University of Hawai'i System Child Care Needs Assessment Executive Summary

INTRODUCTION

Every day, in multiple ways, the University of Hawai'i reaps the benefit of our late Congresswoman Patsy T. Mink's "Title IX of the Education Amendments of 1972," best known for its impact on athletics, but primarily intended to provide access to post-secondary education. Legal change is only the first step, social and institutional change takes more time. The accelerated growth of women in education, both as students and employees, requires further changes to the social institution of our "universities." Child care is a key issue for both "non-traditional" student parents and for employees (both men and women) in their quest for educational access, professional access and a balance between work and family.

In late Spring 2009 (April 16 - May 15) an online survey of the child care needs of students, faculty and staff of the 10 campuses of the University of Hawai'i System was conducted by the University of Hawai'i President's Commission on Status of Women (CSW) and the UH Mānoa (UHM) Women's Center.

Funded by the Office of the President of the University of Hawai'i System, the survey assessed the child care needs of students, faculty and staff on all ten campuses of the UH System.

The survey netted 3,812 complete responses from across the UH System, resulting in a 6% overall response rate from the 51,090 students and 8,819 employees in Spring 2009.

The survey coincided with the last three weeks of classes and finals week, which may have been an impediment to a more robust response.

This Executive Summary provides an overview of findings and recommendations appropriate for all campuses of the University of Hawai'i System and is accompanied by a series of campus-specific reports.

Some Changes Create New Context: 2009-2013

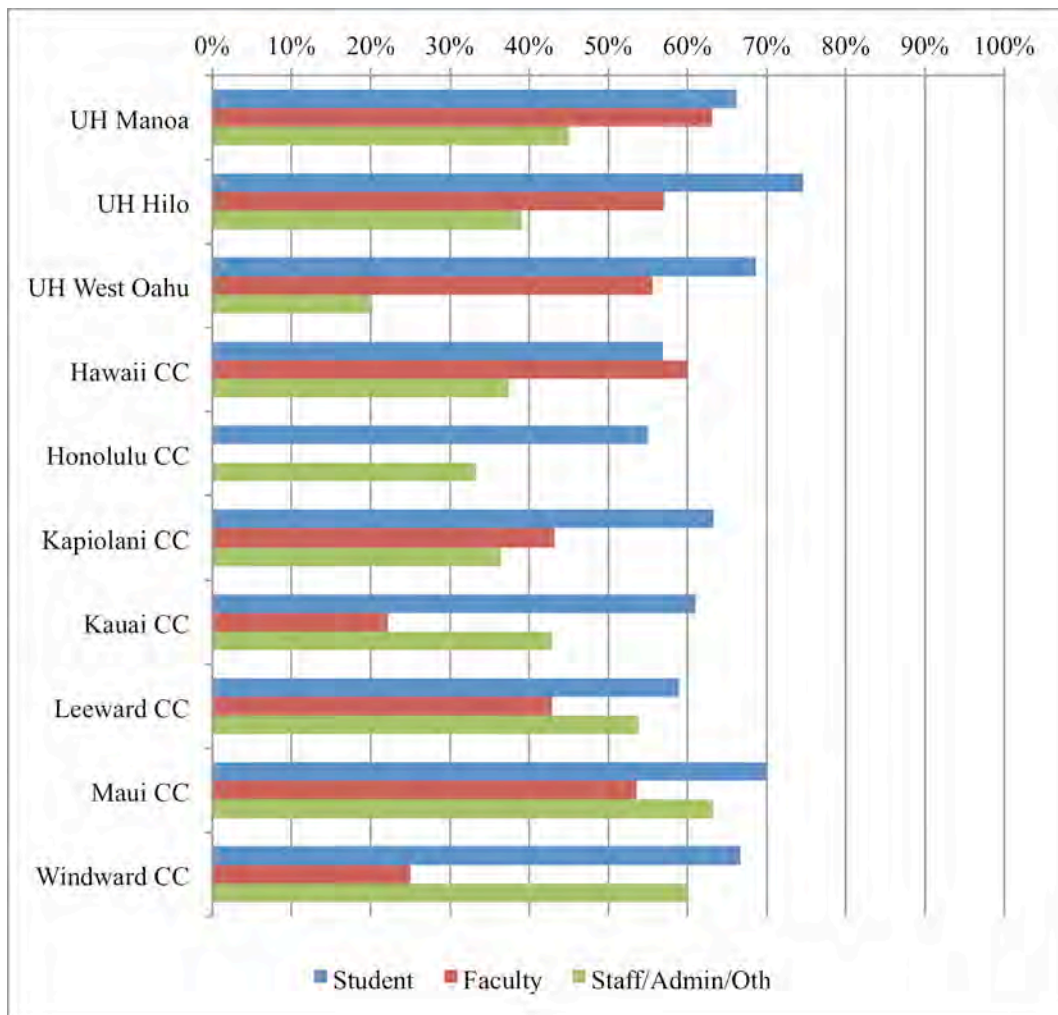

- Although complete findings have been delayed, the need for affordable care has not diminished. Recommendations for increasing child care inventory remain compelling.
- Campuses experiencing increased faculty hiring may find an accelerated push for child care. It is recommended that an updated OHR employee data set be analyzed with an eye towards identifying trends in faculty and staff in childbearing/childrearing age groups (25-50 years old).
- A recessionary economy means increased competition for limited resources. But economic recovery, employee retirement and hiring, and increased enrollment of adult students all increase the need for child care services.
- The long-anticipated West O‘ahu campus has opened, expanding both educational opportunities and student services. While UHWO offers an academic program in Early Childhood Education, it does not currently have an on-campus child care facility.
- Temporary closure of on-campus child care at Kaua‘i Community College in 2013.
- Childcare opportunities were increased in Fall 2012 at UHMānoa through a creative partnership with nearby DOE schools.
- Changed context regarding childcare cost and access.
 - Changes in State Child Care Subsidy Program: As of Jan. 2010, the State child care subsidy payment scale was dramatically revised resulting in substantially reduced subsidies for 2-parent households with earnings.
 - While students and education activities remain eligible for these subsidies, 2-parent households are eligible only for those concurrent hours when both parents are unavailable to provide care.
 - E.g. a 2-parent household with 1 full-time employed parent, and 1 full-time enrolled student parent would only be eligible for the 12 hours of classroom time overlapping between the two parents.
 - Loss of Junior Kindergarten at DOE campuses (Fall 2014) will increase pressure on private sector child care inventory for 4-5 year olds. The dwindling child care availability for this age group creates a demand greater than the resources to fulfill the need. The success of efforts to fund and implement "universal preschool for 4 year olds" will be watched carefully and will require time to implement if and when successful.

