**VI. REPORT OF EXECUTIVE OFFICER**

President McClain requested a moment of silence in honor of Mr. Harris Okuda, a long-time employee of the University of Hawai‘i, who fell to his death at a student housing facility on the Mānoa campus.

President McClain reported that Hawai‘i Community College was awarded approximately $800,000 to develop youth programs. He also gave a status report on previous commitments made at the Board’s meeting in Hilo.

1. **Reallocation of funds to UH-Hilo’s fitness and training facility**

Four new fitness bikes plus three new lifting benches were purchased in addition to cleaning and painting the UH-Hilo weight room.

2. **Capital improvement program plans for the Hawaiian Studies Program at UH-Hilo**

Subsequent to last year’s Board of Regents’ meeting, a capital improvement plan supplemental budget request for $250,000 in FY 2005 was submitted but the 2004 legislature did not include this in the supplemental budget. For the 2005-2007 biennium budget, the Board of Regents approved $20 million for the Hawaiian Language Building, UH-Hilo. The request is for $2 million in FY 2006 for plans and design and $18 million in FY 2007 for construction.

3. **Report on plans for full funding of the College of Hawaiian Language as well as to increase its faculty**

There is a firm commitment to have a permanent reallocation of $250,000 to the College of Hawaiian Language. In the 2005-2007 biennium budget, there is $1.5 million for FY 06 and $2.6 million for FY 07 for UH-Hilo native Hawaiian initiatives.
4. Plans to separate the UH-Hilo and Hawai‘i Community College’s usage funding

The Chancellors of the two campuses are actively working with their staff and collectively identifying the areas of support. The 2005-2007 biennium budget includes an amount for Hawai‘i Community College to address this shortfall.

President McClain introduced Chancellor Rockne Freitas of Hawai‘i Community College.

Chancellor Freitas stated that he was hired to accomplish three objectives: To create an identity for Hawai‘i Community College; increase resources to the College; and improve morale. He said that the first thing he needed to do was to get on the Regents’ budget and this has been done with a very aggressive plan. In addition, he has been actively involved in conversations with people in the private sector who may eventually want to come forward with some public-private partnership to accelerate the process of creating a new campus on both sides of the island. Federal funding has increased over the last year and there is also a significant increase in morale. He recognized former Interim Chancellors Shirley Daniel and Sandra Sakaguchi who moved the College significantly.

IX. NEW OR OTHER BUSINESS

Recommendation by the Task Group on the Kaka‘ako Biomedical Research Center

Regent Tanaka reported that the Board of Regents called a special meeting on O‘ahu on October 1, 2004 to provide an opportunity for the entire Board to hear from the Task Group consultants their findings and recommendations related to the Kaka‘ako Biomedical Research Center. This was the first opportunity for the entire Board and the community to hear from the consultants and the task group.

In accordance with the Sunshine Law, deliberation and decision-making on the report must occur only at a duly-noticed meeting of the Board held subsequent to the October 1st meeting. At this meeting, Regent Tanaka recommended to the Board that following the deliberations, the Board accept the report as presented and refer this report to the University Administration for their review. Following the Administration’s review and consultation with the appropriate constituent groups at the University, the Board will welcome the administration’s recommendations on implementing all or parts of the report at the January or February 2005 Board meeting.

The Board has received a number of letters from individuals who are concerned about the governance structure as it relates to the School of Nursing. These concerns will be forwarded to the University administration for their consideration. As announced at the October 1st meeting, the Administration is charged with reviewing the Task Group’s report and consulting with the appropriate constituent groups of the University before submitting any recommendations to the Board of Regents.
The power point presentation at the October 1st meeting summarized their written report and is posted on the website of the Vice President for Academic Affairs. Copies of their written report have been distributed to the Regents and the President. After the Board accepts the Task Group’s report, the full report will be made available on the same website.

Regent Tanaka thanked Glenn Miyataki and Dick Sherman for their excellent work and their excellent presentation on October 1st.

Regent Tanaka moved to accept the report of the Task Group on the Kaka’ako Biomedical Research Center and refer the Task Group’s report to the President for his review. Following the President’s review and after consultation with the appropriate constituent groups, the Board will welcome the President’s recommendations on implementing all or parts of the report at either the January or February 2005 Board meeting. Regent Yamasato seconded the motion which was unanimously carried.

Appointment of Interim President, David McClain

Regent Lagareta moved to appoint David McClain as Interim President of the University of Hawai‘i for a period of two years consistent with the recommendations received. She said that Dr. McClain has stepped into a very tough position at a very tough time and is doing an outstanding job from the Regents’ perspective. Regent Tanaka seconded the motion.

Chair Lee echoed Regent Lagareta’s remarks and added that it has been an absolute pleasure to work with someone in whom the Regents have absolute trust and confidence in and who has the University’s interest at heart. She said that she was impressed with his respect for Hawai‘i and its people and his dedication to the University.

Regent Haynes stated that the University is lucky to have a person of David McClain’s ability and character. He has the respect and trust of all the stakeholders at the University of Hawai‘i.

Regent de la Peña stated that as the newest member of the Board, he is extremely fortunate to have started under Dr. McClain.

Regent Tanaka commented that this is a honeymoon period but the Board appreciates the efforts of Dr. McClain in working with the Board. He said that he appreciated the cordial atmosphere and hoped that this kind of rapport could continue.

Testimonies in support of Dr. McClain were received from the Chancellors, representatives from the Pukoa Council, the University of Hawai‘i Professional Assembly, and faculty and students from UH-Hilo and Hawai‘i Community College.

The motion to appoint Dr. David McClain as Interim President was unanimously carried.

President McClain stated he was both honored and humbled to be asked to lead the University of Hawai‘i. He added that he was very grateful for the confidence of the Board of Regents. His goal as the chief executive of the University of Hawai‘i
is to finance the hopes that have been raised by the University’s strategic plan and to bring more resources into the enterprise. He pledged that his leadership team, the chancellors and his colleagues at the University of Hawai‘i system office, working under the guidance of the dedicated Board of Regents, will be relentlessly ambitious for this University, which for nearly 100 years has transformed students’ lives, given them the ingredients for success, and in so doing has prepared them to change the world. He then introduced his wife, Wendie.
