

UNIVERSITY OF HAWAI‘I SYSTEM LEGISLATIVE TESTIMONY

UNIVERSITY OF HAWAI‘I SYSTEM BUDGET BRIEFING

Testimony Presented Before the
House Committee on Finance

January 20, 2010

by

M.R.C. Greenwood
President
University of Hawai'i System

Testimony of M.R.C. Greenwood
President, University of Hawai'i System
Presented to the House Finance Committee
January 20, 2010

Chair Oshiro and members of the House Finance Committee: First and foremost, mahalo for your long and continuing support for and partnership with the University of Hawai'i. I appreciate the opportunity to speak with you about the University's ten campus system. With 58,000 students this past fall - the highest enrollment in the history of our system, an 8.25% increase from fall 2008 - UH continues to serve Hawai'i well. One hundred years ago the founders of the University had the foresight to build a system of higher education that has transformed countless lives in Hawai'i, and continues to do so. But today, in these unprecedented times, we face some truly tough choices.

The UH budget for FY 2009-10 was reduced by \$98M. These cuts were sudden, and repercussions are evident throughout the system. Our chancellors are doing their very best to maintain current services in these difficult times.

As your public higher education system, UH has developed strong strategic direction grounded in the long term interests of the state of Hawai'i. We see progress toward objectives that are critical to the future of Hawai'i – increasing the number of educated citizens, meeting workforce shortages, contributing to research and innovation. Our decisions to allocate or reallocate resources are, and will continue to be, guided by our strategic plan and what is important to the state of Hawai'i. But right now, in this economy, what Hawai'i needs is more jobs.

There are three ways for any state to increase the jobs available to its citizens. One, businesses within the state can increase their workforce. Two, businesses outside the state can choose to do business in Hawai'i. Three, new businesses and ventures can be generated in Hawai'i.

All three of these ways to create jobs depend on the University system. If companies and industries within the state are to grow, they must have citizens with the education, training, and skills needed in their businesses. To ensure that this occurs, our programs confer with community advisory councils to stay current with the needs of local employers and ensure that students are trained with the latest equipment and technologies used in the field.

New companies will come to Hawai'i to establish businesses if they know that they can hire the workforce they need; our ten campuses provide the education and training to attract these new businesses. As you know, the Legislature created an enrollment growth fund, and community colleges responded with hundreds of new classes for nearly 8,000 new students. In addition, a rapid response fund allowed community colleges to subsidize the enrollment of workers laid off during this recession and to meet training needs at Pearl Harbor and in small businesses. These needs will continue for the foreseeable future.

And finally, new business is generated in Hawai'i by the creativity and innovation that is the lifeblood of a first-rate research university. The \$400M + for research and training – more than \$1M a day - brought into the state of Hawai'i last year by our faculty not only creates high quality jobs, but underwrites research that leads to new breakthroughs, new

discoveries that can be translated into start-ups, companies that add to the quality of life in Hawai'i and employ our best and brightest. The possibilities are limitless and include innovations critical to the future in alternative energies, the environment, physical sciences, health care, and technology.

Even in these tough times, we believe that the state can help us to help ourselves as we create research and jobs. Recognizing the importance of facilities in these critical efforts, the Board of Regents approved our supplemental capital improvement budget of \$373M which includes our highest priority, \$31M in construction funds for the new Hawaiian Language Building at UH Hilo, which is shovel-ready; \$18M for health and safety related projects; and \$235M in repair and maintenance funding to reduce our backlog in five years. Only the Hawaiian Language Building project was included in the Executive Supplemental Budget to the Legislature.

We understand the fiscal realities within which the administration and legislature are operating. While decisions on what to restrict are never simple, I believe that in this fiscal crisis, higher education is critical to the future, and that investing in UH has immediate returns. For example, I ask you to restore the funding for the health and safety and sorely needed repairs and maintenance projects. These infrastructure improvements are required to attract and retain the quality of faculty and students needed for a first rate university; moreover, investment in UH facilities has a bearing on the costs we can recover to maintain support for extramurally funded research. Federal indirect cost rates (earned overhead) are negotiated, and the UH rate of 36.7% is low. The University of California Davis rate, for example, is 48.5%, and the University of Washington rate is 58%. Many factors influence indirect cost rates, but a major component is the level of investment in repairs and maintenance and new facilities. Thus, the poor condition of our facilities has a far-reaching effect on UH's ability to leverage external funds and produce even greater levels of research. And finally, monies provided for repairs, maintenance, and construction lead directly to jobs for Hawai'i's construction workers.

Another example of the return on your investment is the \$2.1M we are seeking for the continued stewardship of Mauna Kea. These monies are essential to ensuring that Hawai'i's bid for the Thirty Meter Telescope is successful. This project alone promises to bring nearly \$2B into our state. Beyond this one operating item, we did not request any changes to the budget you appropriated to UH in the last legislative session. We request, however, that you consider the long-term negative impact of the \$54.7M reduction in the proposed executive budget on our operations and our students, and urge you to place a high priority on higher education in your deliberations on the overall budget of the state.

And finally, the legislative package that we have put forth is to make the University more nimble. We know that the budget is incredibly tight, and we ask that, through legislation, you allow us to move more quickly to respond to opportunities that may arise. We want to have new mechanisms to fast track projects to get the jobs and facilities that the state needs.

We are committed to demonstrating that trust in UH is well placed; we believe that there is no better investment for short-term gains and long-term benefits for the citizens of Hawai'i. Investing in the UH is truly investing in the future of our state.

Thank you for your thoughtful attention. The chancellors and system vice presidents will be happy to assist me in answering any questions that you may have.

University of Hawai'i Mānoa and Aquaria
Chancellor Virginia S. Hinshaw
House Finance Committee, January 20, 2010

UH Mānoa is currently educating a large, growing population of diverse, talented students (20,360, an increase of more than 400), generating an impressive level of research and training grants (\$1.2M/day, up from \$1M/day) and strengthening our State's economy (creating \$5.34 in Hawai'i spending for every dollar invested in UH Mānoa).

UH Mānoa is striving to limit adverse impacts of the large and rapid budget reduction for our campus (a 26% reduction in general funds) by prioritizing and focusing on creative solutions. Examples include:

1. Protecting funding for a limited number of campus priorities (School of Hawaiian Knowledge, repairs & maintenance, and Campus Security) and imposing smaller cuts based on student class needs (Arts & Sciences).
2. Operating more efficiently by merging/closing programs, eliminating undersubscribed certificates and majors and developing further cost-saving measures through the Budget Prioritization Workgroup, <http://www.manoa.hawaii.edu/ovcafo/BPW/index.html>. While a number of changes are in process, they will take time to realize cost savings.
3. Expanding energy conservation efforts (Mānoa decreased energy usage by 7% last year) by increasing campus emphasis on energy conservation, replacing poorly functioning mechanical systems and closing 20 campus buildings during Mānoa Green Days (Nov. 26-29; Dec. 21-Jan. 3).
4. Increasing revenues through grants and contracts – secured \$220.7M in grants and contracts in first six months of the fiscal year, on a trajectory to bring in over \$400M once again for the year.
5. Generating recruitment strategies for new students and transfers (applications from UH community colleges increased 16% in Spring 2010).
6. Ensuring classes were filled to capacity; monitoring/identifying high demand courses; adding sections/shifting personnel to meet demand; ensuring classes were filled to full capacity (thereby accommodating more students in fewer classes and reducing unsuccessful registration attempts.)

