Apply Now!

The Maui High Performance Computing Center (MHPCC) is looking for motivated interns for the Summer of 2007. MHPCC is located on the island of Maui, Kihei, Hawaii. It is a Center of the Air Force Research Laboratory (AFRL), and is managed by the University of Hawaii. We are looking for interns from both the UH System Community Colleges and from the 4-year colleges, and will accept graduate students as well.

Interns from Community colleges in the HPC Systems Administration track will be recruited to work in support areas. These areas include:

- HPC Networking
- Linux Cluster Administration
- Database Design & Implementation
- Visualization & 3D Animation
- Web Design & Maintenance
- 24 x 7 Computer Operations

Interns from both undergraduate and graduate schools studying in related technical areas are also sought to work with mentors from MHPCC on related AFRL problems. Technical areas include:

- Bioinformatics
- Computational Chemistry & Materials Science
- Computational Fluid Dynamics
- Integrated Modeling & Simulation
- Signal and Image Processing
- Climate Weather & Ocean Modeling
- Scientific Visualization
- 3D Animation

The internships will be 10-week internships during the UH system summer break. To apply, go to [http://www.mhpcc.hpc.mil/general/jobs/uh-current/uh26702.html](http://www.mhpcc.hpc.mil/general/jobs/uh-current/uh26702.html) or look for the MHPCC job posting ID# UH26702.
