.....University of Hawai'i System

UNIVERSITY of HAWAI'I®  
SYSTEM

Aloha Chair Oshiro and Members

Good Afternoon and thank you for the opportunity to present our Fiscal Biennium 2013-2015 Budget Request. Before I discuss the details of our budget request, I would like to share a few of our achievements over this past year. We begin with these highlights so that you can appreciate the positive return to the State of your investment in our University System. These accomplishments are reflected in our growing national and international reputations. In recent rankings, individual schools such as the law, business and medical schools at Manoa have been recognized for their excellence. Hilo's Pharmacy program has been recognized as one of the top five new professional programs within the U.S., and our new West O'ahu campus has finally opened after decades of planning and perseverance. Hawai'i's community colleges were recognized as one of fourteen leader colleges in the national Achieving the Dream program, a recognition of the effectiveness of the student completion and success strategies being deployed by the colleges.

Our success in competing for extramural contracts and grants has us ranked among the best of the U.S. public research universities and our role in the execution of the Asia-Pacific Economic Cooperation meeting was notable. Our hope is that you will consider our accomplishments to be yours as well, because they serve to underscore that investment of general funds is an important financial commitment to our students and our staff that also contributes to our State's success.

I'll begin with some highlights from our newly released 2012 Performance Dashboard published by our Executive Vice President and Provost Linda Johnsrud. For 2011-12, our data show:

UNIVERSITY of HAWAII®  
SYSTEM

- A seven percent increase in the number of degrees and certificates of achievement earned, the second year in a row where we exceeded our targets, and a 20 percent increase since FY2007-08
- Double digit percentage increases in degrees and certificates of achievement earned from Hilo (25%), West O’ahu (18%), and Community Colleges (10%) since FY2010-11
- An nine percent increase in STEM (Science-Technology-Engineering-Math) degrees, again exceeding our targets in FY2010-11 and FY2011-12
- Degree attainment of Native Hawaiians continues to increase and has almost doubled, from 979 degrees and certificates of achievement earned in FY2008–09 to 1,709 in FY2011–12
- \$436 million in extramural contracts and grants secured systemwide, exceeding our targeted goal for FY2011-12
- \$141.2 million in capital improvement project allotments, of which over \$100 million is targeted to address major renovations or minor improvements to existing facilities systemwide

Our additional good news is that our accreditors, the Western Association of Schools and Colleges (WASC – Senior Commission) also think we have done a remarkable job. In the summary shared with us at their recent exit interview, the WASC committee commended the University System for improving retention and graduation rates, was impressed with its “financial planning and careful attention to finances” during the economic downturn, and saluted our leadership team for keeping in mind the “long view rather than short term matters” as we make progress on our initiatives - high praise from this organization so critical to our future.

UNIVERSITY of HAWAI'I®  
SYSTEM

This last statement was especially critical, given the very difficult decision we made in 2011 to adopt a five-year schedule of modest tuition increases beginning in 2013 through 2017. We believe that in the face of declining general funds, we pursued the most prudent course of action necessary to preserve the long-term financial health of the University of Hawai'i System, and at the same, to preserve our commitment to affordability. Concurrently, to ensure access, we awarded \$37.7 million in tuition scholarships in FY2011-12, a 100 percent increase compared to \$19.5 million awarded in FY2007-08.

We understand that responsible management of our non-general funds means not only ensuring that funds are spent as prescribed by law, but also that funds are available to meet current and future obligations that we hold as a state enterprise. Moody's Investor's Service indicates that similarly situated public universities in our "AA" rating category had median cash reserves equivalent to 114 days of operating expenses. Given our \$1.5 billion in operating expenses annually, we would need \$450 million in reserves, which we do not have at this present time. We have begun a conversation with our Board of Regents regarding the establishment of a systemwide policy on a required level of reserves to ensure financial sustainability. We will be looking for guidance from our Board as well as organizations such as the National Association of College and University Business Officers, to provide their best thinking on what would be appropriate for our University System. It is a work in progress and we welcome your thoughts, in this regard.

I will now turn to our Fiscal Biennium 2013-2015 Budget Request, and focus on initiatives identified by the Board of Regents and our University Leadership as priority requests that will best serve the needs of the State of Hawai'i. I will first discuss our request for general funds within our operating budget for two strategic initiatives: Hawai'i Graduation Initiative and Hawai'i Innovation Initiative. I will then conclude with our capital improvement project request that we have defined as our Stewardship of Facilities Initiative.

UNIVERSITY of HAWAII®  
SYSTEM

**Hawai'i Graduation Initiative**

Several years ago, with the encouragement of the Legislature, we adopted an outcome-based request for additional general funds to offer as incentives for achievement of our performance goals. Unfortunately, due to the 2008 recession, this request could not be funded. Despite the lack of funding, we developed the Hawai'i Graduation Initiative and have included a request for outcome-based funding because we agreed with the Legislature that we should reward performance with additional general funds. Our Community College System has, in fact, reallocated three percent of its own limited general funds for outcomes-based funding for its campuses. However, they don't have sufficient general fund reserves to continue to offer the incentives. Our Board of Regents budget submitted to the Governor requested \$20 million in FY2013-14 and \$30 million in FY2014-15, respectively, for full implementation of a systemwide outcome-based funding initiative. However, we would appreciate your consideration of our amended request for \$2.387 million in both fiscal years so that we may implement outcome-based funding on a limited basis.

