Dear Chair Putnam and Regents,

Even though we opposed the Manoa reorganization which you approved last month, the Manoa Faculty Senate would like to thank the Board for taking our concerns seriously. With Phase 1 of the Manoa reorganization approved, we now request that the BOR establish a set of measurable objectives to evaluate the success of the reorganization. This will help guide in the design of Phase 2, and it will provide a guideline for Pres. Lassner in his evaluation from the BOR. Most importantly, it will provide oversight that the state government is requesting.

We thank you for your consideration.

Sincerely,  
Brian Powell  
Chair, Manoa Faculty Senate
