

Ten Campuses, Endless Possibilities.

The University of Hawaii System

- A high tech environment
- Excellence in teaching and research
- A healthy, safe, friendly environment
- A multicultural atmosphere
- A wide range of higher ed learning opportunities

Message from the University President

We live today in an increasingly connected world, and the University of Hawaii is proud to be at the crossroads of the Asia-Pacific region.

We invite you to learn more about the University of Hawaii and our renowned programs. Founded in 1907 as one campus, we are now a public higher education system with ten campuses, including a major research university, two baccalaureate campuses, seven community colleges, and numerous learning, extension, research, and service centers at more than 70 sites throughout the state of Hawaii.

Designated in the United States as a land-grant, sea-grant, and space-grant university, our flagship campus is distinguished nationally. Among our ten campuses, we award associate, bachelor's, master's, doctoral, and professional degrees as well as short-term certificates. Each campus is accredited, and we have programs of distinction in many fields of study, including international business, marine sciences, astronomy, English language study, ocean and earth sciences, tourist industry management, agriculture, and engineering.

The University of Hawaii is one of the world's foremost multicultural centers for global and indigenous studies. Students' educational and learning experiences are enriched by the diversity of our academic programs and our student body where no one ethnic group constitutes a majority.

Explore our campus websites to learn more about the possibilities for study in a quality higher education program at the University of Hawaii.

Aloha,
Dr. David Lassner
President
University of Hawaii

Hawaii Quick Facts

The 50th state of the United States of America, Hawaii is a string of 8 main islands in the north central Pacific Ocean about 3,340 km (2,400 mi) west of San Francisco and approximately 6,195 km (3,850 mi) east of Japan.

Population 1.43 million