Also within our Hawai'i Graduation Initiative are the following targeted requests:

- \$200,000 in both fiscal years for a statewide longitudinal student data system that was an assurance that the State gave the federal government in return for ARRA funding to build capacity across the education spectrum for tracking and improving student achievement;
- \$780,000 in FY2013-14 and \$1.0 million in FY2014-15 to expand student access and support student success in distance learning courses and high-demand programs;
- \$700,000 in both fiscal years for statewide Institutionalization of Na Pua Noeau that builds greater academic capacity for Hawaii K-12 Native Hawaiian students and builds their readiness for college;
- \$913,000 in both fiscal years to support newly opened West O'ahu campus facilities and program expansion;

UNIVERSITY of HAWAII®  
SYSTEM

- \$1.5 million in both fiscal years for Science-Technology-Engineering-Math (STEM) programs that integrate intermediate and high school educational experiences with University-based STEM projects

These items represent those included in the Executive Budget, however, we note that the Board of Regents also strongly endorsed a request for \$2.5 million in each fiscal year, for our Indigenous Serving University Initiative. While this item was not included in the Executive Budget Request, we remain hopeful that the Legislature will consider investing additional general funds to support achievement of Native Hawaiian students, as well as recruitment and retention of Native Hawaii faculty and staff to mentor these students.

**Hawai'i Innovation Initiative**

As a key player in our State's economy, we developed the Hawai'i Innovation Initiative (HI2) in consultation with the local business community, national advisors and our own internationally renowned research programs. HI2 is intended as the cornerstone of a robust research industry for the State of Hawai'i. While in our Board of Regents request we had requested a more substantial investment of general funds to kickstart the initiative, we have targeted our request for the Executive budget to focus on the establishment of the Hawai'i Institute for Advanced Informatics and Cyberstructure (HIAIC), in accord with the final report of our Hawai'i Innovation Council. The Institute will drive significant growth at the University and in private sector research and development within the fields of informatics and cyberinfrastructure as well as in the many disciplines critical to Hawaii's future in which big data, analytics, cybersecurity, visualization, and high performance computing are essential tools. This is necessary to support the cyclical and synergistic nature of advanced research: modern research problems drive the requirements for new cyberinfrastructure technologies, which in turn inspire new research possibilities and opportunities.

UNIVERSITY of HAWAI'I®  
SYSTEM

In summary, for the University System operating budget, we are asking the Legislature to make an additional investment of \$7.48 million in general funds in FY2013-14 and \$7.9 million in FY2014-15 to support these key projects for which we have the Governor's support. This represents approximately 20 percent of our Board of Regents approved operating budget request.

**Stewardship of Facilities**

With respect to our University System capital improvement project (CIP) budget request, our goal is to leverage government funds with our ability to use revenue bonds based on our tuition reserves. One key project in this regard is the Pharmacy School at our Hilo campus, which will leverage state funds with revenue bonds. We are asking for a state investment of \$39 million in general obligation bonds (GOBs) and authorization for \$5 million in revenue bonds. Although as part of the Governor's budget request, we are asking for a total of \$57 million in GOBs to address our deferred repair and maintenance projects at all campuses, our total backlog exceeds \$424 million. In order to reduce our backlog in a six year timeframe while meeting our annual capital renewal requirements for the biennium and addressing our health, safety and code issues, our actual needs are \$132 million in FY2013-14 and \$170 million in FY2014-15. Such funding would ensure the maintenance of all of the external buildings and grounds that support a functional and architecturally sound learning environment for our students.

UNIVERSITY of HAWAII®  
SYSTEM

In conclusion, our key message remains the same: The University of Hawai'i System continues to achieve major successes and we are eager to partner with you and the Administration to ensure a sustainable financial future for our University to meet the needs of the entire State of Hawai'i. We are asking you to make a modest additional investment of general funds and general obligation bonds, in recognition of our achievements and our important role in our State.

Indeed, we count 13 of 25 Hawai'i Senators, 34 of 51 Hawai'i Representatives, our Governor, Lt. Governor, and our entire Congressional delegation amongst our alumni who have benefited from our University System.

Thank you for your kind attention as well as your past and continuing support. Our leadership team, including the Chancellors from our various campuses, are here today should you have programmatic or campus-specific questions.

**University of Hawai'i at Mānoa**  
**Tom Apple – January 2013**

Mahalo for the opportunity to share with this honorable body my initiatives for UH Mānoa. UH Mānoa proudly serves the State of Hawai'i and our students that come from every island. My administration is committed to building increased awareness of UH Mānoa as a leading global research institution. We strive to provide the next generation of leaders, contribute to the solution of society's problems, generate new opportunities that benefit not only our local but our global community, and continue to be an economic driver for the state. We have three priorities: 1) sustain a transformative environment that enable our students to find their passion; 2) engage in research that matters to improving our state and society, and 3) grounding UH Mānoa in the traditional values of the Native Hawaiian culture.

**Helping our students find their passions.** We do this through our steadfast commitment to create engaged learning and transformative experiences that stress critical thinking, intensive writing and oral communication, teamwork, and research and service opportunities. This coming year we will commit 19% of all UH Mānoa tuition revenue to be returned to students in the form of financial aid, scholarships, grants and other financial vehicles.

**Research that matters.** UH Mānoa is a major public research institution that has earned international recognition as one of the top 150 research universities in the world and a 51<sup>st</sup> ranking in the US in obtaining competitive Federal research grants. In areas of excellence such as renewable energy, tropical agriculture, Asian studies, Pacific Island studies, astronomy, oceanography, volcanology, fisheries and coral reefs, environmental change and sustainability, UH Mānoa has few peers. As Hawai'i's land-grant university, we are committed to supporting the state in areas related to the public good including PK-12 education, health care, law and policy, and new business creation. Our support is realized through our partnership with our K-12 schools, health-care providers, local businesses and governmental agencies.

