Testimony Presented Before the  
House Committee on Agriculture  
Wednesday, March 21, 2012 at 9:00 am

By  
Virginia Hinshaw, Chancellor  
And  
Vassilis Syrmos  
Associate Vice Chancellor for Research & Graduate Education  
University of Hawai'i at Mānoa

HCR 104 Urging the University of Hawai'i to Designate the Magoon Research Facility Site for the University of Hawai'i at Mānoa College for Tropical Agriculture and Human Resources

Chair Tsuji, Vice Chair Hashem and Members of the Committee: My name is Vassilis Syrmos and I am the Associate Vice Chancellor for Research & Graduate Education at the University of Hawai'i at Mānoa. Thank you for the opportunity to provide written testimony in strong support of each and every point of this resolution, however, I have strong reservations in the technicality of the language.

The College of Tropical Agriculture and Human Resources (CTAHR), along with the College of Engineering, are the founding colleges of the University of Hawai'i at Mānoa; a land grant institution. CTAHR has provided meaningful contributions to the state in education, training, research, extension programs and workforce development for over 100 years.

The Magoon Research Facility, like many other CTAHR facilities across the state, has served this core mission of the college for many decades. As such the University of Hawai'i at Mānoa would neither displace nor close any such facility, including the Magoon site, without ensuring that the facility is relocated by providing at least the same level, preferably better, of teaching, research, extension, and outreach experiences to the students, faculty and the community at large. The creation and success of such facilities in the University of Hawai'i at Mānoa only occurs after extensive consultation with faculty, students, and the community. Success of such programs comes through the strength and participation of our faculty and students. Therefore, any major changes to University facilities cannot be achieved without their concurrence and participation.

Finally, although we are in strong support of the points of the resolution, the specific language preclude the University of Hawai'i at Mānoa to manage its assets in an autonomous and efficient manner by earmarking facilities and sites for specific disciplines on campus. We recommend that the resolution is amended to reflect the strong support for CTAHR and Magoon Research Facility Site without restricting the University's asset management ability.

Thank you.