Even with these efforts, however, the harsh reality is that the budget reductions have impacted the entire campus. For example, the number of UH Mānoa faculty, staff and administrators decreased by 370 or 5.7% since March, 2009, with the most severe reduction in lecturers (40% non-renewed). Such personnel losses and limited resources have adverse impacts and interfere with meeting campus priorities, such as:

1. Student success, particularly improved retention and graduation rates - Budget reductions have limited initiatives to support this priority. Students also face delays in psychological counseling, financial aid assistance, and career advising.
2. Breadth of class offerings to enrich student learning experience - the number of classes was reduced in fall 2009 by 9%.
3. Support for faculty and staff – fewer people means increased workloads which threatens productivity. Failure to replace critical personnel to support the teaching and research enterprise is not a sustainable approach for UH Mānoa as a major generator of educated citizens and research advances.
4. Facilities upgrades - The Legislature's appropriation of \$92 million for capital renewal and deferred maintenance in the last biennium is producing much-needed improvements in Mānoa's physical plant, resulting in energy cost-savings and job opportunities for Hawai'i's citizens. However, due to long term neglect of R&M, major structural failures, most recently including Gartley and Edmondson Halls, continue to create unanticipated, significant costs.

Budget challenges emphasize the need to remove barriers and, thereby, increase opportunities for revenue generation and provide flexibility to achieve savings. In that way, available funds can be focused on maintaining academic excellence. We welcome the opportunity to explore and achieve changes that enable UH Mānoa to best serve the State of Hawai'i.

University of Hawai'i at Hilo
Rose Tseng, Chancellor
House Finance Committee, January 20, 2010

On behalf of the University of Hawai'i at Hilo, I express our deep appreciation to the legislature for its investment in us over the years. With your support, UH Hilo has become a comprehensive university, with 36 bachelor's, six master's, and two doctoral degree programs. However, at this time, budget cuts are devastating our small but growing campus. Our share of the UH budget cut totals \$7.4 million, which is 21% of our General Funds; it will increase to \$7.8 million in 2011. Even while absorbing this drastic reduction, UH Hilo is serving record numbers of students, and we are using multiple strategies to cope. They include using tuition, extra-mural and other funds to make up some of the general funds lost, deferring hiring, eliminating temporary positions, freezing civil service positions, and implementing collective bargaining and efficiency measures. Budget reductions and priorities were developed via campus wide committees and collaborative processes. **UH Hilo has already initiated the following:**

- Our **Long Range Budget Planning Committee** has worked diligently to plan resource use and encourage innovative budget efficiencies. We are addressing student needs in creative and cost effective ways. For example, we recently equipped a residence hall cafeteria to double as a large-capacity classroom during certain hours of the day. To be more efficient and user friendly to students, we merged all of our various academic support services into one center, which offers tutoring and other instructional services in the library.
- Our **Campus-wide Enrollment Management Team** led our successful effort to offer fewer classes but to more students and at a higher fill-rate. We also generated more student semester hours. But we cannot continue indefinitely to stretch our limited resources.
- We **deferred hiring in all types of positions**. Some of the faculty positions deferred are in such high demand fields as biology, chemistry, psychology, communications, and English.
- **We protected certain operating priorities** to maintain forward momentum. These include the College of Hawaiian Language, first-year student success, student health services, campus security, classroom instruction, enrollment growth, workforce development, and essential repairs and maintenance.
- Our **Sustainability Initiative** is reducing energy use and utility costs. Roof-top photovoltaic projects are planned using grant funds. Our **Cost Savings Initiatives** are examining campus operations to improve efficiencies. Areas identified include travel, supplies, service agreements, equipment, among many others.
- Through entrepreneurial efforts, we are generating **new revenue streams** by obtaining research and educational grants to supplement resources.

The cuts have been painful. Further reductions would undoubtedly harm our student body, which has a high percentage of first-generation and Native Hawaiian students. Our students would not be able to get needed courses nor graduate in a timely manner. Further reductions would also harm our community. For every \$1.00 in state investment, UH Hilo generates an additional \$3.06 in direct expenditures.¹ UH Hilo is highly involved in fostering our community's economic development. We oversee the statewide Small Business Development Center and the Office of Mauna Kea Management, both of which are crucial to the state's economy.

We want to thank you for this opportunity to present testimony. We look forward to partnering with you as UH Hilo evolves as a comprehensive university meeting state higher education and workforce needs in the years to come.

¹ David Hammes, UH Hilo Economics Professor, February 2008.

University of Hawai'i - West O'ahu
Chancellor Gene Awakuni
House Finance Committee, January 20, 2010

As a developing campus, the economic downturn and resultant funding reduction significantly impacts UH West O'ahu's ability to roll-out the development of educational programs and to accommodate the growth in student enrollment. We understand, however, that the state is in an economic crisis and we will have to make fiscal adjustments accordingly, as is true for all our campus colleagues.

UH West O'ahu sustained one of the highest enrollment growths in the system over the past year of nearly 20%. This student growth in turn generated the need for additional program and course development, requiring additional faculty, classroom space and support costs. Internally, we pursued the following means to address the funding restrictions:

- Hiring
 - Freezing hiring of faculty positions (Social Work, Education)
 - Filling retired faculty positions with lecturers to meet instructional requirements
 - Increasing course loads of faculty and lecturers to teach more courses and course sections

- Alternatives to Delivering Campus Priorities
 - Doubling up on office space and utilizing conference rooms/faculty lounge as classrooms
 - Increasing online and hybrid classes (in class and online offerings – 30% of UHWO classes are offered online; 56% of Business classes, the largest major on campus are offered online)
 - Cancelling low enrollment courses (i.e. Accounting, Botany, Chemistry, Economics, and Marketing)
 - Cross-registering in general education courses (i.e. Introductory English, History) with Leeward Community College

- Reducing Discretionary Spending
 - 6% reduction in overall discretionary spending by all program units

The financial downturn and the required budget reductions counter the growth momentum of the campus. The need to defer hiring of instructional positions and additional general fund reductions impact our ability to move forward with the development of educational programs in areas such as science and social work.

UHWO has been relatively small for quite some time, but with your support it has emerged as a high quality, comprehensive university. We remain committed to providing an accessible, relatively low cost education especially to students in the Leeward and Central O'ahu areas to make their dream of obtaining a college education achievable.

Our campus development efforts remain our priority as we look to secure additional funding to continue the march toward initiating campus construction in the Fall of 2010, with the completion of the first phase of the campus development by the end of 2011.

Thank you for your time. I am happy to answer any questions you may have.

University of Hawai'i Community Colleges
Vice President John Morton
House Finance Committee, January 20, 2010

The University of Hawai'i Community Colleges System is dedicated to increasing the educational capital of the State, addressing the needs of underserved populations, and revitalizing and expanding the State's economy. The Community Colleges provide first generation college students, educationally and economically disadvantaged individuals, and under-represented minorities a gateway for upward mobility, while providing a highly trained and highly skilled workforce for Hawai'i industries.

The State's economy is unquestionably at a critical juncture that impacts virtually every State program and every resident of this State. The Community Colleges play a fundamental role in strengthening the economy by improving the competitiveness of existing industries through workforce enhancement, by diversifying the economic base through initiatives that support new and emerging industries, and by creating opportunities for individuals to improve their employment through education. As such, the Community Colleges recognize that this is not the time to reduce programs and services, but rather a time to maintain or even expand program offerings and services to continue to address the growing needs of the State.