**A Hawaiian place of learning.** UH Mānoa is committed to making the UH Mānoa a Hawaiian place of learning. Our actions are being guided by the Native Hawaiian Task Force report which was developed under the leadership of Deans Benham and Mokuau. We are making progress through our cluster-hiring of Native Hawaiian faculty members and continuing efforts to actively recruit more Native Hawaiian faculty from across the country in all fields. We are also guided by the sage advice of our Kualii Council.

**Efficiency, utilization of resources, and transparency.** I have engaged the campus community in dialog, both in on-campus fora, neighborhood meetings, and via e-mail. This dialog has made clear the need for UH Mānoa to be a better community partner, to utilize its resources more efficiently to solve our most pressing problems, and to make UH Mānoa a more service-oriented campus. The UH Mānoa campus has been engaged for the first time in open public comment and scrutiny with an eye toward accomplishing meaningful results.

In demonstration of my commitment to transparency and accountability, I have openly engaged in discussions of policy issues and sought input from my Leadership Team and Town Hall meetings and Campus-wide Conversations, and taken responsibility for the directions given. I am committed to continuing these efforts.

Mahalo for your support, which is critically important to our continued progress. I look forward to working together and investing resources in UH Mānoa with a commitment that such investments will be used transparently and with accountability. Our university is providing tremendous benefits for all citizens of Hawai'i and is important to the future of our State.

**University of Hawai'i at Hilo**  
**Chancellor Don Straney – January 2013**

University of Hawai'i at Hilo combines teaching, service and scholarship to improve the wellbeing and quality of life for citizens on Hawai'i Island. We are the only four-year campus on the island, but our programs serve all parts of the state. We challenge our students to reach their highest level of academic achievement through applied learning and discovery inside and outside the classroom. Our small classes are taught by full-time faculty who include students in their research activities. On-campus labs are complemented by the island's vibrant "living laboratory" – making UH Hilo an ideal place to study astronomy, volcanology, marine science, indigenous language revitalization, and other fields. The College of Pharmacy and School of Nursing provide shared leadership to improve access to and quality of health care for our rural communities. We oversee the statewide Small Business Development Center and the Office of Mauna Kea Management, both of which are crucial to the state's economy and future. Lastly, we contribute to quality of life and a "university town" through our performing arts, athletic events, and cultural enrichment offerings.

UH Hilo places special emphasis on serving students, who are economically disadvantaged, first generation in college, and/or from underrepresented minority groups. Currently half of our students are from Hawai'i Island (with a growing number from the other islands), 71% are Hawai'i residents, and 24% are Native Hawaiian.

Our College of Pharmacy, which opened in 2007, is now a mature success, producing research with global reputation, producing students with excellent licensure exam results, and locating faculty and their practicing students statewide. The college has brought over \$30 million in federal funding to the state and was ranked as one of the top five new schools of pharmacy by US News and World Report in 2012. To continue support for its success and accreditation by the Accreditation Council for Pharmacy Education, our priority for this year is to secure funding for a permanent building in the amount of \$38 million, a reflected in the Governor and Board of Regents budget. This will ensure the future for the state's only pharmacy college.

The university partners with public and private agencies in preparing students for careers in agriculture and technology for our island and our state, for example in agricultural outreach, general engineering and physical therapy. At the same time, Ka Haka 'Ula O Ke'elikōlani, College of Hawaiian Language is a world leader in indigenous language revitalization and has developed the only P-20 (preschool to doctorate) indigenous medium educational system accredited by the World Indigenous National Higher Education Consortium.

We are building sustainable practices to make efficient use of our energy, avoid waste, to promote food security and sustainability, for example through our 'Local First' food services program.

Success of our students is enhanced through enrollment management activities, such as the Freshmen Guaranteed Academic Schedules which was piloted in Fall 2011. Another initiative is

the living learning Freshment Village for first time, full-time freshmen, supported by a First Year Experience Program.

We are advancing research for economic impact in the community. Extramural awards amounting to \$22 million generate new employment of 575 research jobs. To continue this progress, we are investing in infrastructure to enhance and support the research work of our faculty, staff and students.

For every \$1.00 in state investment, UH Hilo generates an additional \$3.06 in direct expenditures. We infuse \$240 million per year into the local economy and provide \$3,900 direct and indirect jobs. <sup>1</sup>

Your continued support and investment will allow UH Hilo to continue serving our community in vital, meaningful and critical ways. Thank you for the opportunity to provide this testimony.

<sup>1</sup> David Hammes, UH Hilo Economics Professor, February 2008.

**University of Hawai'i – West O'ahu**  
**Chancellor Gene Awakuni – January 2013**

On August 20, 2012, the University of Hawai'i – West O'ahu (UHWO) welcomed over 2,000 students to its state-of-the-art, 200-acre campus in Kapolei. This historic achievement, after forty years of temporary rented facilities and wooden portables adjacent to Leeward Community College, signifies the start of an era of infinite opportunities and broader access for the next generation of UHWO students. The majority of UHWO's students matriculate from underserved populations along the Leeward Coast, North Shore, and Central O'ahu and native Hawaiians comprise 27% of the student population, one of the highest proportions in the University system.

UHWO continues to experience exponential growth in both overall student enrollment and incoming freshmen. In Fall 2012, overall enrollment increased by approximately 20% and freshman enrollment jumped by 148%. The double digit overall growth in enrollment is projected to continue for the next several years. This type of growth requires that we provide additional course offerings to keep pace with demand, which in turn involves hiring more faculty and support staff to ensure student success. Since UHWO's student body includes many first-generation college students, the ability to provide focused advising and transition assistance is critical for student retention.

