Vice Chancellor for Research and Graduate Education &
Interim Dean for the John A. Burns School of Medicine
University of Hawai'i at Mānoa

HB 2881, HD1 Relating to Perinatal Care

Chair Chang, Vice Chair Bertram, and Members of the Committee:

Thank you for the opportunity to testify today. Unfortunately, the University of Hawai'i at Mānoa can only support the intent of the bill at this time because of our pressing priorities, such as our tremendous need for repairs and maintenance and health and safety issues, which are critical to our ability to perform our core mission for the State of Hawaii. We are grateful to the Legislature's attention to these needs. We recognize that you have many priorities and issues to weigh for the state, so the following information on this program is provided to assist you in your decision-making process.

This program is currently underway with the involvement of the John A. Burns (JABSOM) faculty and staff. It addresses an important need in the state and preliminary assessment of our activities suggests we are having a positive impact.

Thank you for the opportunity to testify, we appreciate all interest in the University, and want to emphasize that we will be able to perform better in all arenas and best serve the state with support of the current campus priorities approved by the Board of Regents.
