SB 1035 SD1 – RELATING TO THE GENERAL EXCISE TAX

Chairs Dela Cruz and Keohokalole, Vice Chairs Keith-Agaran and Fukunaga, and Members of the Committees:

Thank you for the opportunity to provide testimony in SUPPORT of SB 1035 SD1 which exempts medical services provided by health care providers to patients who receive Medicaid, Medicare, or TRICARE benefits from the general excise tax.

Hawai‘i faces a shortage of almost 800 physicians. Through the surveys of physicians conducted by the John A. Burns School of Medicine (JABSOM) at the Hawai‘i Health Workforce Summit as to what could be done to recruit and retain more physicians, the fourth most popular answer from the 274 respondents to the survey was eliminating the GET on medical services. Physicians who have left the State indicate that the extra cost of caring for Medicare, Medicaid and Quest patients makes it financially burdensome to continue practicing here. For the same reason, many physicians no longer see this group of patients.

Medical services rendered at a nonprofit hospital, infirmary, or sanitarium are exempt from the general excise tax, while the same services rendered by individual or group practices or clinics are fully taxable. Presently, government programs such as Medicare, Medicaid, and TRICARE do not compensate for the difference created by the general excise tax, leading to some inconsistency in the economic impact to health care providers.

SB 1035 SD1 would be beneficial in eliminating the disparity in compensation as well as easing the financial burden of caring for patients with Medicare, Medicaid and
TRICARE. This in turn may encourage more physicians to practice and remain in Hawai'i.

Thank you for the opportunity to provide testimony on this bill.