As the only public, four-year University serving the fastest expanding region in our State, UHWO is committed to quality teaching, innovative learning alternatives such as distance education, individualized degree programs, and flexible course schedules that foster and promote life-long learning. UHWO has formed strategic partnerships with the Pacific Command at Pearl Harbor and other industry leaders to promote STEM (Science, Technology, Engineering, Math) programs that prepare the workforce of tomorrow. UHWO has also responded to the high-demand needs of the State by developing curriculum, in coordination with the business community, that produce graduates who are equipped with the necessary skills to enter a competitive work environment.

Attaining UHWO's vision of an academic institution where students and faculty can discover, examine, and share knowledge and values that serve as the foundation for our State's future citizens and leaders will require substantial investment in campus facilities and human resources. The current level of general funds and special funds (tuition and fees) is not adequate to meet operational requirements. State appropriated general funds cover only 28% of UHWO's annual budget, which is far less than any other campus in the system. Enrollment, while rapidly expanding, does not provide the tuition revenues necessary to fund the budgetary gap. During this transition period to the new campus, additional general fund support, which will enable UHWO to offer required courses and services for students, will be essential if UHWO is to succeed. Once enrollment and tuition rates can meet a required revenue threshold, UHWO will be in a better position to sustain campus operations. However, if increased funding is not secured at this critical juncture, UHWO will simply not be able to meet its payroll costs nor its fixed operational expenses.

UHWO is committed to the continuing development of the region through both pioneering educational offerings and public service activities. Unfortunately, without additional funding, UHWO will not be able to ensure that these traditionally underserved communities continue to have access to a quality education and the opportunities that follow. We ask for your support so that the long awaited dream of a vibrant 4-year campus in West O'ahu will survive.

Thank you for your time. I am happy to answer any questions you may have.

**University of Hawaii – Community Colleges**  
**Vice President John Morton – January 2013**

Chair Oshiro, and members of the House Committee on Finance, I am happy to present testimony on behalf of the community colleges on the 2013-2015 biennium budget.

During the recession, the community colleges made a conscious decision that we were going to be part of the solution out of the economic downturn and not a victim of it. We knew that many citizens would be looking for opportunities to get a new job or improve their competitiveness in the changing economy. Many, perhaps most, would turn to the community colleges for those opportunities. And they did.

Between Fall 2006 and Fall 2010, our enrollment jumped from 25,260 to 34,203, and since Fall 2010, even though the economy has improved significantly, the enrollment remains at approximately 34,000. Unfortunately, during the same period, the State's ability to support us with general funds has declined from a high of \$125 million in FY 2009 to our current appropriation of \$107 million, a decrease of \$18 million or 14%. Nevertheless, we responded by increasing our class offerings by 1,068 through the use of tuition dollars and through reallocations from within our budget. We have added new programs in veterinary technology, medical informatics to deal with the emerging use of electronic medical records, new degrees and certificates to encourage students to enter STEM fields. We have also brought in nearly \$40M in new federal money for workforce training.

We committed ourselves to not just accommodating students who wished to enroll but to their success as graduates or transfer students. We challenged ourselves through internally reallocating money to create an outcomes based funding pool that campuses earn only if they reach their strategic targets. Since 2007, we have increased the number of graduates by 932 or 34% and the number of Fall transfers by 588 or 54%. From 2007 to 2012, Native Hawaiian students have more than doubled and their graduation and transfer percentages have increased by 113% and 126%, respectively.

Accomplishing these outcomes during these difficult economic times has stretched us considerably, and we are not sure we can sustain this effort without additional resources. We need additional support personnel like financial aid counselors, advisors, and custodians. We need to convert some of the part-time lecturers to full-time faculty. In short, we need to stabilize our infrastructure to support this new level of enrollment.

Our preference is to earn this support through outcomes based funding. The BOR budget includes \$9,436,049 in FY 2014 and \$12,600,918 in FY 2015 in outcomes based support for the community colleges. The Executive Budget is much smaller with \$1,126,191 in FY 2014 and \$1,002,614 in FY 2015 in outcomes based funding. Each Chancellor will share with you how that money would be used to meet the needs on their campus. The needs are different, but the needs are real for all seven campuses. We hope that you will be able to fund us to address some of these needs as we seek to continue to meet the needs of Hawai'i's citizens.

Finally, I would like to point out that the BOR budget includes funds for the technology building at Honolulu Community College. Currently, science classes are taught in a facility built by the DOE in the 1950's. The new building is designed and ready to bid tomorrow if funding is made available. It's time.

It's also time for Hawai'i Community College to move from its 1950's DOE campus. Planning has begun for the new campus at Komohana, and we anticipate the need for and ability to begin infrastructure improvements during this biennium. Again, it's time.

We thank you for your consideration. I am happy to answer any questions you may have.

**Honolulu Community College**  
**Chancellor Erika Lacro – January 2013**

We respectfully request your support by providing much needed resources for Honolulu Community College (HCC). These resources will enable us to keep providing the best possible technical and general education to our students, and more importantly, ensure that our State continues to benefit from the future leaders and contributors that we graduate each year.

HCC is a comprehensive community college with strengths in both technical programs and liberal arts classes. Hawaii's aging workforce, particularly in fields related to HCC's mix of programs, and the business community's increased dependence on specialized technologies, means that Hawaii's future economic success is becoming increasingly dependent on the success of HCC to educate and train individuals to enter the specialized workforce and to renew the skills of the incumbent workforce.

The College, established in 1920 as the Territorial Trade School, is now experiencing one of its highest points of enrollment in the last decade; in fall 2012 we saw an increase of nearly 14% from fall 2007. Focused on the success of all students, especially Native Hawaiians, and the fundamental industries we serve, the College has effectively managed our increased enrollment over the last several years because of the availability of targeted enrollment growth funds, administered by the Office of the Vice President for Community Colleges as well as federal ARRA funds that partially offset the reduction in State appropriated funds.