The Fall 2009 credit headcount enrollment for the Community Colleges was 32,203 students, a one-year increase of 13.2% over Fall 2008; a three-year increase of 27.5% over Fall 2006. Spring enrollment figures maintain this trend with the current opening day spring semester credit headcount enrollment exceeding the 30,000 level for the first time in our forty-five year history. The Legislature provided the Community Colleges with \$1.773 million for enrollment growth. We have reallocated \$1.5 million of Educational Stabilization funds for the enrollment increases. This additional support is required as Community Colleges are not able to cover the cost of additional classes solely with the additional tuition and fees collected from new students. Using the Rapid Response fund, we were also able to partially offset the tuition for dislocated workers. Coupled with a firm commitment to optimize existing instructional capacities and a strong focus on maximizing existing resources, our Community College campuses are committed to meeting the increasing demands of our students with the addition of critically needed class offerings.

The Community Colleges have aggressively embarked on a program focused on energy efficiency and renewable energy projects on all of our campuses. We have selected a vendor for Kaua'i CC and hope to have vendors selected for the other campuses by the end of January. We are also designing the Palamanui Campus in West Hawai'i as LEEDS Platinum. The Community Colleges also remain committed to addressing repair, renewal and replacement (RRR) needs. Repairs and maintenance funds are critically needed each year to properly maintain a safe and healthy learning environment.

The Community Colleges also plan to improve student success in transfer and graduation. Building on our "Achieving the Dream" initiative, we will seek to improve student readiness through developmental education, student retention, strategic planning, and financial aid for students.

The Community Colleges remain steadfast in its commitment to "being a part of the solution" during these very challenging economic times.

**Hawai'i Community College
Chancellor Rockne Freitas
House Finance Committee, January 20, 2010**

The biggest issues in education today are those of access and quality. In an effort to respond to these concerns, Hawai'i Community College's (HawCC's) mission clearly defines our college as a "change agent" for those in the community seeking access to higher education opportunities. We are an instrument of "reflection and change" for the community we serve. HawCC fulfills its mission by offering educational opportunities for students to pursue academic achievement, providing training to develop a skilled workforce, and support economic development. We have strengthened our partnerships with the State Department of Education (DOE) and our island community to provide for a rich and unique college learning experience.

The downturn in the economy has had a negative impact on our ability to:

- Sustain a stronger partnership with the DOE to provide for and support educational enhancement programs to students who are disenchanted with school;
- Purchase new and replacement equipment for our Career & Technical Education programs, Academic Support Services, and Administrative Services;
- Purchase vehicle replacements in order to provide instruction and services to the entire island. Current vehicles are not safe for travel outside of the Hilo area; and
- Pay for the rising cost of utilities.

The financial downturn in the economy has left people without work sending them to the college as a "change agent" for a better, more secured future. With Hawai'i Island having the highest unemployment rate in the State, this plight for re-training and higher education opportunities has contributed to significant enrollment increases. Enrollment increases bring additional resources to the campus, but creates a need for more space. To respond to the "access" need, especially in the underserved West Hawai'i, HawCC recently completed the update of the Long Range Development Plan (LRDP) to construct a new campus at Palamanui. In addition, we are in the middle of an LRDP process for a new campus in East Hawai'i. Both campuses will have greater enrollment capacity.

We will make a concerted effort to reduce utility costs by 10% through conservation exercises with full cooperation from faculty and staff. I am hopeful that we may return to fulfilling commitments as a full partner with the DOE to address the educational needs of Hawai'i Island.

Hawai'i Community College commits itself to enhancing student learning by embracing our unique Hawai'i Island culture and inspiring growth in the spirit of "*E `Imi Pono.*"

Honolulu Community College
Chancellor Michael Rota
House Finance Committee, January 20, 2010

Honolulu Community College (HCC) is a comprehensive community college that features a rigorous liberal arts program and a wide array of professional and technical programs designed to meet the State's need for a specialized workforce. Hawai'i's aging workforce, particularly in fields related to HCC's mix of programs, and the business community's increased dependence on specialized technologies, means that Hawai'i's future economic success is becoming increasingly dependent on the success of HCC to educate and train individuals to enter the workforce as well as renew the skills of the incumbent workforce.

The College is now experiencing the largest enrollment numbers since 2002. Over the last academic year, Fall 2008 to Fall 2009, student enrollment grew 8.3%. Focused on meeting the needs of the students and the industries we serve, the College has effectively managed the enrollment demands through the availability of enrollment growth funds, administered by the UHCC Vice-President's office. This funding has provided the necessary support for an additional 95 course sections in high student demand areas.

As is the case with all Hawai'i's community colleges, HCC is focused on dealing with the underprepared student population. As a number one priority on campus, initiatives such as additional financial aid student support, developmental course redesign and enhanced student service programs are in the implementation stages. If Hawai'i's economy is to prosper and grow, the industry will require a prepared workforce. The College will continue to emphasize the importance of post-secondary education, through the relationships established with the Department of Education, such as the Construction Academies.

The College works to repair, renovate and renew aging facilities that are imperative to meet industry needs to support the economy. The uniqueness of HCC's programs in the career and technical fields requires specialized facilities and equipment. With the growth in enrollment, the College works to fund these necessary and important expenditures. It is essential that we pursue the investment necessary to keep the facilities safe, secure and productive in meeting the changing workforce demands.

The release of the planning funds for the Advanced Technology Training Center on the main campus is a major step forward in the much needed investment into the campus infrastructure. As the technology training center of the Pacific, the College will utilize the future training center to further develop specialized skills training for the workforce. The Center will also provide up to date science facilities to promote more STEM related areas of study. Supporting STEM related fields of study and the coordination of academic planning across the University of Hawai'i system is imperative for our workforce to remain competitive and cutting edge.

The current fiscal climate has brought challenges to the College. Through reallocation of positions, securing additional sources of funding and implementing energy saving policies, the College has been able to support its programs. The College will continue to work as a cohesive unit to handle additional fiscal challenges, while focusing on the College's mission and commitment to instruction.

Kapi'olani Community College
Chancellor Leon Richards
House Finance Committee, January 20, 2010

Kapi'olani Community College's Fall 2009 credit headcount was 9,102 students, a 25% increase over the 7,272 students enrolled in the Fall 2006. To meet the surge in enrollment, we have added additional sections of classes, extended our schedule of course offerings to the late afternoon, increased the number of online courses offered and temporarily increased the number of seats available in high demand classes. For Fall 2009 alone we experienced an 11% increase in enrollment over Fall 2008. It has been through the cooperative and creative efforts of the faculty, student services personnel, academic support personnel and administrative staff that we have been able to develop solutions to meet the student demand within existing physical resources. We anticipate this past fall's increase to follow through to a record Spring 2010 enrollment of 8,700 students.