IMPORTANT FINDINGS & RECOMMENDATIONS

Child Care centers are available at the following campuses: Mānoa, Hawai‘i CC, Honolulu CC, Kapi‘olani CC, Kaua‘i CC, Leeward CC, and Maui College. Hilo, West O‘ahu and Windward CC do not have on-campus child care.

- Affordable, on-campus child care enhances the inclusive learning and working environment of the University campuses by:
 - Expanding educational access for a diverse student body;
 - Increasing student retention and graduation for student parents;
 - Increasing the diversity of the campus community; and
 - Promoting faculty and staff recruitment and retention.

- Twenty percent (20%) of all female faculty and 30.8% of all female staff throughout the UH System participated in the survey. Such high response rates by female faculty and staff of childbearing age indicate very strong interest and need for campus-based child care. While faculty are vocal in their frustrations over limited on-campus child care, other employees (APT, Civil Service, Executive) also have need and took time to respond to the survey.
- Nearly half (49%) of the survey participants said that they anticipate needing childcare within the next four years to maintain enrollment or employment at UH.
- Current on-campus child centers are well regarded, but nearly everyone desires an expansion of hours. Some students and most staff indicate the limited hours of operation as a barrier to access and use.
- “Affordability” is in the eye of the beholder, but students, staff and faculty report a desire for some form of financial assistance to pay for child care.
- For both women and men, the desire to balance work and family demands has become increasingly important. Most administrators are aware that the availability of on-campus services of all types offers more than convenience – it can contribute significantly to creating a family-friendly campus climate, facilitating recruitment of faculty and staff, increasing employee satisfaction and productivity, and reducing absenteeism and employee turnover. Furthermore, employed student parents have a "balancing act" that includes family, work and class, making convenient, on or near campus child care essential.
- When asked, “Has a lack of child care services affected your work performance or academic success on campus?” Overwhelmingly, students, faculty and staff responded, “YES.”

- UH Executive Policy E10.401 governs campus-based child care programs and guidelines prioritize “Service to Students” requiring “At least 75% of childcare space should be allocated to students; any remaining space will be made available to faculty and staff.” *It is this 75/25 ratio that faculty and staff seeking on-campus care find frustrating.*
- This priority for student access reflects both the source of funding for child care centers, as well as an intention to provide educational opportunities in early childhood education.
- These guidelines also establish that “each center should strive to meet standards of excellence established by the National Academy of Early Childhood Programs. . . and should seek accreditation. . . within two years of opening.” *It is exactly this level of educational excellence that make UH campus-based centers so desirable.*
- In addition to addressing the child care needs of parents, campus-based child care directly benefits the University as a laboratory for teaching and research in the fields of psychology, communication, health, education, and human development. Campus-based child care centers provide: (1) teacher training with diverse populations; (2) access to high-quality early childhood education, particularly for children in low-income households (most likely students); and (3) UH researchers access to a diverse population. Additionally, campus-based centers participation in action-research projects and student mentoring, contributes new knowledge to the field of teaching and early childhood education.
- Almost 25% (3.9 million) of the 17 million undergraduate students in the U.S. are parents of dependent children, and half of those (1.9 million) are single parents.¹ In recent years, women have become the majority of students in postsecondary settings and they, therefore, also make up a larger proportion of student parents. A study conducted by the State University of New York concluded that graduation rates are higher for student parents when campus-based child care is provided. Students with access to such support are more likely to remain enrolled, graduate in fewer years, and earn higher grades.²

GENERAL RECOMMENDATIONS APPLICABLE TO ALL UH CAMPUSES:

- Expand child care availability on and near UH Campuses; target campuses without on-campus child care for near-term assessment. Ensure that future development at all UH Campuses include child care spaces as essential for the university community.
- Construct a working group at each campus empowered to creatively address the shortage of on-campus and near-campus child care. This working group must include appropriate stakeholders, both users and those able to commit campus resources.
- Develop a comprehensive implementation plan to provide additional child care opportunities. This plan must differentiate the appropriate staffing and facilities requirements to meet the various care needed, including: Infant, 2 year olds, 3-4 year olds, and 5 year olds not eligible for kindergarten.
- Address the significant need for infant care by expanding on-campus child care services and creatively partnering with private sector providers who meet standards of "quality" care comparable to current accredited on-campus child care facilities.
- Significant unmet need remains in infant and various types of “gap” care (e.g. drop-in care, "break care" for faculty and staff during UH academic breaks, as well as public DOE school breaks). We recommend that each campus form a multi-departmental, family advocacy

¹ *Improving Child Care Access to Promote Post-Secondary Success Among Low-Income Parents.* March 2011. Institute for Women’s Policy Research (IWPR). Washington, D.C.

² Augusta S. Kappner, *Across the Education Continuum: Child Care on the College Campus.* Cedar Fall, IA: National Coalition for Campus Children's Centers, 2002. p.1.

- team including child care visionaries and stakeholders to identify facility spaces and funding options to expand child care services to address these needs and implement a solution.
- Clearly, the availability of campus-based child care must be flexible enough to accommodate the needs of the academic community. An important factor to consider is affordability of child care among users. Some families can afford to pay full rates, while for others child care costs become a barrier. It is clear that current levels and sources of subsidy may not be sufficient, and this needs to be addressed.
 - Create resources for disbursing information to students, faculty and staff regarding the availability of child care services and options.
 - Identify an office/person/website on each campus that can explain Child Care Connection Subsidies to students for both on-campus or community-based care. Single parent students with very low income are still eligible for reasonable subsidies, but may not know about the program.
 - Enhance the visibility and knowledge of community-based child care opportunities, including services provided by PATCH (People Attentive to Children), Hawai'i's state-wide child care resource and referral agency.
 - Recently, PATCH introduced an "Enhanced Referral Service" only sharing information of those providers with current child care space availability (for a fee).
 - "Maternity" seminars for planning and expectant faculty and staff could provide information on short-term disability pay, infant-care leave policies and child care options.
 - Creative funding strategies offer opportunities for expansion, but increasing general-funded staffing of childcare centers reduces the (already high) cost of providing on-campus child care and indicates a level of commitment to provide child care.
 - Develop, disseminate and encourage policies that facilitate a "family friendly" climate campus-wide. This would include:
 - 1) Encouraging all faculty to accommodate student parents' challenges with mandatory class attendance policies;
 - 2) Encouraging academic units to conduct departmental business during business hours that accommodate parents' need to pick-up children before child care closes (e.g. not at 4:30 pm);
 - 3) Encouraging use of an expanded tenure-clock for new parents.
 - Develop options for childcare that meets the needs of students and faculty with early morning (before 8:00 am) and late afternoon/evening classes (4:30 – 8pm). Expanding hours would also increase "staff" access since they typically cannot pick-up children by 4:30 pm.
 - Pursue creative partnerships for funding; including subsidized child care options offered through the State Department of Human Services, Head Start and others. Continue to apply for federally funded CCAMPIS grants, which subsidize campus-based child care for Pell-eligible students. Consider partnerships with local area providers who meet expected standards of "quality" care and learning comparable to UHMCC. Consider partnerships with employee unions to expand options for faculty and staff.
 - Encourage each campus to attempt to determine the number and percentage of student parents to begin understanding the scope of need.
 - Edit the UH Summary of Employee Benefits regarding child care centers to clearly indicate that students typically have first priority for available openings; and that faculty and staff may be placed on a waitlist.