As is the case with all of Hawaii's community colleges, HCC is focused on dealing with the underprepared student population, who are the majority of new entrants at the College. Getting more students in the College's front doors, engaged with the faculty and staff, and graduated or transferred are our highest priorities. In the UH's Outcomes Based Funding proposal, HCC plans on investing heavily in student success initiatives. To this end, our most serious concern continues to be the retention of students on a year-to-year basis. In addition, we are also very concerned with ensuring we provide the critical services necessary for students to meet their education goals, up to and including completion of their college degrees.

For the FB2013-15 budget our priorities lie in our Student Success Initiatives; initiatives that will have great impact on the STEM related programs we offer and the total number of STEM graduates we produce each year. These priorities include the following (in order of priority):

1. Expansion of the College's newly created retention office. This office is currently funded at a minimal level through an internal reallocation. This center helps link together peer mentoring, tutoring, intrusive advising and early alert systems.
2. Expansion of the Student Ambassador Program. This program started as a strategic initiative funded by the UHCC system and is currently funded at a minimal level through an internal reallocation. This program provides true leadership opportunities for students and provides another conduit for us to offer intrusive peer-to-peer mentoring and counseling.

3. Redevelopment of the Student Orientation Program. Multiple studies have shown that student orientation programs work. We aim to develop a comprehensive program that addresses a number of needs that college students and responsible, contributing members of society all hold. These needs are not only related to being a student in the UHCC system, but also pertain to individual life skills, personal safety and security, and leading healthy lifestyles. The redevelopment of a student orientation program comes as a direct result of the growth in student enrollment that we dealt with since 2005.
4. Support for Remedial Education Efforts. Unfortunately, 70% of entering students are not prepared for English at a college level and 80% are not prepared for math at the college level. HCC remains committed to instituting mandatory remedial education if the student is not ready; these two areas are the foundation of any degree and we must ensure that students receive the proper education for future success. The growth in enrollment along coupled with the number of students who require remediation means that the College must continue to support and expand the number of remedial class offerings.

With regard to the CIP budget, as with the last 3 years, our highest priority is for a new science and technology building (Advanced Technology and Training Center (ATTC)). The main campus of the College has been located on the same site since 1920, a site that last built a major facility in 1979. The College completed its Long Range Development Plan in 2011 and the ATTC is the focus of Phase I of this plan. The ATTC has been shovel ready for almost one year and the College is excited with the prospect of a greater opportunity to support STEM related fields of study, and more specifically supporting Native Hawaiian students in STEM areas of study.

**Kapi'olani Community College**  
**Chancellor Leon Richards – January 2013**

Kapi'olani Community College's fall 2012 credit headcount was 8892 students, a 22% increase over the 7,272 students enrolled in the fall 2006. Over the same period, the enrollment of Native Hawaiian students has out-paced the general population: an increase of 39%, from 1,129 to 1,576. To meet the overall surge in enrollment, we have added additional sections of classes, extended our schedule of course offerings to the late afternoon, and increased the number of online and hybrid courses offered.

We believe that Kapi'olani is well positioned to continue to be a campus in high demand for students entering higher education for several reasons. We are committed to increasing our online course offerings to 30% of the total by 2015. With this commitment comes the need to develop faculty expertise in integrating technology for engaged student learning, which the College has done through a Title III-funded Laulima Online Training Academy.

While online instruction is a major emphasis, we are also committed to supporting faculty in integrating emerging technologies into other realms of instruction and support to promote successful student learning. The College has developed a model that integrates institutional effectiveness measures (focused on student engagement, learning and achievement/success) with high impact educational practices. The implementation of the model is attested to in the increase in graduation and transfer rates and in the redesign of our approach to professional development, from episodic, stand-alone workshops to sustained faculty engagement in communities of practice, with support from Title III.

We continue to focus our endeavors on student engagement and success, especially for Native Hawaiians, through innovations such as - (1) accelerated English courses, where developmental and college-level courses are completed in a single semester; (2) offering developmental math instruction through an emporium model; (3) scholarships, opportunities for undergraduate research, and peer mentoring in science, technology, engineering and math (STEM) courses through funding from the National Science Foundation. Initial student success results for the math emporium model have been promising. We continue to seek ways to improve instruction in mathematics, and this year we will be joining a national project funded by the Carnegie Foundation on developing accelerated pathways to the completion of college-level math. We have increased access to baccalaureate programs through degree pathways in partnership with the University of Hawai'i at Mānoa (Ka'ie'ie, May 2007, revised August 2012), University of Hawai'i – West O'ahu (Mananawai, December 2007) and University of Hawai'i Hilo (Ho'omi'i, May 2006, revised January 2010). Along with the other UH community colleges, KCC is engaged in a workforce development grant funded by the Department of Labor to prepare workers for selected areas identified as state needs. The college's responsibilities are to offer training in health care professions.

The college has exceeded performance based funding targets as identified by the Community College System Office and has received additional allocations in fiscal years 2012 and 2013. The funds have been used to enhance the aforementioned initiatives and provide funds for replacement equipment. The College supports the Community College outcomes based

funding request in the fiscal biennium. We believe the College has maintained the momentum to reach the targets for FY 2014 and 2015 and would receive its proportionate share of the pool of funds available. Funding priorities for the campus include fine tuning and program expansion within the existing programmatic blueprint, such as AA with concentrations, AS with more degree pathways to UH West O'ahu, technological remodeling of classrooms to improve delivery of instruction, increasing professional development opportunities for faculty and staff, increasing student services staff support to address changing student demographics and supporting the campus initiative to display and demonstrate our student engagement, learning and achievement model.

