

UNIVERSITY OF HAWAI'I SYSTEM

Legislative Testimony

Testimony Presented Before the

Senate Committee on Health

February 9, 2007

by

Dr. Gary K. Ostrander
Vice Chancellor for Research and Graduate Education &
Interim Dean for the John A. Burns School of Medicine
University of Hawai'i at Mānoa

SB 1411, Relating to Torts

Chair Ige, Vice Chair Fukunaga, and members of the Committee:

My name is Gary Ostrander and I currently serve as the Interim Dean of the John A. Burns School of Medicine (JABSOM) of the University of Hawai'i at Mānoa. I am writing in strong support of SB 1411 Relating to Torts.

This bill will implement tort reform in Hawai'i, placing reasonable limits on the medical malpractice exposure of health care providers in Hawai'i. Enactment of this proposal would help solve critical community problems – the shortage of physicians in crucial specialties and the high cost of malpractice insurance to hospitals and health care providers.

Patient care has been seriously compromised due to Hawai'i's lack of tort reform. For example obstetrician-gynecologists are leaving obstetrics and new graduates are not choosing this field; orthopedic surgeons are leaving Hawai'i and we do not have adequate physician specialty coverage. Malpractice coverage for the UH Medical School is challenging to obtain and a significant financial drain on the School's budget.

This is a matter that deserves your serious consideration. Thank you for the opportunity to testify on this bill.
