

UNIVERSITY OF HAWAI‘I SYSTEM ANNUAL REPORT

REPORT TO THE 2008 LEGISLATURE

Annual Report on
Research And Training Revolving Fund
2006-2007

HRS 304A-2253

November 2007

**ANNUAL REPORT ON THE
RESEARCH AND TRAINING REVOLVING FUND
2006/2007**

INTRODUCTION

The Research and Training Revolving Fund continues to be very effective in stimulating research, which results in extramural contracts and grants. This report summarizes the utilization of the Fund for 2006-2007 and indicates the effectiveness of this support. Procedures for awarding grants from the Fund were the same as in previous years.

The Governor's approved guidelines for the administration and utilization of the Fund:

1. The funds were administered by the Vice President for Research, the Manoa Vice Chancellor for Research, and the University Research Council within the general guidelines approved by the University President.
2. The funds were administered in the four categories described under Part I – Fund Utilization.

I. FUND UTILIZATION

Pursuant to HRS Section 304A-2253, \$38,984,031 was deposited into the Research and Training Revolving Fund and allocated as follows:

A. Scholarly Development Fund

The Scholarly Development Fund serves two purposes. The first is to provide seed money support to develop research projects or training programs for extramural funding. The second is to provide travel funds for University professionals that enable them to communicate research and new ideas at international, national or regional meetings, and to permit contact with extramural funding agencies.

Allocation

A total of \$459,100 was allocated to the fund by the Vice President for Research and the Manoa Vice Chancellor for Research and distributed as follows:

1. Seed Money Program: \$0
Table 1. (Not applicable)
2. Professional Travel: \$459,100

The council reviewed 389 travel requests totaling \$697,901.35. It made 306 awards totaling \$474,759.09 or 68% of the amount requested. Table 2 lists the Professional Travel recipients.

Allocation for 2007-2008: \$450,000

B. Facilitating Services Fund

The Facilitating Services Fund is used to support the research, instruction and public service missions of the University units that generated overhead revenue.

The fund is allocated in proportion to the overhead revenue generated by each of the units.

Effective FY 1999, the Deans and Directors of the units were granted the authority to expend these funds at their own discretion.

Allocation

A total of \$20,539,709 was allocated to the fund. Table 3 lists the distribution by unit.

Allocation for 2007-2008: \$19,772,587

C. Project Development Fund

The Project Development Fund is used to support the facilitate research and training in new or developing fields, provide matching funds for the acquisition of research equipment, and to promote participation in professional organizations.

Allocation

\$5,481,381 was allocated to the Manoa Vice Chancellor for Research to facilitate research and training in new or developing fields. The Vice Chancellor made 55 awards totaling \$4,005,187.65. Table 4 lists the Project Development Fund recipients.

\$100,000 was allocated to the fund of Innovative Scholarship And Creative Works by the Vice Chancellor for Research. The Vice Chancellor for Research received 18 applications totaling \$80,486.15 and made 16 awards totaling \$74,486.03. Table 4-A lists the Special Fund For Innovative Scholarship And Creative Works recipients.

Research Relations SEED Grants. \$100,000 was allocated to the fund by the Vice Chancellor for Research. The URC received 46 applications totaling \$203,677.97. The Council approved funding for 23 projects totaling \$88,882. Table 5 lists the Research Relations Fund recipients.

Special Projects Fund: Table 6. (Not applicable)

Allocation for 2007-2008: \$7,682,748

D. Vice President for Research Allocation:

A total of \$5,555,866 was allocated to the Vice President for Research and funds were allocated for the following: Office of Technology Transfer and Economic Development \$800,000.

The Vice President for Research made 31 awards totaling \$3,679,236.87 in support of programs summarized in Table 7.

The following amounts were designated for research infrastructure, \$6,747,975.09: \$3,778,461.52 for RCUH Management Fees, \$780,000 for High Speed Internet Connection, \$70,000 for UH Connections, \$238,816.57 for A-133 audit, \$830,000 for system wide research support, \$548,697 for Animals and Human Subjects Compliance, and \$502,000 for Maui Super Computer Management Fees.

Allocation for 2007-2008: \$11,159,087

II. RESULTS OF SEED MONEY AND PROFESSIONAL TRAVEL AWARDS

A. Extramural Awards to Recipients of Seed Money

Recipients of these funds are actively seeking new sources to support their research. The Revolving Fund is very important in this connection, especially for younger faculty not yet having established a track record. Once they have initiated research with seed money, they can cite initial results, and thus make a much stronger case for receiving additional support.

Results from seed money are not always immediate, but may occur some time after a seed money award. The results reported herein thus may be due to funds allocated in earlier years. The Fund was initiated in 1975.

The Research Council awards for seed money from the Revolving Fund give due consideration to the potential for generating extramural support. Faculty receiving seed money awards must indicate their plans for extramural funding to further research. During the last fiscal year, no awards were given for seed money.

B. Extramural Awards to Faculty Receiving Travel Support

The recipients of these travel awards are all productive scholars with active research agendas. The presentation of their research results at major professional meetings allows the investigators to meet with potential sponsors and exchange ideas with colleagues. It also exposes the broader professional community, including funding agencies, to the work being accomplished at the University of Hawaii, results in increased professional recognition of investigator and the University, and leads to additional funding.

Of those granted support to travel to professional meetings to present the results of research 77 received extramural funding for research/training projects totaling \$19,626,840.

III. TOTAL EXTRAMURAL SUPPORT FOR RESEARCH/TRAINING, 2006-2007

Attached are two summary tables, Table 8 for research and Table 9 for non-research and special projects, each of which gives comparative figures for awards made to the University, on a month by month basis, for this year and the past five years.

In 2006-2007, 1014 research awards worth \$201,421,198 and 651 training awards worth \$131,875,356 were received. In addition, the Hilo Campus separately reported receipt of 53 research awards totaling \$5,287,358 and 44 training awards totaling \$12,648,868.

CONCLUSIONS:

As summarized in this report, the Research and Training Revolving Fund is essential to the effective operation of the programs administered through this office. It is one of the most important sources of support this University has. The Governor and the Legislature should be highly commended for their foresight in establishing the Fund as an investment in the health of research and training at the University, and for the provision of the additional funds for equipment, repairs, and maintenance.

Respectfully submitted,

James R. Gaines
Vice President for Research