- Engage with national conversations regarding resources for campus-based child care such as the “Student Parent Success Initiative” of the Institute for Women’s Policy Research, AAUW, and the National Coalition for Campus Children’s Centers among others.
 - The 2012 report, “Tools for Student Parent Success: Varieties of Campus Child Care,” by the Institute for Women’s Policy Research (IWPR) shares a wide variety of child care services at a variety of universities. It is a good start for any “working group” discussing creative options for expanding child care inventory and access.

As many female graduate students and faculty can attest, the biological and tenure clocks run concurrently. And as younger employees, men and women, press for a more equitable and less stressful “work/life balance,” the University is positioned to respond as a community leader and provide the support needed.

The University of Hawai‘i joins other employers, and other Universities³ in this quest to provide affordable, quality, convenient child care for students and employees. Others have examined and implemented a variety of options, including: parent co-ops, general referral services, subsidized referrals for “sick” and “break” care, partnerships with approved off-campus providers,

Finding a range of options appropriate for each UH campus requires campus-based working groups of invested stakeholders, with the authority to commit resources and implement new ideas.

The UH President’s Commission on the Status of Women look forward to working with their UH campuses to implement expanded access to quality, affordable child care for students, faculty and staff.

I love the quality of care at Alani (KCC) however it is highly inconvenient when there is no care on breaks and during 'duty week' when faculty must be at work but classes have not started. That is the worst week of my semester.

Drop in care for students would REALLY support them -- many cannot afford the full time child care and they try to patch together care that falls through and they drop out. A drop [in] center would be helpful for them (though not needed for myself personally.) Thank you for asking! (Female Faculty, KCC)

More detailed and comprehensive data was compiled than could be shared in these reports. Follow up inquiries can be addressed to Teresa Bill at the UHMānoa Women’s Center (gotkids@hawaii.edu or 956-8059).

MAHALO to the many who assisted with the completion of this project and report. Graduate Assistants Azeema Faizunnisa and Patricia Fifita were key along with Michael Hodges of UH System ITS. Stephanie Kim (Chair), Deb Ishii and Wendy Sora (Vice-Chairs) of the UH President’s Commission on

the Status of Women (CSW), persistently inquired regarding progress; the UH Mānoa Women’s Center supported the time given to complete the survey and report; Directors of all campus child care centers patiently responded to inquiries; and UH President M.R.C. Greenwood financially supported this project.

³ Fifty seven percent (57%) of public four-year institutions offer on-campus child care, and 49% of community colleges also offer on-campus child care.

University of Hawai‘i – Hawai‘i Community College Child Care Survey 2009

This report is specific to Hawai‘i Community College, which currently has on-campus childcare – The Hawai‘i CC Children’s Center.

Overall, interest and engagement with this survey was not very high with less than 3% of all students participating and 10% of all employees.¹ However, those who did respond, 75% had children in their household and they clearly indicated areas of unmet need and areas for growth for the Hawai‘i CC campus community.

The 130 responses from the Hawai‘i CC campus represented 3.4% of the total number (3,812) of respondents to the UH Systemwide survey.

Fifty nine percent of the participants were students (77) indicating a response rate of only 2.7% of all students enrolled in Spring 2009.

Ten percent of all employees responded to the survey. Twenty percent of Hawai‘i CC responses were faculty members (32) and 12.5% were staff (17). Another single respondent made up the total (130).²

Affordable, on-campus child care enhances the inclusive learning and working environment of the University campuses by:

- Expanding educational access for a diverse student body
- Increasing student retention and graduation rates for student parents
- Increasing the diversity of the campus community
- Promoting faculty and staff recruitment and retention.

IMPORTANT FINDINGS: Child care need is consistently high among students, faculty and staff. Survey results indicate both students and employees have limited access to affordable, convenient, high quality (accredited) child care. Both students and employees desire on-campus child care as a convenient way to address this need and expansion of available inventory can "grow the pie" of limited resources that students and employees compete for.

Strong responses from women of childbearing age at all campuses, indicate this is an issue that impacts women’s lives tremendously.

¹ The survey coincided with the last three weeks of classes and finals week, which may have been an impediment to a more robust response.

² Employees are Faculty (including lecturers), or Staff/Admin/Other (combined when reported).

For both women and men, the desire to balance work and family demands has become increasingly important. Most administrators are aware that the availability of on-campus services of all types offers more than convenience – it can contribute significantly to creating a family-friendly campus climate, facilitating recruitment of faculty and staff, increasing employee satisfaction and productivity, and reducing absenteeism and employee turnover. Furthermore, employed student parents have a "balancing act" that includes family, work and class, making convenient, on or near campus child care essential.

Campus Specific Recommendations for Hawai‘i CC:

These campus-specific recommendations are offered in conjunction with the general recommendations for all campuses detailed in the UH System Child Care Needs Assessment Executive Summary.

- Expand child care availability on and near the Hawai‘i Campus.
- Hawai‘i CC’s reputation for a high proportion of “non-traditional” student means child care is even more important as a student retention and graduation strategy.
- Create a working group empowered to creatively address the shortage of on-campus and near-campus childcare. This working group must include appropriate stakeholders, both users and those able to commit campus resources.
- Develop a comprehensive implementation plan to provide additional child care opportunities. This plan must differentiate the required staffing and facilities for the various care needed including: Infant, 2 year olds, 3-4 year olds, and 5 year olds not eligible for kindergarten.
- Utilize existing facilities that could be retrofitted or re-purposed for child care.
- Revisit any partnership with UH Hilo to evaluate whether the current partnership is effective and/or should be modified to address current needs of both parties.
- Ensure that rural communities’ sensitivity to both market saturation and gaps in service are considered.

STRONG RESPONSE FROM WOMEN OF CHILDBEARING AGE INDICATES NEED:

Not surprising, women overwhelmingly responded to the survey, comprising 85% of all respondents, although men participated as well. Sixty six (66) female students responded constituting 85.7% of all student responses while 11 of their male counterparts also participated.

