

Open Access is Sustainable Access for All!

Faculty scholars and researchers routinely give away the fruits of their labor to for-profit publishers of scholarly communication.

- 1) Research library budgets cannot sustain ever-increasing subscription costs for scholarly journals; open access journals provide a different model for scholarly communication that empowers the author rather than the publisher.
- 2) When research is published in open access journals and/or placed in open access institutional repositories, members of the public can access needed research results, which are often funded with tax-payer monies.
- 3) A growing body of research suggests that open access to research articles and research data spurs on new discoveries and is more cited than research locked behind a pay wall.

Join us in exploring these myriad efforts to liberate scholarly communication during the international celebration of Open Access Week, 2010. Events organized for the week are:

COLLECTIVE OWNERSHIP OF KNOWLEDGE: DIGITAL LEARNERS CHALLENGING OUR EDUCATIONAL ASSUMPTIONS

Wednesday, October 27, 2010

12:00 noon

Queen Lili'uokalani Center, Room 412

RSVP required as light lunch will be served

*RSVP at <http://tinyurl.com/2dv5m4k>

Speaker: Christine Sorensen, Dean of UH Manoa College of Education

OPEN ACCESS IN 2010: MAXIMIZING THE BENEFITS AND SECURING THE FUTURE

Thursday, October 28, 2010

4:00 pm

Sinclair Library, Heritage Reading Room

RSVP required wine and pupus will be served.

*RSVP at <http://tinyurl.com/2bveu36>