**Leeward Community College**  
**Chancellor Manny Cabral – January 2013**

In its 44-year history, Leeward CC, including its Wai'anae campus, has grown to be the third largest of the ten-campus UH system. With a Fall 2012 student enrollment of approximately 8,000 students, Leeward has experienced an enrollment growth of 39% over the past six years and the largest numerical enrollment increase among all ten UH campuses. In particular, Leeward has also focused on increasing the Native Hawaiian student population and serves the largest number of undergraduate freshman/sophomore Native Hawaiian students (2,004 students, UH Dynamic Reporting Fall 2012) among all UH campuses.

Leeward has been able to address the budgetary impact of its continuing surge in enrollment through the support of the legislature's enrollment growth funding and the community college system's internal performance-based (outcomes-based) funding mechanism. On the programmatic side, these funds have been used to sponsor a major Student Success Initiative (a commitment of \$200,000 for five years). The results of this Initiative include the redesign of our developmental math program into a successful Emporium model, the ALP or Accelerated Learning Program in language arts, FYE (First Year Experience), Maka'ala (early student intervention strategy), mandatory counseling and NSO (New Student Orientation).

In addition, funds have supported three new BOR approved degrees in STEM, Health Information Technology and Hawaiian Studies, furnishings and equipment for our new Learning Commons, and major IT projects (Smart Classrooms, Smarthinking, TK20 and Starfish). Funds have also been used to address health, safety and code related position needs and infrastructure needs that required immediate attention. Also supported have been the expansion of mental health counseling services to students, facility improvements for the Leeward CC-Wai'anae campus and the Operations and Maintenance facility at the Pearl City campus.

If the legislature in this session should support the University's outcomes-based funding request as described in the BOR budget, Leeward would use its funds for various operating infrastructure needs. Due to the significant enrollment increases, Leeward would also increase and enhance support services in counseling, admissions and records, financial aid, library, and tutoring. In areas where the college has provided better support services, we have experienced increased student success. We know these support services are mission critical.

Leeward is also asking for support in its CIP request for planning and design funds for a Native Hawaiian Center of Learning and Excellence and for approval of CIP funding for its shovel-ready Theatre Renovation project.

With the expected completion of our new Education Building in Fall 2013, which will house the successful AAT (Associate of Arts in Teaching Program), and the advent of the first UH campus transit stop, Leeward expects enrollment to continue increasing, thus applying constant pressure to our existing programmatic, support and infrastructure foundations.

**Windward Community College**  
**Chancellor Douglas Dykstra – January 2013**

Windward Community College has experienced the strongest sustained growth in its history by combining vigorous outreach efforts, an aggressive commitment to develop its capacity for evening (+30%) and on-line course offerings (+435%), and a strong public relations campaign emphasizing its new 68,000 sq. ft. Library Learning Commons. From Fall 2006 to the present enrollment has increased by 54%. From a baseline of 2007 the college has increased its offerings of introductory level courses by 51% to accommodate incoming students. The Enrollment Growth Funding Initiative, as well as steady increases in tuition rates has enabled this college to grow while maintaining its fiscal stability.

Simultaneously the college's commitment to the UHCC System's *Achieving the Dream* initiative has produced a 109% growth in the Native Hawaiian (NH) student headcount and this comprises 42% of the entire student body (from a baseline of 31% in 2006). Moreover the number of NH graduates during the time period has increased by 48% while the number of NH transfer students moving on to other campuses of the UH system has increased by 196%.

The college has been able to accommodate its growth by identifying an underperforming program that was dissolved after efforts to rejuvenate it failed. The stop-out of the Employment Training Center (ETC) non-credit program has enabled the reassignment of ETC personnel in support of for-credit programs. For instance the college hired new Veterinary Technology A.S. degree program faculty members by re-assigning vacant positions from ETC. Additionally the Counseling Department expanded by 50% by re-assigning ETC counselors. Finally, the college was able to accommodate its needs for new custodial positions in the Library Learning Commons by re-assigning vacant ETC positions.

The college eagerly anticipates favorable legislative action for the University's BOR Biennium request for Performance and Enrollment funding initiatives. Fully funded, these requests would provide this college with \$950,000 in year one and \$1,131,000 in year two of the budget. This lump sum funding will provide timely support for initiatives designed to sustain the college's growth.

The opening of the magnificent new Library Learning Commons has enabled the college to vacate two of its older buildings currently undergoing renovations. The college will realize a net gain of six new classrooms and a dozen new offices as a result of these renovations without the necessary furniture and computer/media equipment. Without this new funding, the college will have to re-allocate funds from within a base budget already seriously reduced.

Year two funding could be used to support staffing needs with faculty positions in the introductory/developmental Mathematics and English disciplines, as well as a Supplemental Instruction Coordinator. Shoring up these positions will bolster the college's persistence rates. Additionally, the college is currently staffing its highly acclaimed Biotechnology Certificate program with grant funds for a Molecular Biologist faculty member and a laboratory assistant both of whom must be added to the permanent staff when grant funds expire. Additionally,

the college needs to support the short-staffed Librarian faculty by hiring a Hawaiian Collection Librarian. Finally, the college needs a dependable source of funding for its equipment needs. The figure required to support these needs is \$500,000 per year. The recent accreditation visit has produced a formal recommendation calling upon the college to "...develop sustainable financial resources to provide adequate staffing, equipment, student and academic support services as well as funding for operations."

**Hawaii Community College**  
**Chancellor Noreen Yamane – January 2013**

I am honored to present testimony on behalf of Hawai'i Community College on the 2013-2015 biennium budget.

From its start in 1941 as the Hawai'i Vocational School, Hawai'i Community College (HawCC) has provided access to higher education opportunities, trained a skilled workforce and supported economic development through our campus located in Hilo (East Hawai'i) and through the University of Hawai'i Center at West Hawai'i. These regions are among the most underserved areas in the State.