Female faculty respondents (26) constituted 81% of the total faculty respondents (32), but 5 male faculty also responded. Female staff (17) also responded strongly and made up 81% of staff/admin/other responses.

Thirty four percent (34%) of Hawai‘i CC female faculty (including lecturers) of childbearing years (age 20-49) responded to the survey. Clearly female faculty have an interest in this topic.

An even more detailed look Hawai'i CC OHR data indicates that 0 female faculty between the age of 26-30 years, 47% of those from 31-40 years, and 23% of those age 41-50 participated in this survey.

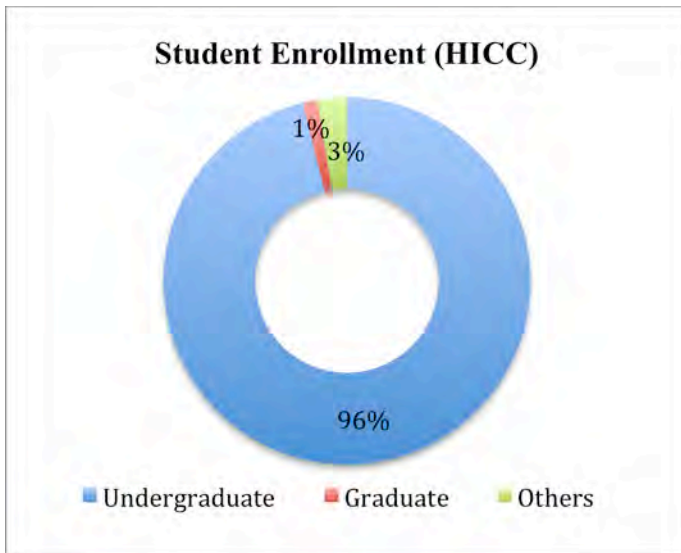

Using the same OHR data, young Hawai'i CC female staff responded even more strongly with 40% of female staff from 26-30 years, 21.7% of those age 31-40, and 18% of those age 41-50 participated in the survey.

The 42% of female faculty respondents at Hawai'i CC who were no longer of childbearing age, most likely responded with a clear understanding of the needs and challenges facing younger female faculty with children or planning families.

STUDENT STATUS: FULL-TIME ENROLLED UNDERGRADUATES

Most of the 77 student respondents were full time enrolled (58%), although a significant portion (42%) were part-time undergraduates.

It is expected that over 90% of employees are fulltime. There is wider variation among students.

Twenty two percent (22%) reported working full-time jobs, 37.7% were employed part-time, and 40% were not employed at all.

EMPLOYMENT STATUS IMPACTS CHILD CARE SUBSIDIES:

Employment status is a factor impacting student academic experience and overall success juggling the multiple commitments of family, school and work.

While limited employment options may impact student employment in Hilo, students who are not employed at all will have more difficulty utilizing state subsidies for child care.

While subsidy programs can assist with childcare payments for classroom hours, a 12-15 hour class schedule results a substantially reduced subsidy from Child Care Connection. The gap between the cost of full-time care and a subsidy for a student only attending classes (vs. also employed on or off- campus) can be hundreds of dollars. An additional complication is that while part-time employment can increase childcare subsidies, juggling part-time employment with full time college enrollment requires flexibility and resources.

CHILD CARE NEEDS: CURRENT AND ANTICIPATED

Child care need is consistently high among students, faculty and staff.

Overwhelmingly Hawai'i CC survey respondents currently live in households with children. (98 = 75%)

Over half (74 = 57%) of all Hawai'i CC survey respondents reported that **they anticipate child care needs to maintain enrollment or employment at UH within the next four years.**

And 40% of Hawai'i CC faculty respondents either currently need child care or anticipate a need within 4 years to maintain employment.

CHILD CARE DEMAND OUTWEIGHS THE RESOURCES AVAILABLE

Survey results indicate a strong need to address the inadequate child care resources and options

available to the university community. With students, faculty and staff returning to work or college after having a baby, the survey respondents indicate a high demand/need for child care for children under 3 yrs.

Improving childcare options to address these needs responds directly and positively towards a number of concerns of the institution: 1) Student retention, 2) Student graduation, 3) Student diversity, 4) Employee productivity, and 4) Employee recruitment and retention.

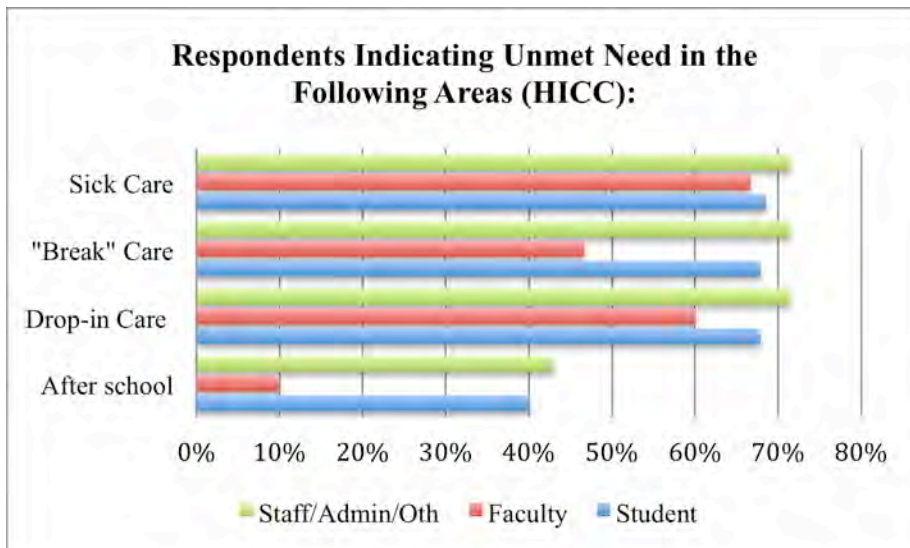

Respondents were asked, “Are your current childcare needs being met in the following areas?”

Infant Care (01-1 year)	Yes	No	n/a
Young toddler care (1-2 years)	Yes	No	n/a
Toddler care (2-3 years)	Yes	No	n/a
Preschool care (4-5 years)	Yes	No	n/a
After school care (6-12 years)	Yes	No	n/a
Emergency (drop-in) care	Yes	No	
Holiday/vacation (“Break”) care	Yes	No	
Sick Care	Yes	No	

In addition to typical on-campus child care, all students, faculty and staff reported need more options to address the whole range of child care including: Sick Care, Break Care (for DOE K-12 breaks), Drop-In (unexpected loss of care, e.g. family member unavailable) as well as After School care.