We believe that Kapi'olani is well positioned to continue to be a campus in high demand for students entering higher education for several reasons. We have increased access to baccalaureate programs through degree pathways in partnership with the University of Hawai'i at Mānoa (Ka'ie'ie, May 2007), University of Hawai'i – West O'ahu (Mananawai, December 2007) and University of Hawai'i Hilo (Ho'oimi, May 2006, revised January 2010). Community outreach and proactive partnerships have improved access to healthcare-related workforce development programs for underserved regions and underrepresented groups in Leeward and Windward O'ahu, Maui and Hawai'i. Kapi'olani CC, with funding from the last biennium, extended its nursing program to Leeward and Windward Community Colleges to address the workforce shortages there. Access has also increased through outreach to underserved areas via distance education. To illustrate, the proportion of Kapi'olani students who attend only face-to-face classes has dropped from 82 percent in Fall 2006 to 67 percent in Fall 2009. Conversely, the proportion of students enrolled in online courses only has increased from 7 percent in Fall 2006 (543 students) to 15 percent in Fall 2009 (1,384 students). In addition, the courses and programs offered by Kapi'olani attract students from across the UH system. Of the 9,102 students enrolled at Kapi'olani during this past fall semester, 2,056 or 22.6% were home-based at another UH campus.

While increasing enrollment strategically, Kapi'olani CC has not only diversified its student population by attracting non-resident students and resident students especially from underserved groups and areas. We strongly believe that the diversity of our student body has created a distinctive learning environment. International programs and a commitment to promote an ecology of engaged learning and teaching for improved retention and persistence have fostered a shared sense of community and engagement amongst the students and faculty on campus.

The current year restrictions and expected reduction in general fund appropriation for FY 2011 will constrain Kapi'olani's ability to serve the increasing and diverse student population. While direct instructional services have not been compromised, other support services are being significantly stressed.

In the past we have highlighted the deterioration of the physical facilities and the need to address the pending back log of repairs and maintenance projects. We appreciate the support of the Legislature, Executive and University administrations for appropriating and allocating resources to address the problems. For this fiscal year, there are 10 projects worth \$9 million in construction for repairs to roofs, air conditioning and security systems.

Kaua'i Community College
Chancellor Helen Cox
House Finance Committee, January 20, 2010

In an economic downturn, people across the nation turn to community colleges, and Kaua'i residents look to Kaua'i Community College to get the education and skills they need for employment. Fall 2009 enrollment was 24% higher than Fall 2008, and Spring 2010 enrollment is up substantially as well. The rise in enrollment is good news both for the College and the community but also presents challenges as the College seeks to provide classes and support services for more students. The increased enrollment represents greater retention of current students, an increase in students from high school and an increase in older students from the workplace.

To accommodate the variety of students, we have filled sections of courses that previously were running only partially filled and added sections where necessary. In addition, we have accelerated the development of a Learning Success Center, where students receive tutoring, counseling and coursework. We also have been working closely with Kaua'i high schools to align curriculum in science and math, and have begun to address English and writing curriculum as well. Continuing Education enrollments are up as well, and we added courses to assist job seekers with application skills, provided courses to upgrade job skills, and developed offerings for the developing green economy.

Scarce resources and high demand present an opportunity to meet the needs of our community effectively and efficiently. This has led to new partnerships to improve opportunities for our students. Through a partnership with Hawai'i Space Flight Laboratory, we will locate a Telemetry Station on our campus to provide opportunities for students. A second partnership with a local radio station has enabled our Hawaiian Studies students to launch a Hawaiian Language broadcast from campus. A third partnership, with Kaua'i Farm Bureau, established a campus farmers market.

The College is moving ahead with several energy projects. Currently, PV panels are being installed on our One Stop Center and additional efficiencies and renewable energy production will be realized through a Power Purchase Agreement with Chevron Solutions.

Kaua'i Community College thanks the Legislature for your support. We embrace the current situation as an opportunity to increase service rather than lament the lack of funds, and we feel honored that the community turns to us for solutions that get people to work now and prepare for the future.

**Leeward Community College
Chancellor Manny Cabral
House Finance Committee, January 20, 2010**

In its forty-one year history, Leeward Community College (LeeCC), including its Waianae Education Center campus, has grown to be the third largest of the 10-campus UH system with a record Fall 2009 student enrollment of over 7,500 students – a 30% increase in the past three years. It has also grown to be the largest native Hawaiian serving community college with 1,625 students or 24% of its spring student population being of Hawaiian ancestry as of 1/10/10. The reasons for the substantial growth are a combination of influences, including the community's response to the changes in the state's job market and economic conditions, strategic marketing by the college, selective outreach investments, an enrollment growth funding incentive by the legislature, an increasing number of mutually beneficial articulation agreements with our 4-year higher education partners, selective programmatic expansion, CC System initiatives such as Achieving the Dream, and a focused Strategic Plan.

Noteworthy workforce development achievements include the College graduating its second cohort of students in the field of Process Technology. This hybrid credit/non-credit program prepares students for high-tech jobs in the petrochemical, refining, and power generation industries, partnering with industry leaders such as Tesoro and HECO. Our Office of Continuing Education and Workforce Development (OCEWD) is primed to develop energy, transportation and sustainable technologies programs as the college anticipates receiving federal ARRA (American Recovery and Reinvestment Act) funding.

Another flourishing workforce development initiative is the College's Teacher Education (AAT) program. With legislative funding originally provided during the 2005-07 biennium, the enrollment has grown 1500% from 24 students in the fall of 2006 to 381 students in the fall of 2009. Final planning and design for a new Education Building should be complete by May 2010. The College's number one CIP priority is construction funding for the 24,000 sq. ft. Education Building.

The largest student ethnic group at LeeCC is Filipino. The College has been extremely fortunate to receive funds supported by Senator Inouye totaling \$638,000 over the next two fiscal years. The "Sulong-Aral" program will address increasing Filipino student achievement, particularly as it relates to successful completion rates at LeeCC and transfer rates to the UH four-year campuses.

The College's commitment to the Leeward Coast continues to grow. LeeCC is in a 3-phase facilities implementation plan for its Waianae Education Center campus: Investigation, Acquisition and Renovation. If all goes as planned, the College hopes to have a ribbon cutting ceremony for a newly renovated facility in January 2011.

The impact of the rail system on our campus (the first UH Campus to have a transit stop) cannot be underestimated in terms of enhancing the mobility of our students and being a catalyst for an even greater future enrollment increase. Early 2011 is the expected start of construction of the LeeCC Station, and late 2012 is when initial service from Waipahu to LeeCC is anticipated.

Leeward Community College continues to put students and our community's needs first and foremost as we prioritize the distribution of funds and the prioritization of our goals and objectives. The commitment to innovation, relevance, and responsiveness will continue to guide our short and long term planning.

**Maui Community College
Chancellor Clyde Sakamoto
House Finance Committee, January 20, 2010**

As Maui County continues to experience high unemployment, students, residents and our community at-large increasingly rely on the College to play a major role in economic recovery. UH Maui CC has responded by expanding access to developing workforce training and academic programs that will support sustainable living wage careers. Over the past two years, the College served record numbers of students in each semester: Our 4,114 student Fall 2009 enrollment represented a 25% increase, the greatest percentage of growth in the UH System compared with 3,287 students in Fall 2008, 10% more than 2,981 students enrolled in Fall 2007. The current Spring 2010 registrations indicate another 29% (3,908 students as of January 11, 2010) increase over Spring 2009 with registrations still continuing.

