

UNIVERSITY OF HAWAII SYSTEM

Legislative Testimony

Testimony Presented before the
Senate Committee on Ways and Means
February 23, 2007

by
Andrew G. Hashimoto, Dean
College of Tropical Agriculture and Human Resources
University of Hawai'i at Mānoa

SB 837, SD1, Relating to Agriculture

Chair Baker, Vice Chair Tsutsui, and Members of the Committee:

The purpose of SB 837, SD1 is to authorize the Agribusiness Development Corporation (ADC) to issue revenue bonds to purchase agricultural land in Kunia from the Campbell Estate, appropriate funds to purchase the lands, enable the ADC to contract with banks to provide lease management services, and allow the ADC to lease agricultural lands in Kunia for up to 55 years.

The University supports SB 837, SD1.

Protecting important agricultural lands is fundamental to Hawai'i's future. Agriculture and its value-added products contribute \$2.4 billion to the state's economy and employ more than 38,000 people. Growing food locally improves our food security, and the production of biofuel and bioenergy crops has great potential for lessening our dependence on imported petroleum. In addition, farming supports our tourism industry by conserving green, open countryside that our visitors value.

Demand for residential development in Central O'ahu remains high. By enabling the ADC to purchase agricultural lands in Kunia and lease those lands for up to 55 years, SB 837, SD1 will ensure the long-term availability of these lands for farming and will support the continued growth of diversified agriculture in Hawai'i. The State of Hawai'i should purchase strategic parcels of important agricultural lands to assure that they remain in agriculture in perpetuity. Kunia is one of these important strategic areas.

Thank you for the opportunity to testify on this bill.