After School Care is generally addressed with DOE-campus based programs but is not consistent for private school students or those over age 12. Consistent use and need for Sick Care and Drop-In Care are difficult to predict which makes staffing a challenge; while "Break Care" during DOE school breaks is predictable and consistently results in increased visibility of children on campus when parents have no options.

EVERYONE DESIRES CAMPUS-BASED CARE

Respondents were also asked, “How Desirable” was *campus-based care* (for Infant/Toddler, etc). There is a high level of demand for campus-based child care, including infant, toddler, preschool, after-school, “break” and sick child care. Given the convenience of on-campus setting, about 69 % of the respondents consider campus-based infant care as “desirable or very desirable”.

Table 1: Desirability of Child Care by Age of Child - HAWAI‘I CC

Affiliation	How desirable is campus based infant care								Total	Total %
	Very desirable		Desirable		Neutral		Do not care			
	N	%	N	%	N	%	N	%		
Infant Care (0-1 year)										
Student	22	44.9%	11	22.4%	16	32.7%		.0%	49	100.0%

	Do not care	4	8.0	-	-	-	-
	Subtotal	50	100.0	13	100.0	9	100.0

AFFORDABILITY OF CAMPUS BASED CARE:

Questions regarding cost and willingness to pay, were prefaced with a statement indicating Honolulu prices for a type of care, followed with the question: *“How much would you be willing to pay for high-quality, licensed care on campus?”*

High quality, accredited child care is not inexpensive. The amount families are willing to pay for child care is strongly tied to income. Nearly half of student respondents indicated they were willing or able to pay \$500 or less per month for “high-quality, licensed infant care on campus.” Cumulatively, 70% of students would be willing to pay \$749 or less. While students desire and benefit tremendously from on-campus child care, paying for on-campus child care requires subsidies and cost-sharing.

Table 3: Amount Willing to Pay for Child Care - HAWAI‘I CC

Campus-based care:	Amount willing to pay:	Student		Faculty		Staff/Admin/Other	
		N	%	N	%	N	%
Infant Care	\$ 1,500+	-	-	-	-	-	-
	\$ 1,200-1,499	2	4.0	1	7.7	-	-
	\$ 1,000-1,199	4	8.0	4	30.8	1	16.7
	\$ 750-999	6	12.0	-	-	1	16.7
	\$ 500-749	15	30.0	15	46.2	4	66.7
	Less than \$ 500	23	46.0	23	15.4	-	-
	Subtotal		50	100.0	50	100.0	6
Young Toddler care	\$ 1,500+	-	-	-	-	-	-

COST-SHARING & CAMPUS-BASED FINANCIAL ASSISTANCE

Students (84%) particularly indicated a desire for campus based financial assistance, although at Hawai'i CC over 90% of faculty and 89% of staff also indicate that such assistance would be highly desirable.

Options at other colleges and universities may include additional funding through financial aid specifically for child care. Currently UH students must request an increase in their "cost of attendance" which is then most often met with access to increased loans, not any kind of grant.

The survey does not indicate whether respondents are aware of state subsidies for child care based on income. Students and lower waged staff may be eligible, while faculty and others likely exceed income limits, which are 200% of Federal Poverty Level for family size (e.g. \$4283 for Family of 4).

Subsidies are graduated, such that at 150% of FPL, the family co-payment is 50% of maximum reimbursement; and for family of 4, monthly earnings cannot exceed \$3,212.

While students may use the state subsidy program, it is designed to meet the needs of part or full-time employees. An outreach campaign could increase student use of subsidies but 12-15 hours of class generates only a small subsidy. Student parents with 12 credits would need another 12 hours of on-campus employment to maximize child care subsidies through Child Care Connection. And 2-parent households are at an even greater disadvantage. (See Sample payment schedule in Appendix).

INCREASING CARE OPTIONS AND HOURS OF OPERATION

With long commutes and evening class hours, more students and staff would prefer earlier opening and later closing hours. Faculty have more flexibility and control over their work schedule.

Long commutes to pick up children at another facility also means students, faculty and staff must leave campus earlier, which reduces campus engagement and presence. A total lack of evening care for working adults enrolled in evening programs effectively limits programs to students with family caregivers available.

I feel that availability of childcare is important for students in particular to support their ability to continue with their education. Extending hours later into the afternoon and having more child care spaces available could support more students and faculty. The site also serves as an important training/laboratory site for education students. . .
(Female Faculty, Hawai'i CC)

Daycare is essential for the students at Hawai'i CC. It would be nice to have a day care center with longer hours. I would definitely use the campus day care center if the center were open during working hours. I believe Hawai'i CC closes at 3:00. I work until 4:30. Hawai'i CC has many non-traditional students. It would be helpful if the center was open from 6am to 6pm.
(Female Faculty, Hawai'i CC)

Table 4: Preferred pick up time by UH affiliation - HAWAI'I CC

MOST IMPORTANT FACTORS FOR SELECTING CHILD

After “quality of care” which all parents prioritize, cost and hours of operation round out the top three factors for selecting child care.

There was significant variation within the groups. Reflecting income constraints, cost and hours of operation were more vital issues for students and staff, than for faculty.

Table 5: Top Four Factors Considered in Selection of Child Care for HAWAI'I CC

Factors	Student		Faculty		Staff/Admin/Oth	
	Count	Column %	Count	Column %	Count	Column %
Quality of care	42	82.4%	10	76.9%	6	60.0%
Cost	35	68.6%	7	53.8%	6	60.0%
Hours of operation	18	35.3%	5	38.5%	6	60.0%
Strength of educational program	16	31.4%	2	15.4%	5	50.0%

IMPORTANCE OF CAMPUS-BASED CHILD CARE

On campus child care addresses a number of educational goals for the institutions hosting them. All on-campus child care centers provide educational opportunities for a range of students and researchers including but not limited to, practicum sites for early childhood education programs, on-site research labs for psychology, education programs, health programs.

Many current campus centers originated as a hands-on practicum site for early childhood education programs. The number of hours students have available as practicum students, the teacher/college student ratio and the adult/child ratios can limit the operating hours of child care centers primarily operating as teaching or practicum sites.

Some on-campus child care centers are intended to provide child care specifically for students' educational support, retention and graduation; Some on-campus centers are more likely to provide child care as a recruitment and retention tool for employees.

All UH campus-based centers are governed UH Executive Policy E10.401, which address issues of prioritizing student/employee use; meet State of Hawaii licensing requirements and strive for NAEYC accreditation.

