Questions

1. Please describe briefly how you learned about the GK-12 project.

2. Describe why you are applying for a GK-12 Fellow to work with your school/complex. How will you involve a Fellow in K-12 education?
3. How will the collaboration of a GK-12 Fellow help further your goals in improving science teaching and learning?

4. How will the proposed activities contribute to achieving the goal of the GK-12 project to improve the content knowledge and inquiry skills of students and teachers in K-12 schools in Hawaii?

5. What other faculty/staff at your school/complex have you consulted in preparing this application?

6. What evidence do you have that the school administration is supportive of having a scientist in the school?