Some highlights of our accomplishments over the past two years include:

- Added a second four-year bachelor of applied science in Engineering Technology to begin in Fall 2010.
- Completed the transfer of accreditation from WASC Junior (Accrediting Commission for Community and Junior Colleges) to the WASC Senior (Accrediting Commission for Senior Colleges and Universities) Commission (this status allows UH Maui CC to continue its open admissions to lower division technical and general education associate degrees while permitting the expansion of four-year degrees to meet needs and opportunities in Maui County).
- Added Dental Assistant Certificate and Dental Hygiene Associate Degree programs since the last biennium.
- Consolidated Building Maintenance, Carpentry, Sustainable Technology and Welding programs into one Sustainable Construction Technology program.
- Implemented Maui Swap Meet Lease that facilitates Culinary and other programs access to test and market products/services at no-cost to the students or programs
- Completed a college-wide reorganization to improve its effectiveness and efficiency.

With the legislature's assistance, UH Maui CC continues to upgrade its physical plant and will construct a new science facility...currently out to bid. Participation in the NSF Advanced Technology Solar Telescope project, construction of a HUD-funded Hawaiian Studies building, the conversion of our vacant student housing facility into a learning laboratory for Hospitality students, and a contribution from developer Everett Dowling for the Palauea Cultural Reserve are projected to begin in the near future. Finally, the College plans to execute a long-term agreement with an Energy Service Company to reduce our utility costs through major efficiency retrofits and large-scale renewable energy systems as well develop a bachelor's in Sustainable Sciences.

While resources to support travel are scarce, the college continues to pursue new international exchange agreements to enrich our local students' educational experience through agreements with Shanghai Normal University, Hyecheon University in Korea, the Postsecondary International Network and the International Small Island Studies Association. As the only institution in the County of Maui representing the University of Hawai'i System, Maui Community College and its University Center seek support to accommodate the increasing higher learning demands and sustain the economic health of our tri-isle region.

**Windward Community College
Chancellor Doug Dykstra
House Finance Committee, January 20, 2010**

Windward Community College begins the spring semester for AY 2010 having enjoyed two semesters of unprecedented growth in enrollment with a 20% increase for the fall semester and a 26% increase in the spring semester. The Enrollment Growth Funding Initiative has made this growth possible by allowing the college to increase its course offerings by 22% over the span of this academic year. The college plans to continue to expand access for students by increasing the number of its online course offerings; purchasing high definition videoconferencing equipment (with Title III funds) to provide synchronous instructional services to Waimanalo and Kahuku; and finally by developing and publishing a three-year plan of guaranteed evening course offerings.

The college was greeted at the beginning of the current academic year with the approval of its grant proposal to H.U.D.'s Office of University Partnerships for \$800,000. The project calls for the restoration of the Waikalua Fishpond in Kāneʻohe in partnership with the Pacific American Foundation and the Hawai'i Institute for Marine Biology. It will firmly establish the college's reputation for preservation of cultural resources in service to the educational interests of the community at all grade levels and in the general interest.

With 42.5% of its current enrollment consisting of students of Hawaiian ancestry, Windward Community College continues to provide a supportive atmosphere dedicated to active participation in the strategies of the Achieving the Dream Project. Improving financial aid outreach, making new student orientation mandatory with a Frosh Camp program, providing supplemental instruction, and promoting learning communities are part of an Achieving the Dream Project designed to improve outreach, retention and graduation/transfer figures. Moreover the college has filled its position for an 11-month Hawaiian Studies instructor and work is moving forward on developing curricula to broaden the offerings in the Hawaiian Studies Academic Subject Certificate.

The college's newly approved Veterinary Assisting Certificate of Achievement program is doing very well with 91% of its seats filled this semester and one week of late registration still to go. Additionally the college anticipates the groundbreaking ceremony for the long awaited 62,000 square-foot Library Learning Center (LLC) that will complete a quadrangle of academic buildings on the Kahalu'u side of the campus. The structure will incorporate building materials from an inherited State Hospital building that is being demolished to make way for the LLC. Finally, the college continues to seek ways to contribute to environmental greening by instituting a worm composting project that will be using the green waste from its Kāneʻohe campus Cafeteria operations to produce the compost that will be used in its Agricultural Tech and Plant Biotech co-curricular projects.

Budgetary constraints on the college are such that should the collective bargaining fail to produce the expected savings to meet the budgetary restriction, the college would be obliged to draw on funds allocated for equipment replacement. Additionally, much needed repairs and maintenance would be deferred exacerbating an already significant backlog of repairs.

Mission Statement

Hawaii Revised Statutes 304A-102 states:

The purposes of the university are to give thorough instruction and conduct research in, and disseminate knowledge of, agriculture, mechanic arts, mathematical, physical, natural, economic, political, and social sciences, languages, literature, history, philosophy, and such other branches of advanced learning as the board of regents from time to time may prescribe and to give such military instruction as the board of regents may prescribe and that the federal government requires.

University of Hawaii Board of Regents Policy states:

The primary mission of the University of Hawai'i system is to provide environments in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom, and values that will help ensure the survival of the present and future generations with improvement in the quality of life.

The UH System Strategic Plan approved by the Board of Regents in 2002 provides a fuller description as follows:

The common purpose of the University of Hawaii System of institutions is to serve the public by creating, preserving, and transmitting knowledge in a multi-cultural environment. The University is positioned to take advantage of Hawaii's unique location, physical and biological environment, and rich cultural setting. At all levels in the academy, students and teachers engage in the mastery and discovery of knowledge to advance the values and goals of a democratic society and ensure the survival of present and future generations with improvement in the quality of life. Functioning as a system, the purposes of the University of Hawaii are to:

- Provide all qualified people in Hawaii with equal opportunity for high quality college and university education and training.
- Provide a variety of entry points into a comprehensive set of postsecondary educational offerings, allowing flexibility for students to move within the system to meet individual educational and professional goals.
- Advance missions that promote distinctive pathways to excellence, differentially emphasizing instruction, research, and service while fostering a cohesive response to state needs and participation in the global community.

As the only public higher education institution in Hawaii, the UH System bears a special responsibility to prepare a highly educated citizenry. In addition, the System supports the creation of quality jobs and the preparation of an educated workforce to fill them. Building on a strong liberal arts foundation, the UH System prepares the full array of workers from technicians, physicians, and scientists to artists, teachers, and marketing specialists—who are needed in a technologically advanced and culturally diverse island state.

Prepared by UH Budget Office

* BI 2007-08 & 2008-09 operating funds includes an increase of \$590,000 for Property Insurance Premium which are part of Risk Management Costs, and should be a Pass Through Fund adjustment; however, since the Legislature appropriated it in operating funds, it is shown that way here.

** For FB 2009-2011 the Legislature transferred the budget for the pass through funds (health premiums, retirement benefits and debt service costs) to the State Department of Budget & Finance. Accordingly, adjustments have been reflected on this schedule in the years prior to FY 2009-10 for comparability purposes.

		campus as an organization by providing campus-wide logistical, security, technical support, maintenance and other supporting services.		