Certainly the campus community values the multiple roles that on-campus child care centers play. Survey respondents were asked, "How important is the availability of on-campus childcare with respect to the following areas:"

- To you, personally;
- To provide practicum and research experiences for UH Education / Early Childhood Ed. Students;
- To help with the recruitment and retention of UH faculty and staff;
- To enable completion of degree requirements for Undergraduate and Graduate Students.

Responses are predictably self-interested, with faculty finding "recruitment of faculty" as extremely important, while students consider the role of child care as a support service "for degree completion" to be extremely important.

Hawai'i CC has an on site childcare center for children 18 months to 5 years of age for students, faculty and staff of Hawai'i CC and UH Hilo. I feel that availability of childcare is important for students in particular to support their ability to continue with their education. Extending hours later into the afternoon and having more child care spaces available could support more students and faculty. The site also serves as an important training/laboratory site for education students in addition as a site for students to complete observation and other course assignments.

(Female Faculty, Hawai'i CC)

On the Big Island with such large distances to travel to campus having affordable and dependable on-campus daycare would make enrollment for mothers AND fathers who are considering college for the first time seem more possible. (Female Faculty, Hawai'i CC)

On campus child care needs may serve to benefit early childhood students by giving them first-hand experience as well as benefit students who if not for on campus child care services would not be able to continue with their education. (Male Faculty, Hawai'i CC)

Table 6: Importance ranking of factors regarding campus-based child care

Affiliation	Extremely Important		Important		Undecided		Not so important		Not important at all		Total N
	N	%	N	%	N	%	N	%	N	%

NEGATIVE IMPACT OF LACK OF CHILD CARE

Respondents were asked, “Has a lack of child care services affected your work performance or academic success on campus?” Students, faculty and staff with children in their household overwhelmingly responded, YES.

Over half (53.9%) of Hawai‘i CC respondents, students and faculty with children in their households, reported that a lack of child care affected their work and academic performance. Sixty percent (60%) of such faculty reported such an impact.

*Child care services can add considerably to student success providing peace of mind and fewer distractions for the care giver not always the parent! I have had 35+ years teaching experience at UH on multiple campuses and am acutely aware of the child care needs especially for single parents and care givers. As a newly hired Leeward College faculty member in 1970 and as a single parent with a toddler having campus services would have saved me time money and worry!
(Female Faculty, Hawai‘i CC)*

Many of our students need childcare. Our childcare center has only a limited number of children it can accommodate. Need often is for drop off service say when the sitter is sick or unexpectedly unavailable. (Female Faculty, Hawai‘i CC)

CONCLUSION

Most campuses would like to consider themselves "family friendly," however, a lack of affordable, consistent and convenient child care for students or employees with children is a barrier to creating a family-friendly campus community that is supportive for all students and employees.

Expanding child care facilities on the Hawai'i CC campus will benefit both parents and Hawai'i CC. For both women and men, the desire to balance work and family demands has become increasingly important. As many female faculty can attest, the biological and tenure clocks run concurrently. Most administrators are aware that the availability of on-campus services of all types offers more than convenience – it can contribute significantly to a family-friendly campus climate, facilitating recruitment of faculty and staff, increasing employee satisfaction and productivity, and reducing absenteeism and employee turnover. Furthermore, employed student parents have a "balancing act" that includes family, work and class, making convenient, on or near-campus child care essential.

Further developing on-campus or near-campus partnerships could offer conveniently located, high quality, educational child care contributing to Hawai'i CC's success in recruiting and retaining faculty as well as retaining and graduating students with children. Hawai'i CC is positioned to respond as a community leader.

The University of Hawai'i joins other employers, and other Universities³ in this quest to provide affordable, quality, convenient child care for students and employees. Others have examined and implemented a variety of options, including: parent co-ops, general referral services, subsidized referrals for "sick" and "break" care, partnerships with approved off-campus providers. Implementing options appropriate for Hawai'i CC requires commitment and work with invested stakeholders, including those with the authority to commit resources and implement new ideas.

I think we would be able to service our students with childcare options. Children are not allowed in the Library or the Learning Center. Many classes require that students spend a certain amount of time in these places outside of class time. I believe a drop off facility for students who need to use the library or Learning Center would be invaluable.
(Female Faculty, Hawai'i CC)

More detailed and comprehensive data was compiled than could be shared in these reports. Follow up inquiries can be addressed to Teresa Bill at the UH Mānoa Women's Center, gotkids@hawaii.edu or 956-8059.

³ Fifty seven percent (57%) of public four-year institutions offer on-campus child care, and 49% of community colleges also offer on-campus child care.

S#	Query	Information
1.	Name of the campus child care center:	Hawai'i Community College Children's Center (Early Childhood Education)
2.	Location, Contact person, email, phone, website (?):	200 West Kawili St Hilo, Hawaii 96720 Phone (808) 933-0569 Fax (808) 933-0839 Judy Puniwai: Coordinator/ Teacher Email: jpuniwai@hawaii.edu http://hawaii.hawaii.edu/ece/Children%27s%20Center.htm
3.	Days and hours of operation:	Monday through Friday 7:30am– 2:00pm (Toddler classroom) 7:30am –3:00pm (Pre school) (Follows the UH academic school calendar)
4	Options for Part-Time?	
5	Cost of application:	\$30.00 application fee (After the initial processing of the application)
6	Cost of deposit:	
7	Tuition costs: By Semester? Summer? Installments?	Tuition: \$2,120.00 per semester or 4 payments of \$530.00
8	Late payment charges:	
9	Late pick-up fee:	
10	Age of children:	18 months and 5 years of age
11	Number of slots available for each age group	
12	Typically, are all slots full?	
13	Meals?	Breakfast, lunch and snacks are included in fee.
14	Other Services:	Children with special needs!
15	Who qualifies to use the facility (if students get priority, is there a ratio?)	Application for childcare is available to parents currently registered or have received acceptance into Hawai'i Community College or University of Hawai'i at Hilo. Children of faculty and staff from both campuses are also welcomed. Priority for enrollment will be given to: 1. Returning families 2. Parents who are full-time students 3. Parents who are part-time students 4. Faculty and staff
16	When can parents apply?	Monday following Thanksgiving and Monday following Spring Break
17	What is the number of slots that "turn-over"? (part-time and full-time)	

How many children and families are there? ¹	Hawaii	United States
Total residents	1,347,518	306,738,433
Children age birth to 4 years	87,446	20,204,382
Children age birth to 4 years living in poverty	12,104	4,650,721

UNIVERSITY OF HAWAII

EXECUTIVE POLICY – POLICIES GOVERNING CHILD CARE PROGRAMS AND
THE USE OF SUCH FACILITIES
JULY 2011

E10.401
Page 1 of 3

I. Introduction

This Executive Policy embodies former Board of Regents Policy relating to the policy to govern the child care programs and the use of such facilities. With the Board of Regents delegation of authority to the President relating to policy to govern the child care programs and the use of such facilities, the intent of this Executive Policy is twofold. First, this Executive Policy maintains the policy-based administrative infrastructure created by Board policy relating to the policy to the child care programs and the use of such facilities. Second, this policy serves to transition the administration of the administrative infrastructure from Board policy to Executive Policy promulgated by the President.

