

# UNIVERSITY OF HAWAII SYSTEM

## Legislative Testimony

---

Comments presented before the  
Senate Committee on Ways and Means  
February 21, 2013 at 9 am

By Linda K. Johnsrud

Executive Vice President for Academic Affairs & Provost, University of Hawai'i System

### SB 1095 SD1 – RELATING TO EARLY CHILDHOOD EDUCATION

Chair Ige, Vice Chair Kidani, and Members of the Committee:

The University of Hawai'i supports SB 1095 SD1 that establishes a statewide early childhood education program within the early learning system administered by the Executive Office of Early Learning. The program would prepare children for school; provide access to high-quality early childhood education; and align with K-12 standards to facilitate seamless educational experiences for children.

Given that numerous studies have shown the link between quality early childhood education, children's readiness to enter school, and subsequent school and adult outcomes, it is vitally important that early education address the multiple aspects of children's developmental needs and include standards and practices that are shown by research to be tied to better outcomes.

The University of Hawai'i recognizes that our own effectiveness as the state's public higher education system relies on the strength of the earliest foundations we establish for our youngest children. We therefore have been an active member of the Early Learning Advisory Board, and have consistently supported the establishment of an early learning system in Hawai'i and the kind of early education described in SB 1095 SD1.

Thank you for the opportunity to testify.