Waikiki Aquarium
Priority List of Functions

Table 2

Pri #	Description of Function	Activities	Prog ID(s)	Statutory Reference
	Establish and maintain the state aquarium for the general public.	Act 184 (SLH 1995) designates the Waikiki Aquarium as the State Aquarium, and further provides that the objective of the UOH-881 program is to enrich the lives of people of all ages by providing public programs, education, research, and exhibits of the aquatic life of Hawaii and other regions. The Aquarium is open to the public 363 days per year and hosts over 300,000 individual visitors annually.	UOH 881	HRS 304A-1652
	Maintain educational programs for organized school groups.	Last year over 28,000 school students, teachers, families with children and individuals utilized Waikiki Aquarium marine science education programs. Modest tuition fees are charged for most programs, but Aquarium admission for Hawaii school students remains free. The primary emphasis of Aquarium education programs is science literacy and conservation education.	UOH 881	HRS 304A-1652
	Performs research and exhibition to the public of aquatic life of Hawaii and other regions.	Ecology, natural history, biological diversity, and conservation are emphasized throughout the Aquarium, in exhibits and programs. Exhibit concepts, design and execution have received national awards for excellence, e.g., the AZA MACE award for conservation presented to the Waikiki Aquarium for the "Corals Are Alive" exhibition. TABLE 4 ATTACHMENT

For FY 2010 and FY2011, an Executive general fund restriction of 29,413,864 was imposed for the Manoa campus as well as a 34,227,509 permanent reduction imposed by the Legislature.

Manoa is addressing the budget cuts by using a combination of strategies:

- Federal Stabilization Funds,
- Executive Salary Reductions
- UHPA, HGEA, UPW Salary Reductions
- New Tuition Revenues and Carry-forwards
- RTRF
- Program Budget Adjustments

Within the program budget adjustments, Manoa prioritized the cuts. Repairs & Maintenance, Health & Safety and the School of Hawaiian Knowledge were the highest priority and were not cut. In addition, the core academic instructional programs were cut less than the rest of the programs.

The impact of reductions to Manoa's programs has resulted in reductions in the number of class offerings, increase in class size, nonrenewal of lecturers, decrease in temporary employees, inability to fill critical vacancies and the redirection of planned investments for student services, increased scholarship, repairs & maintenance

Attachment to Tables 4 and 5

Additional Information Relating to FY 2010 and FY 2011 Restrictions and Reductions

With the magnitude of cuts being imposed on UHH, all units on campus are being affected. This means reduced instruction, reduced student services, and reduced support services, all of which will negatively impact our campus operations and our students that are enrolled and came to us for a college education.

To help us meet our restrictions and reductions, we are looking into a variety of resources and cost cutting measures.

- 1) Education Stabilization Funds (\$300,000): UH Hilo was appropriated funds through the American Recovery and Reinvestment Act (ARRA) of 2009. The intended use of this appropriation is to reimburse the University for salaries of specified positions, with preference for those positions that are involved in the instruction of physical sciences, including but not limited, to astronomy, biology, engineering, physics and mathematics. This resource is available for the biennium FB 2009-2011 and will not continue beyond FY 2010-2011.
- 2) Executive Salary Reductions (\$200,000): UH Hilo executive and managerial positions received a temporary pay reduction through June 30, 2011 ranging from 6% - 8%.
- 3) Faculty Payroll Lag (\$800,000 – FY 2010 only): Faculty salaries for the period of June 16-30, 2010 will be paid on July 1, 2010.
- 4) Salary Reduction (\$1,500,000): Current employees (HGEA and faculty) have received temporary pay reductions ranging from 5% to 7.5% beginning in the current fiscal year and continuing through June 30, 2011.
- 5) Other Resources and Cost Cutting Measures (\$3,900,000):

New and Carry-Over Tuition Revenue – Approximately 58% of our new tuition revenue comes from the College of Pharmacy. This portion of our new revenue cannot be used to help offset our reductions because the college is only in its 3rd year of operation and almost all of the new revenue is the result of the addition of the 3rd cohort. The College of Pharmacy continues to acquire start up equipment and lab supplies and also the hiring of instructional faculty. Only a portion of UH Hilo's new and carry-over tuition revenue will be used to help offset some of the reductions. We will not be able to fund any new crucial and much needed initiatives. Many new programs to improve our student retention rates and student engagement scores that we had hoped to implement are "on hold". Tuition scholarships will be available only at the minimum amount required by policy. Over the past year we offered fewer classes but to more students and at a higher fill-rate, and we generated more student semester hours. But we cannot continue indefinitely to stretch our limited resources to meet growing student demand.

Salary Savings due to Vacancies - We are delaying the hire of non-

instructional & instructional faculty and administrative professionals. Additionally, there is a freeze on filling all civil service positions. For example, 1) our Access Services Librarian position was not filled creating a lack of leadership in this department causing delays and staffing shortages in circulation, inter-library loans (ILL), inter-system loans (ISL), reserves, and stacks maintenance and 2) we could not hire our Science Coordinator which means that the Director of the Academic Success Center is basically working 2 jobs: her own and the work of the non recruited science coordinator. Some of the vacant faculty positions are housed in biology, chemistry, psychology, communications, English and other areas. In the student affairs area, we are delaying the search for the Women's Center Director, as well as various vacancies in Registrar's Office and Campus Center. Auxiliary services such as grounds keeping and janitorial would operate at a reduced schedule, which could negatively impact the conditions of classrooms, offices, and the general health and safety of the campus.

Defer Purchases - We are also delaying and/or eliminating the purchases of replacement equipment, supplies and services. Annual maintenance of instructional equipment (microscopes, spectrometers, chromatograph, etc) is being suspended.

There are many cases where there aren't enough lab equipment to match the number of enrolled students. Student are required to share lab equipment which is not efficient because groups of students have to rotate through each piece of equipment demonstrated, and it takes more time and several assistants to help four groups of students simultaneously working on four different things. Teaching laboratories have entered in a state of slow degeneration, rendering the student educational experience successively more depauperate as students have to, for example, line up for spectrophotometer analysis time on fewer instruments, use partially broken microscopes with less than full function, or work with fewer refrigerators crammed to capacity.

Computers in various laboratories cannot be replaced. As a result, students experience very different performance depending on their seat in the classroom. Some machines take quite a while to respond, which slows down the speed of instruction, and leaves some students behind due to no fault of their own. Several of the machines in the labs are out of warranty although we continue to get them to work using old parts and in-house expertise. Servers cannot be replaced which means that we experience slower response times and it is also more difficult to keep pace with new releases of software.

Within the Natural Sciences Division, vehicles could not be replaced thus students are unable to fully utilize the "natural laboratory" available on the Big Island. Current vehicles are in dire need of repairs and are a cause of concern for the safety of our students and staff.

Energy Savings - Every effort is being made to reduce our electricity costs. The UHH Sustainability Sub Committee to the Long Range Budget Planning Committee was

established to turn UHH into a positive example of sustainability for Hilo, Hawaii and beyond.

The committee has recommend delamping UHH classrooms, offices, and public areas. A campus-wide removal of (excess) light bulbs were completed and also changes were made to increase university wide temperatures in which AC is set, reduce schedule when AC is on and closely monitor AC use.

Some specific other examples of energy savings projects being worked on are installing automatic light sensors in classrooms and high use areas, which will reduce electricity usage. Several Photovoltaic projects to place PV panels on roofs for electricity savings are planned, with an initial pilot project for sustainability occurring in our Kipuka Native Hawaiian Student Program Building funded through Title III grants.

We have started an Energy Savings Awareness Campaign in which faculty, staff, and students are to turn off lights in classrooms and offices, keep their windows and doors closed in buildings with AC, and turn off unnecessary equipment when it is not being used.

Also, campus closures during non-instructional periods (day after Thanksgivings, winter break and spring break) will help reduce the cost of utilities. Only certain critical or time-sensitive functions or specialized facilities will continue to operate during the closure period.

It has been challenging to dually address the large increase in student enrollment at UHH during these unprecedented difficult economic times, while at the same time reducing our budgets available to respond to these new demands upon us. Further reductions will create a situation in which course offerings will be reduced and students will take longer to get their classes, thus taking longer to complete their courses and graduate and get out into the workforce.