II. Purpose

The purpose of this executive policy is to provide the policy to govern the child care programs and the use of such.

III. Responsibilities

The President is delegated the authority to promulgate practices and procedures governing child care programs and the use of such facilities.

UNIVERSITY OF HAWAII

Section 10-4 Child Care Programs. The President is authorized to promulgate practices and procedures governing child care programs and use of such facilities.

- a. Child care programs may be established at the various campuses of the University of Hawai'i provided a need for such facilities is demonstrated.
- b. University facilities may be used for child care programs provided they do not displace teaching and research activities.
- c. Guidelines for operating such programs shall be developed by the administration and submitted to the Board for approval.
(Jan. 16, 1975; Mar. 20, 1986) See approved guidelines at the end of this chapter.

UNIVERSITY OF HAWAI'I
GUIDELINES FOR CAMPUS CHILDCARE SERVICES
Approved by the Board of Regents on 4/24/87

I. Licensing and Standards

Each University of Hawai'i Childcare Center (UHCC) shall be licensed by the appropriate State authority and shall comply with the Rules and Regulations governing Group Day Care Centers as administered by the State Department of Social Services and Housing as well as any other applicable local State and federal laws, rules, and regulations. Additionally, each center should strive to meet standards of excellence established by the National Association for the Education of Young Children's credentialing arm, the National Academy of Early Childhood Programs. Each childcare center should seek accreditation by the National Academy of Early Childhood Programs within two years of opening.

II. The Advisory Committee

Each UHCC shall have an advisory committee to review research and training proposals, to advise the administering body of the childcare center, and to help evaluate the program. The advisory committee shall include: a representative of the student government, a member of the faculty government, and a member of the local early childhood education professional community. A designee of the campus administration shall serve as chairperson of the board and shall have responsibility for communication between the campus administration and the administration of the childcare center. This designee shall also serve as the interface between University training and research projects and the center administration.

UNIVERSITY OF HAWAII

III. Service to Students

All UHCCs are established primarily to meet the needs of UH-enrolled students for childcare. At least 75% of childcare space should be allocated to students; any remaining space will be made available to faculty and staff first, and then to the general public.

IV. Programs

Programs shall be in accord with the high standards for programs outlined by the National Association for the Education of Young Children's credentialing arm, the National Academy of Early Childhood Programs. Additionally, specific requirements are outlined in the following description of curriculum.

V. Curriculum

Play is such a significant mode of learning that it is considered the real work of children. It is the most important way children have for clarifying and integrating all their experiences and it should form the base of a curriculum.

Young children learn through direct experiences, which should be the primary teaching mode. They learn little of value when facts are separated from their real life. Learning experiences for young children will be multi-faceted and develop more than one skill or concept.

The working premise for each UHCC is that the better young children know, appreciate, and understand their physical and social environment and themselves, the better they will be able to respect and care for themselves, the world, and others. Therefore the base of the curriculum should revolve around some very broad learning goals that are relevant to your children. Under these goals specific teaching objectives will fall.

Each center must have a detailed curriculum which shall include the following elements:

- A. Physical Development Curriculum
- B. Creative Arts Curriculum
- C. Language and Literacy Curriculum
- D. The Inquiry Curriculum

UNIVERSITY

Summary of
Employee Benefits
for
Faculty and Staff
of the
University of Hawai'i

September 2012

DISCLAIMER

IMPORTANT DISCLAIMER: *This booklet has been prepared for your convenience and contains a general and brief summary of some of the benefits for which you may be eligible. As a general reference guide, this booklet does not contain all details concerning eligibility and/or benefit conditions. Benefits vary by type of employment, appointment and collective bargaining agreement, and are subject to change. For further information, please contact your campus, school or program human resources representative or refer to the applicable rules, laws, collective bargaining agreements, policies and procedures, or benefit plan documents.*

*Please note this booklet is **not** a legal document, binding agreement or contract. It does not supersede laws, rules, collective bargaining agreements, policies and procedures, or benefit plan documents pertaining to the various subject matters covered. Nothing in this document is intended to be a promise of employment or an unconditional right to receive all of the benefits described. This booklet supersedes, replaces and cancels all prior versions of the Summary of Employee Benefits for Faculty and Staff of the University of Hawai'i.*

Tuition Waivers

Faculty and staff may be eligible for tuition waivers for credit courses, in accordance with Board of Regents Policy, Chapter 6, Section 6-13. Employees must be employed on a half-time basis or more to be eligible for tuition waivers at any campus for a maximum of six credits per semester. A spouse, civil union partner, or domestic partner of a bargaining unit 07, 08, 78, 87 and 88 member may also be eligible for tuition waivers. The value of the tuition waiver may be taxable to the employee. Those seeking tuition waivers shall register after the normal student registration period. Employees must secure the authorization of their respective supervisors for any adjustments to work schedules. See your respective human resources representative for your campus, school, or program's procedures. Additional information is available at www.hawaii.edu/ohr/docs/forms/waiver.htm.

Child Care Centers

Child Care centers are available at the following campuses: Mānoa, Honolulu Community College, Kapi'olani Community College, Leeward Community College, Hawai'i Community College, Kaua'i Community College and Maui College. The centers provide quality day-care for children of faculty, staff and students of the University. Eligibility and cost varies by program.

UH Faculty and Staff Identification Card

All faculty and staff are eligible to apply for identification cards. The identification card entitles employees to library services, discounts on selected items at the University Bookstores, movie tickets at the Mānoa Campus Center, Warrior football season tickets, tickets for show/special events at the various campus theaters. The card may also be used as debit card at UH dining services locations.

University of Hawai'i Federal Credit Union

Faculty, staff, and students of the University, their spouses and household members, are eligible to become members of the University of Hawai'i Federal Credit Union. Members may enjoy free traveler's checks and special interest rates on savings, loans, draft (checking) and charge accounts. For further assistance, call the UH Federal Credit Union at 983-5500, option 0, toll-free at 800-927-3397 or visit www.uhfcu.com.

UH Child Care Needs Assessment Survey

The University of Hawai‘i President’s Office and the UH Commission on the Status of Women are conducting this online “needs assessment” survey to determine the current and future needs of students, faculty and staff for childcare.