Between Fall 2006 and Fall 2011, HawCC experienced an unprecedented increase in enrollment from 2358 to 3917 or 66% and just 222 students less than UH Hilo's enrollment of 4139. Who are these students? Approximately 60% of these students are females, 42 % are Native Hawaiian, the average age is 26, 18-19 year olds comprise the largest age group, 169 are Running Start Students, and 94% are resident students. During the academic year 2011-2012, 2163 students received Federal Pell grants totaling \$7,441,651.

To support this significant increase in enrollment, HawCC used and will continue to use existing Enrollment Growth and Performance Based Funding to increase the number of course offerings in remedial/developmental math, reading and writing and the number of transfer level courses in Liberal Arts. Funding sources were also used to support initiatives to increase retention, persistence, and graduation rates such as a College and Career Readiness Initiative, implementation of a mandatory orientation for new students, Passport to College Success activities, financial aid outreach and processing. Academic support services were enhanced for web development, staff and professional development, information technology and media services. However, additional funding is needed to provide Educational and Academic Support Specialists in areas such as the Learning Centers in Hilo and West HI, in Student Affairs and Instruction. With the much anticipated opening of Hawai'i Community College – Palamanui campus, additional resources will be needed for program expansion as well as to maintain and service the buildings and grounds. Program expansion will be guided by the Academic Master Plan for West HI currently under development. It will be completed by the end of Spring 2013 semester. The Technology Master Plan for Hawai'i Community College has been finalized.

During the course of this period, HawCC established the Associate in Science - Fire Science Degree Program, the Associate in Arts Degree in Hawaiian Studies, and currently in development is the Associate in Science-Natural Sciences Degree. The College reallocated resources to secure an Assessment Coordinator, develop the Instructional Technology Services Office to provide quality distance learning web-based classes, and reassigned vacant faculty positions to Social Sciences and Math.

Even though HawCC experienced a decline in student enrollment from Fall 2011 to Fall 2012 to 3663 we have simply outgrown our existing facilities on the Manono campus and overstayed our welcome on the UH Hilo Campus. We are currently working on developing a Long Range Development Plan (LRDP) for our campus to be located mauka of Komohana St. This site development for HawCC is also included in UH Hilo's LRDP for this area and in their vision to create a University Village for Hawai'i Island.

**UH Maui College**  
**Chancellor Clyde Sakamoto – January 2013**

UH Maui College continues its commitment to workforce development and training that will support sustainable wage careers in emerging and high demand sectors...especially in this challenging economy. The College has recently focused on assessing learning, recruitment and student retention, improved graduation rates and strengthened our relationships with employers in order to support Maui County and the state with a quality local workforce.

Over the past 5 years, UHMC has experienced unprecedented enrollment growth. Since the Fall 2006 enrollment of 2,841 students, the Fall 2012 enrollment of 4,382 students represents a 54% growth, one of the largest student and percentage of enrollment growth among the UH institutions. While UHCC System “enrollment growth” funding and tuition rate increases have marginally covered the institution’s prior levels of course offerings and student services, additional support services to address the expanded student increase have not been available. As a result, UHMC has had to operate with the lowest financial reserves among the seven Community Colleges which accreditation standards require us to maintain at an adequate level to demonstrate financial stability. Despite exceeding Achieving the Dream performance targets, the challenge of being the lowest general funded higher education county on a per capita and per student basis has resulted in 50% retention and 17 % graduation rates...

UHMC therefore requests Legislative support of the University’s Enrollment Growth (UHMC’s projected portion \$1,723,633 in FY2014 and \$1,723,633 in FY 2015) and Outcomes-Based (\$350,667 in FY 2014 and \$701,335 in FY 2015) funding proposals amounting to \$2,074,300 and \$2,424,968 in the next biennium. As UHMC will open the new Science building *‘Ike Le‘a*, this Spring 2013, these resources leverage this and other facilities, faculty and support resources that are required to meet growing student interests with opportunities presented by prospective employers in an economy seeking recovery. These funds will also support the facilities maintenance along with an instructional expansion of our Science, Technology, Engineering and Math programs. Budget reductions and rising infrastructure costs have forced UHMC to restrict critical campus support positions such as clerical services, IT and Web Technicians, Security, Groundskeepers, Custodians, Personnel Officers, Library and Learning Center staffing which have shrunk our programs and services that affect student success. In addition, to meet greater student needs for academic guidance based on clarifying their career directions, counseling and student support services require support.

Additionally, UHMC requests capital improvement funding to renovate and repurpose the deteriorated former student housing facility *Hale Haumana* into an authentic student learning laboratory for our Hospitality and Tourism Program. Capital improvement is only necessary to rehabilitate the building structures, since a number of Maui’s major resort hotels have already committed over \$150,000 of design funds as well as to participating in an “adopt a room” concept that will furnish the suites to a resort standard on a “pro bono” basis. UHMC finally requests capital improvement funds to renovate and expand the UHMC Student Health Center facility to accommodate the growing demand for on-campus health services spurred by increasing enrollments. Both renovation projects support programs that are self-sustaining and will not create an additional financial burden on the institution.

As the only institution in the County of Maui representing the University of Hawai‘i System, UH Maui College seeks support to accommodate the increasing higher learning demands and strengthen the economic health of our State and tri-isle County.

**Kaua'i Community College**  
**Chancellor Helen Cox – January 2013**

Aloha! First of all, I want to thank the Hawaii State Legislature for your support of the students of Kaua'i Community College. I know that you have the difficult job of making funding decisions when there are more needs than money and appreciate your consideration of the needs of the College.