**University of Hawai'i
Capital Improvements Program
Fiscal Biennium 2009-2011
Supplemental Year 2010-2011**

Capital Improvements Program Budget Request

The Governor's Recommended Executive Capital Improvements Program (CIP) Budget for Supplemental Year 2010-2011 includes one project for the University of Hawai'i totaling \$31.000 million. The design of the project, for the University of Hawai'i at Hilo's College of Hawaiian Language Building, Phase I, is completed and will be ready to bid as soon as construction funds are appropriated.

Project	Supplemental Year 2010-2011
College of Hawaiian Language, Phase I University of Hawai'i at Hilo	\$31,000,000
Construction	\$29,000,000
Equipment	\$2,000,000
Total	\$31,000,000
Total by Means of Finance	
General Obligation Bond Fund	\$31,000,000

The University of Hawai'i at Hilo's College of Hawaiian Language, Phase I, meets the goals and objectives of the University's Strategic Plan by improving campus structures to promote a nurturing learning and working environment. Details of the project, along with Table R, are attached (pages 2-3). Also included is a worksheet comparing the Board of Regents' CIP Budget with the Governor's Recommended Executive Supplemental CIP Budget (pages 4-5). Additionally, details of the Board of Regents' CIP Budget for Supplemental Year 2010-2011 are attached (pages 6-13). The Regents' CIP Budget for Supplemental Year 2010-2011 totals \$373.181 million for eight high priority projects, including Health, Safety, and Code Requirements, and Capital Renewal and Deferred Maintenance projects.

Proposed Lapse of CIP Projects

Also attached is a listing of seven projects identified for lapse in the Governor's Recommended Executive CIP Budget (page 14). The University concurs with the lapse of five of the seven projects, which are encumbrance balances from completed projects; however, we are opposed to the lapse of the remaining two projects: (1) Hawai'i Community College developments at the Manono and West Hawai'i campuses (\$3.500 million); and (2) Paradise Park acquisition and improvements (\$5.477 million). We respectfully request that the Legislature consider either the restoration of the appropriations or reauthorization.

TOTALS	2,000 C	1,000 C					31,000 C			34,000

PROJECT INFORMATION AND JUSTIFICATION:

a. Total scope of project.

This project will provide a state of the art facility that will increase the visibility of the College of Hawaiian Language and supply the physical resources to accommodate continued curriculum development, high-technology learning, distance education needs, and serve as the area to host the many indigenous peoples from across the globe who frequently visit the College of Hawaiian Language's model programs.

b. Identification of need and evaluation of existing situation.

Currently, the College of Hawaiian Language is dispersed in several buildings in cramped spaces. A new facility is required to consolidate the College for current and future program expansion, which is necessary to further develop the University of Hawai'i at Hilo as a leader in cultural and language revitalization and a model for other indigenous people.

c. Alternatives considered and impact if project is deferred

The alternative of deferring the project will be to continue to operate in dispersed buildings throughout the campus. This is an unacceptable option, as it will limit current and future program offerings and expansion and will compromise the potential of this program.

d. Discuss what improvements will take place when project is completed (including benefits to be derived and/or deficiencies this project intends to correct)

The College of Hawaiian Language at the University of Hawai'i at Hilo is a primary source of Hawaiian language support in the State of Hawai'i and a national leader in indigenous language and cultural revitalization. The success of the College of Hawaiian Language has been recognized by academics and the media both nationally and internationally.

e. Impact upon future operating requirements (show initial and ongoing funding requirements by cost element, including position count, means of financing, fiscal year)

General fund requirements starting in fiscal year 2013: \$300,000 (utilities \$220,000; supplies and maintenance \$40,000; custodial/grounds \$40,000).

f. Additional information.

The design of the project is completed.

FISCAL BIENNIUM 2009-2011
SUPPLEMENTAL YEAR 2010-2011**

(IN THOUSANDS OF DOLLARS)

Priority	Project Title/Description	Program ID	Fiscal Year 2010-2011	Justification
2	<p>Capital Renewal and Deferred Maintenance University of Hawai‘i–Systemwide</p> <p>Design and construction for improvements to University of Hawai‘i facilities. Project to include capital renewal, reduction of maintenance backlog, major and minor renovations, modernization of facilities, reroofing, mechanical and electrical systems, resurfacing, repainting, and other repairs and project costs to upgrade facilities at all University campuses.</p> <p>Plans Design Construction Equipment</p>	UOH 900	<p style="text-align: center;">–</p> <p style="text-align: center;">23,549 C</p> <p style="text-align: center;">211,933 C</p> <p style="text-align: center;">–</p>	<p>The University of Hawai‘i’s physical plant has accumulated a backlog of repairs and maintenance (R&M) due to the lack of general funds. This project includes reroofing, mechanical and electrical systems, renovations, resurfacing, repainting, and other improvements and project costs to upgrade facilities at all University campuses.</p> <p>Facilities provide the centerpiece around which all other educational activities exist at higher education institutions. The total replacement value of all University of Hawai‘i facilities is estimated at \$4 billion. Therefore, it is imperative to reinvest in the University’s physical plant to ensure that the physical infrastructure facilitates the mission of the institution.</p> <p>The role of R&M is to maintain the physical infrastructure and facilities of our campuses so that they are functional, architecturally sound, aesthetically pleasing, and in compliance with building and safety codes to support quality instruction, research, student, and community services programs.</p>
	<p>Financial Requirements</p>		<p style="text-align: center;">235,482</p>	<p>Of the \$235.482 million, \$13.500 million is included in this project for the renovation of Gartley Hall.</p>

3	<p>Major CIP Planning University of Hawai‘i System</p> <p>Plans and design for long range development plans, including updates of long range development plans for various University campuses, project development reports, design guidelines, space utilization studies, and other planning documents.</p> <p>Plans Design Construction <u>Equipment</u> Financial Requirements</p>	UOH 900	<p>2,999 C 1 C — — 3,000</p>	<p>This project provides for major CIP planning documents for University of Hawai‘i that include long range development plans (LRDP), project development reports, infrastructure studies, and other University facility planning requirements.</p> <p><u>Long Range Development Plans</u> LRDPs are required for all University campuses as they provide the foundation for a comprehensive and cohesive campus design utilizing facilities to meet the educational goals and needs of the University. The University will update campus LRDPs to ensure the long range physical development plan conforms with academic strategic plans. LRDPs included in this request include the University of Hawai‘i at Mānoa and University of Hawai‘i at Hilo - Kalākaua Marine Education Center at Puakō.</p> <p><u>Infrastructure Studies</u> Infrastructure studies are required to assess the capacity and appropriate campus infrastructure as it relates to each campus LRDP. Infrastructure studies included in this request include the University of Hawai‘i at Mānoa.</p> <p><u>Project Development Reports</u> Advanced planning for new facilities and renovations of existing buildings have proven to be an integral part of the capital improvements program process. This request provides for the preparation of definitive program statements, cost estimates, and logistical timetables for project implementation.</p> <p><u>Other Facility Planning Studies</u> The University requires other facility planning studies to identify and correct existing campus issues and the development of strategies to address the University's maintenance backlog. The following is a list of other facility planning studies requested: Systemwide Design Guidelines and Systemwide Space Utilization Study.</p>