Please identify your primary campus:

- Manoa
- Hilo
- West Oahu
- Hawaii CC
- Honolulu CC
- Kapiolani CC
- Kauai CC
- Leeward CC
- Maui CC
- Windward CC
- Outreach College
- Univ. of Hawai‘i Education Center

Please indicate if you are:

- Student Go to Q #3
- Faculty
- Staff
- Administrator
- Other

Students: What is your current enrollment status?

- Full-time
- Part-time

Students: Are you:

- Undergraduate
- Graduate Student
- Unclassified (Non-degree Seeking)
- Other

What is your current employment status?

- Full-time
- Part-time
- Not employed

Your gender:

- male
- female
- transgender

Your age:

- under 20
- 20-25
- 26-30
- 31-40
- 41-50
- 51-60
- 60+

Does your household include children?

- Yes
- No (Go to Anticipate Q #21)

Please indicate if your household includes children in any of these age categories. (check all that apply).

- Newborn – 12 months
- 12 - 24 months
- 2 – 4 yrs
- 4 – 5 yrs
- 6 – 12 yrs
- 12 - 18 yrs

Question HEADER: Are your current childcare needs being met in the following areas?

Infant Care (01-1 year)	Yes	No	n/a
Young toddler care (1-2 years)	Yes	No	n/a
Toddler care (2-3 years)	Yes	No	n/a
Preschool care (4-5 years)	Yes	No	n/a
After school care (6-12 years)	Yes	No	n/a
Emergency (drop-in) care	Yes	No	
Holiday/vacation (“Break”) care	Yes	No	
Sick child care		Yes	No

Do you have children with special needs living with you?

- Yes
- No

Do you currently utilize the services of a children’s center on your campus?

- Yes (go to campus Q 20)
- No (Go to Q 21)

If yes, please indicate campus:

- Manoa
- Hilo
- West Oahu
- Hawaii CC
- Honolulu CC
- Kapiolani CC

Kauai CC
Leeward CC
Maui CC
Windward CC

Do you anticipate needing childcare to maintain enrollment or employment at UH within the next 4 years?

YES

NO (go to Importance Q 58)

Question HEADER: Which of the following do you anticipate needing in the next 4 years to maintain enrollment or employment at UH?

Infant care (0-1 years)	Yes	No
Young toddler care (1-2 years)	Yes	No
Toddler care (2-3 years)	Yes	No
Preschool care (4-5 years)	Yes	No
After school care (6-12 years)	Yes	No
Emergency (drop-in) care	Yes	No
Holiday/vacation (“Break”) care	Yes	No
Sick child care	Yes	No

How desirable is campus-based Infant child care (0 - 1 years)

Very Desirable (go to Q31)

Desireable

Neutral

Don’t Care (go to Q 32)

How much would you be willing to pay for high-quality, licensed Infant care on campus?

1,500+ per month

1,200 - 1499

1,000 - 999

500- 749

less than \$500 per month

How desirable is campus-based Young Toddler care (0 - 1 years)

Very Desirable (go to Q33)

Desireable

Neutral

Don’t Care (go to Q 34)

Childcare centers in the Honolulu area charge between \$1200-\$1600 a month for Young Toddler care. How much would you be willing to pay for high-quality, licensed Young Toddler care on campus?

- \$1,500+ per month
- \$1,200 -1,499
- \$ 1,000 - 1,199
- \$ 750 – 999
- \$ 500 – 749
- Less than \$500 per month

How Desirable is Toddler Care (2-3 years)

- Very Desirable (go to Q)
- Desireable
- Neutral
- Don't Care (go to Q)

Infant care (0-1 years)		5		4	3	2	1
Young toddler care (1-2 years)	5		4	3	2	1	
Toddler care (2-3 years)	5		4	3	2	1	
Preschool care (4-5 years)	5		4	3	2	1	
After school care (6-12 years)		5		4	3	2	1
Emergency (drop-in) care	5		4	3	2	1	
Holiday/vacation (“Break”) care	5		4	3	2	1	
Sick child care		5		4	3	2	1
Financial assistance for care		5		4	3	2	1

Question HEADER: Childcare centers in the Honolulu area charge about \$300-400 per week for infant and young toddler care. How much would you be willing to pay for high-quality, licensed infant/toddler care on campus?

- () \$1,500+ per month
- () \$ 1200 -1499
- () \$ 1000 - 1199
- () \$ 750 – 999
- () \$ 500 – 749
- () Less than \$500 per month

Question HEADER: Childcare centers in the Honolulu area charge about \$1,000 per month for toddler care and preschool. How much would you be willing to pay for high-quality, licensed toddler care or preschool on campus?

- () \$ 1,200 + per month
- () \$ 1000 - 1199
- () \$ 750 – 999
- () \$ 500 – 749
- () \$ 300 - 499

Stanford Family Priority Access

Are you interested in placing your child in a high quality childcare program? Have you had difficulty finding space for your child and are on a waiting list? As an employee you will have **priority access** to other CCLC centers spaces that are open to the community, these are located in Atherton, Burlingame, Stanford, Los Altos, Palo Alto, Redwood Shores and Sunnyvale. Stanford employees have the ability to enroll in the program before community families.

CCLC operates accredited NAEYC (National Association for the Education of Young Children) programs throughout the Peninsula, South Bay and East Bay. Our centers offer low teacher-to-child ratios and high-quality environments to meet your child's needs.

Please visit the links on the left to learn more about what Stanford and CCLC will offer employees. After reading the following information, if you have any questions e-mail us at stanford@cclc.com or contact Cindy O'Mara at (888) 552-2288.

Find a Center

CCLC provides high-quality early childhood education and child care programs to families across the country. To locate a child development center, start by selecting a state below.

Select a state:

*****Please note that this chart is just an estimate. Many factors determine eligibility*****

Estimated DHS assistance is based on 96 hours/ month of work activity.

For two-parent households DHS counts only overlapping hours of work activity of both parents (e.g. both working 9-4, M-F).

If tuition **exceeds the maximum reimburseable rate**, enter the maximum reimburseable rate (from below) in the orange box **NOT** the tuition amount.... Then remember to add the difference to estimate your total payment.

***MAX REIMBURSEMENT RATES:**

Center-Based (CB) Infant Toddler	\$1,395
Accredited NAEYC/NECPA CB	\$710
Licensed CB or Group Child Care Home	\$675
Licensed Family Child Care (FCC) Infant Toddler	\$650
Licensed FCC Home	\$600
License-Exempt Infant Toddler	\$400
Licensed-Exempt ...	\$350
Licensed Before / After School	\$155
Licensed-Exempt Before/ After School	\$60

Column A is Corresponding Fed Poverty Level (FPL %)
