘i if the activities comply with the regulatory framework and research compliance program approved by the Board of Regents. Requires the Board of Regents to submit written status reports to the Legislature every year. Repeals on June 30, 2022.

- HB 427 (Act 185, SLH 2017) establishes a Dark Night Skies Protection Advisory Committee to assist the University of Hawai‘i in developing a statewide dark night skies protection strategy.

- HB 428 (Act 040, SLH 2017) allows the John A. Burns School of Medicine to continue to receive a portion of the physician workforce assessment fee for ongoing physician workforce assessment and planning to support the recruitment and retention of physicians in the State, particularly those in rural and medically underserved areas.

- HB 847 (Act 039, SLH 2017) establishes the Innovation and Commercialization Initiative Program to expressly give the University of Hawai‘i the legal authority to create, promote, and participate in new economic enterprises and expand workforce opportunities based on inventions and discoveries generated by or at the University. Repeals on June 30, 2021.

- HB 849 (Act 091, SLH 2017) reinstates the authority of the University of Hawai‘i System to maintain a separate accounting and financial management system that is compatible with the State of Hawai‘i accounting and financial system.

- HB 850 (Act 014, SLH 2017) repeals requirements for the University of Hawai‘i to prepare certain annual reports to the Legislature.

Some other bills pertaining to UH which passed the legislature include:

- HB 571 (Act 061, SLH 2017) appropriates $200,000 for the University of Hawai‘i Sea Grant College Program to develop a communication and outreach plan for emergency management and disaster preparedness, update and publish the Homeowner's Handbook to Prepare for Natural Hazards, and conduct education and outreach throughout the State.
- HB 794 (Act 186, SLH 2017) establishes the University of Hawai‘i (UH) Green Special Fund to support energy efficiency, renewable energy, and sustainability projects and services, and planning, design, and implementation of sustainability projects for UH's benefit. Requires UH to submit an annual report to the Legislature.

- HB 916 (Act 058, SLH 2017) makes an appropriation for the health care provider loan repayment program administered through the John A. Burns School of Medicine.

Other bills of significance which failed to pass the 2017 legislature include:

- HB 424 would have reinstated the President of the University of Hawai‘i as the chief procurement officer for contracts for construction and construction related professional services furnished by licensees under chapter 464, HRS, but also adds to the University of Hawai‘i board of regents two ex officio nonvoting members who are faculty at the university; and prohibited the University of Hawai‘i board of regents from increasing tuition fees until an unspecified date.

- HB 1278 would have prohibited the University of Hawai‘i Board of Regents from increasing tuition fees until 2027; and required the University to report to the Legislature regarding tuition increases and the university's repair and maintenance costs.

- SB 406 would have established a collective bargaining unit for graduate student assistants employed by the University of Hawai‘i.

- SB 429 would have adopted uniform laws on protecting the online accounts of employees, unpaid interns, applicants, students, and prospective students from employers and educational institutions, respectively.

- SB 419 would have required compliance with the Military Selective Service Act to qualify for state financial assistance for post-secondary education.

- SB 848 would have expanded the Hawaiian Language College's functions; authorized a Hawaiian language medium general education coursework pilot project; and supported the development of an implementation plan for Hawaiian language instruction throughout the University of Hawai‘i System.