CAPITAL IMPROVEMENTS PROGRAM
FISCAL BIENNIUM 2009-2011
SUPPLEMENTAL YEAR 2010-2011**

(IN THOUSANDS OF DOLLARS)

Priority	Project Title/Description	Program ID	Fiscal Year 2010-2011	Justification
4A	<p>Information Technology Center University of Hawai‘i System</p> <p>Construction and equipment for an information technology and emergency operations center building to service the University of Hawai‘i System and the Mānoa Campus. Project to include ground and site improvements, development of new facility, and all project related costs.</p> <p>Plans Design Construction Equipment</p>	UOH 900	<p style="text-align: center;">—</p> <p style="text-align: center;">—</p> <p style="text-align: center;">12,659 C</p> <p style="text-align: center;">2,813 C</p>	<p>This project will develop a new building on the Mānoa campus to service Systemwide information technology infrastructure and an emergency operations center for the University System and Mānoa campus. Although information technologies are increasingly the core of knowledge-based institutions such as universities, the University of Hawai‘i has shoehorned its core technology infrastructure into any available space on a piecemeal basis for more than thirty years. As a result, the campus computing center, data communications hub, phone system, and video hub are dispersed throughout the University of Hawai‘i at Mānoa campus. None of the current facilities have adequate backup power, air conditioning, or security, and the State Auditor cited the inadequacies of the facility in their audit of the University's financial information in 2005. The development of the Information Technology Center is particularly critical to address the vulnerability of the University's entire information and communications infrastructure, which was highlighted by the State Auditor in December 2005. Keller Hall, a building that was originally developed in 1959, is the home to all University System servers and data communications that service the University's ten campuses. The computers are located on the ground floor of Keller Hall and were at risk during the October 30, 2004 Mānoa flood. The infrastructure was again threatened as recently as March 31, 2006, during a period of heavy rains on O‘ahu.</p>
	<p>Financial Requirements</p>		<p style="text-align: center;">15,472</p>	<p>The new Information Technology Services Center will provide the following benefits:</p> <p>1 - Provide the first properly designed and supported "machine room" facilities for the University that will enable the provision of reliable 24x7 university-wide technology services, including through natural and man-made disasters. The replacement facility will house central computing, data networking, telephone, and video resources with reliable power, air conditioning, and connectivity to improve and facilitate disaster responsiveness.</p> <p>2 - The University currently has no Emergency Operations Center (EOC) with environmental conditions and communications services essential in an emergency situation. Such an EOC has requirements very similar to those of a modern information technology data center, so the new facility will also serve as the EOC for the Mānoa campus and the University System.</p> <p>3 - Reduce energy consumption by placing currently fragmented high-demand requirements for electricity and AC into properly-designed facilities.</p> <p>4 - Provide high-quality space for faculty to develop instructional and media content in support of their teaching and research; make available new spaces for students to work with information technologies; provide access to teleconferencing and collaboration environments for members of the university community to work with colleagues and peers around the country and the world; and make available high-quality data center space for units that do not have adequate space to house program-specific servers and data storage.</p> <p>5 - Free up general purpose space for required R&M and for education and research on campus.</p>

4B	<p>Holmes Hall, Sustainability Laboratory University of Hawai‘i at Mānoa</p> <p>Plans, design, construction, and equipment for the development of engineering laboratories in Holmes Hall. Project to be financed by State and Federal sources. Project to include ground and site improvements, development of an addition, equipment and appurtenances, and all related project costs. This project is deemed necessary to qualify for federal aid financing and/or reimbursement.</p> <p>Plans Design Construction Construction Equipment Financial Requirements</p>	UOH 100	<p>1 C 1 C 7,997 C 11,600 N 1 C 19,600</p>	<p>The scope of this project is provide State matching funds in the amount of \$8.000 million for a proposed \$11.600 million Federal Stimulus Act Grant for Science infrastructure development. The total scope of the project is for the design, construction, and equipment for a \$19.600 million laboratory addition to the College of Engineering Holmes Hall.</p> <p>This program will provide critical scientific infrastructure for the expansion of the College of Engineering Alternative Energy and Sustainability research initiatives and will place the University of Hawai‘i at the forefront of this research leading to significant benefits to the State of Hawai‘i.</p> <p>The State of Hawai‘i and the University of Hawai‘i at Mānoa's College of Engineering are seeking to become leaders in the fields of Alternative Energy and Sustainability. These fields are of key strategic importance to the State's economic future and the mission and role of the University as a research leader for the benefit of the State and the Country as a whole. The University's College of Engineering is well positioned to utilize this grant to generate both immediate and long-range research products for the benefit of the State.</p>

4C	<p>Smart-Grid Energy Management Infrastructure University of Hawai‘i at Mānoa</p> <p>Plans, design, construction, and equipment for the development of an advanced technology electrical distribution system. Project to be financed by State and Federal sources. Project to include ground and site improvements, equipment and appurtenances, and all related project costs. This project is deemed necessary to qualify for federal aid financing and/or reimbursement.</p> <p>Plans Design Construction Construction Equipment Financial Requirements</p>	UOH 100	<p>1 C 3,749 C 21,249 C 25,000 N 1 C 50,000</p>	<p>The scope of this project is to provide matching funds (50%) to a proposed \$50 million project for the development of "Smart Grid" energy systems. The total scope of this project is for the planning, design, and construction of a large-scale campus-wide project to modernize the existing district utility system and building distribution systems with a new advanced technology distribution system that will increase electrical distribution efficiencies, provide for the deployment of alternative energy capacity, and significantly reduce overall energy consumption.</p> <p>Elements of the existing campus electrical system are over 20 years old and pose significant losses in operating efficiencies and constraints on the deployment of future technologies. New alternative energy technologies (i.e. solar, wind, fuel cell, and storage) require advanced control technologies not available with the current system.</p> <p>This project will improve campus-wide electrical distribution capacity and capability allowing for more intelligent use of available electrical resources. Significant reduction in electrical operating costs, CO2 emissions, improvement in reliability and energy independence, resulting in improvement to both teaching faculty and students.</p>

4D	<p>Campus Development University of Hawai‘i–West O‘ahu</p> <p>Construction for the development of the University of Hawai‘i–West O‘ahu. Project to include ground and site improvements, construction of infrastructure and new facilities, and all project related costs.</p> <p>Plans Design Construction Construction <u>Equipment</u></p>	UOH 700	<p>–</p> <p>–</p> <p>1 C</p> <p>1 B</p> <p>–</p>	<p>This project provides for the development of the first increment of the University of Hawaii–West Oahu campus in Kapolei and the construction of on- and off-site infrastructure improvements to serve the campus and other University owned properties.</p> <p>This project will involve the construction of a new four-year undergraduate campus located in Kapolei. This campus will meet the growing needs of communities in Central and Leeward Oahu, where already there are more than 71,000 K-12 students. The University of Hawaii–West Oahu is planned to meet the needs of commuters, older students, working students, and those interested in professional education.</p> <p>This project includes the design and construction of on and off-site infrastructure to service portions of the University's 500 acre parcel in Kapolei, and will also include the development of facilities for the first increment of the campus, which includes the development of four new facilities and surface parking.</p>
	Financial Requirements		2	<p>The general obligation bonds included in this request will be combined with proceeds from the sale of a 55-acre fee simple parcel which is owned by the University of Hawai‘i. The parcel has been commercially zoned for business and mixed-use development.</p>