Enrollment at Kaua'i Community College has continued to grow. Enrollment in the fall of 2008 was 1104; in fall 2012 it was 1495, an overall increase of 355. One opening day our spring enrollment was up 2.7% from last spring. Much of this growth has been fueled by the increase in Hawaiian or Part-Hawaiian students and, to a lesser degree by an increase in older students. Since fall 2008 there has been a 103% increase in the raw number enrollment of Hawaiian or Part-Hawaiian students. The percentage of students 20 years old or older in the same timeframe grew from 60% to 65%. Interestingly, the percentage of part-time students stayed constant near 60% in fall terms, but has increased from 62% to 68% in spring terms. Liberal arts majors make up about half of all students at the college. Percentage of enrollment by major has remained steady for all majors, although there have been some notable new or revived programs that have seen growth, such as Carpentry, Electrical Installation and Maintenance Technology, Hawaiian Studies, and the Marine Options program within the liberal arts program.

National studies show that students who have an academic plan are more likely to complete a degree or certificate. For this reason, we have been working to reduce the percentage of students who have an undeclared major. That percentage has decreased from 12% in 2008 to 7% in 2012. We have also added important degree pathways, adding a Hawaiian Studies AA and developing one Associate in Science in Natural Sciences and another in Business.

Growth in enrollment, while positive for students, the college and the state, also presents challenges as we stretch our services while at the same time meeting the needs of our students. Tuition increases and enrollment growth funding from the legislature has helped us cover the costs of added classes to accommodate that growth. However, other costs such as lab supplies, equipment, and support services have been more difficult to cover.

Despite our growth, we have met our performance targets in almost every area. Performance Outcomes Funding at the level requested and based on those achievements, will enable us to support academic programs. For example, our high demand Digital Media program needs seven additional workstations. Also, as we develop an associates in natural science, our marine science and agricultural labs need up-to-date equipment to prepare students for the workplace and/or transfer to a four year degree. Performance funding also will provide opportunities for our students to be involved in Hawaii Space Grant Program prior to a Kaua'i launch. Finally, performance funding will increase outreach to the high schools particularly in STEM programs.

In the coming year, Kaua'i Community College will continue to provide access and success for students, prepare the workforce for today and tomorrow and assist the state in creating an economically, socially and environmentally sustainable future. Thank you for your help.

## **Mission Statement**

### **Hawai'i Revised Statutes 304A-102 states:**

The purposes of the university are to give thorough instruction and conduct research in, and disseminate knowledge of, agriculture, mechanic arts, mathematical, physical, natural, economic, political, and social sciences, languages, literature, history, philosophy, and such other branches of advanced learning as the board of regents from time to time may prescribe and to give such military instruction as the board of regents may prescribe and that the federal government requires.

### **University of Hawai'i Board of Regents Policy states:**

The primary mission of the University of Hawai'i system is to provide environments in which faculty and students can discover, examine critically, preserve and transmit the knowledge, wisdom, and values that will help ensure the survival of the present and future generations with improvement in the quality of life.

### **The UH System Strategic Plan approved by the Board of Regents in 2002 provides a fuller description as follows:**

The common purpose of the University of Hawai'i System of institutions is to serve the public by creating, preserving, and transmitting knowledge in a multi-cultural environment. The University is positioned to take advantage of Hawai'i's unique location, physical and biological environment, and rich cultural setting. At all levels in the academy, students and teachers engage in the mastery and discovery of knowledge to advance the values and goals of a democratic society and ensure the survival of present and future generations with improvement in the quality of life. Functioning as a system, the purposes of the University of Hawai'i are to:

- Provide all qualified people in Hawai'i with equal opportunity for high quality college and university education and training.

- Provide a variety of entry points into a comprehensive set of postsecondary educational offerings, allowing flexibility for students to move within the system to meet individual educational and professional goals.

- Advance missions that promote distinctive pathways to excellence, differentially emphasizing instruction, research, and service while fostering a cohesive response to state needs and participation in the global community.

As the only public higher education institution in Hawai'i, the UH System bears a special responsibility to prepare a highly educated citizenry. In addition, the System supports the creation of quality jobs and the preparation of an educated workforce to fill them. Building on a strong liberal arts foundation, the UH System prepares the full array of workers from technicians, physicians, and scientists to artists, teachers, and marketing specialists—who are needed in a technologically advanced and culturally diverse island state.

<u>Name of Fund</u>	<u>Purpose</u>	<u>Statutory Reference</u>	<u>MOF</u>	<u>Beginning FY13 Unencumbered Cash Balance</u>	<u>Estimated FY13 Revenues</u>	<u>Estimated FY13 Expenditures and Encumbrances</u>	<u>Estimated FY13 Net Transfers</u>	<u>Estimated FY13 Ending Unencumbered Cash Balance</u>	<u>Balance in Excess of Program Needs</u>
<p>/1 The estimated ending unencumbered cash balances include deferred revenue, which is revenue collected in FY 2013 for FY 2014 activities. The combined estimated deferred revenue for the Tuition and Fees Special Fund and the Community College Special Fund is approximately \$5.7 Million. Of the remaining unencumbered balances, approximately \$18.7 million are required to meet the UH Community College (UHCC) reserve policy. The UHCC reserve policy is required by the Accrediting Commission for Community and Junior Colleges (ACCJC) to ensure the financial stability of accredited campuses. The reserve level is set at 10% of the unrestricted funds (general, special, revolving funds; excluding the Revenue Undertakings special fund and Student Activities revolving fund) expenditures and encumbrances for the fiscal year.</p>									
<p>/2 The estimated ending unencumbered cash balances are needed for chartered student organizations and student activity programs of the Community Colleges, such as student government, social and cultural activities, honor society activities, new student orientation, etc. The enabling statute provides chartered student organizations with the authority to determine how these funds are spent.</p>
