031116 CCSSAO Meeting Minutes

1. Will preferred name roll to Starfish?

2. Banner Matters-Hae
      PINs-looking for consistent use of PINs (didn't capture what happened here)

      PINs will only appear at end of registration process; will only appear for those who
      need PINs. Do not want to use for hold. For SP17 registraion will have consistent use
      of Alt Pins

      Student Record Update Form at the point of registration
               Are you a veteran (once you say yes this doesn't pop up again)
               Current Address (can update or say yes this is good)
               Is term based process
               Hae is asking if we can do it twice per year instead.
               All agreed this makes sense

      Disclaimer will still pop up every transaction-this says student is responsible for T&F

      Purge discussion-will reconvene

Risa Dickson update:

1. Search for AVPSA is back underway, in the meantime we have an interim AVPSA,
    Farrah Gomes (she is in Hilo but will come to Oahu 4x/month) Need an EM to move
    things forward.
2. Student Caucus-Rus will attend and then they will decide

3. ACT 222 Michelle Rocca, Jonathan Dial
      Task force to review and make recs for T9 and VAWA
      Trying to spread info to Students, Staff, Faculty; have websites but how to ensure that
      students see this info. Proposing a hold within the registration process.
               Knowing rights under T9 and VAWA
               Conduct Code
      Increase visibility
      Could we put this into the student record update form? Good for cont. Students.
      Needs for new v. continuing students
      Can we do this in a phased roll out? Entering students first, then refresher, etc.
      Could give extended time frame for students to complete training

4. Susan Lee Integrated Communications-shared ppt with chancellors
      Met w/registrars to get feedback on drafts
      This is to supplement current admissions

Suggestions to have next steps page on 2nd email
Want to have email to instruct students who have multiple apps
Can input whatever email we want on the reply function
Working with registrars to be able to roll over apps
Include links to T9 info and other issues like this
Triggers
Brenda will touch base to see where preferred name will appear
Will eliminate the Holds email

5. Blackboard presentation

6. Karen & Dan SBAC for admissions
    DOE asking us to consider SBAC for 4 year admissions

7. Online application-common app
    Should we participate?
    Cost $4 per app plus staff impact
    Manoa says not worth it, UHWO says same, Hilo will check

8. STAR issues
    Manono site/bldg getting confusion for HawCC and KapCC

9. Update on system sanctions-email Lori

10. Stipends for student govt-was supposed to have a committee...fed regs were reviewed by Gregg Yashimoto, FA folks said only way was to have processed as FA or employment. Send questions ahead of time. Perhaps have Ken Lum weigh in as well. AP 8.561 part C.

11. Student govt/student caucus/student fee-Using student caucus as mechanism to air campus grievances. Usually this is the first time campus heard this. With student gov't advisors would it be a good idea to have student gov't advisors together.

Jason suggested to change to matriculation fee as calling it student fees, the students feel like it is their money. Then disburse budget to student life.

BOR 7.204 (student caucus??)

12. Reg priority for UHCC transfers to UH 4 years
    Students want their CC credits to count on time ticketing for registration
    Hilo-not an issue...can begin on Saturday of early registration
    UHWO-asked for Hilo's policy
    UHM-not here
13. Title III-Jason heard for part F, you can have many grants at the same time. Change in absolute priority/highest risk; greatest risk, 14-25 years old. Now only ½ M$ per year. Jason

wants to encourage system grant. Common opportunities. You can have one A, multiple Fs. This round only. Filipino students OK for ANNAPISI.

14. Give Amy feedback on System Record Retention email that is en route.

15. Registrar's Update

Integrated communications
Holds-want to standardize NSO and Advising; change in hold description language
Residency determination-change in application to determine residency. If cannot determine residency, will be given a zero code/non-residency; students will see impact. Roll-over for stop outs; new students who apply but don't enroll for that one semester; Registrars will roll over the app based on phone call. This will be good for 4 terms (including summer), for new students. For new students might need to do TB. Suggestions to use future term app for late application and just change term.

Application changes are live

Early admission-remove SPEA as major;
EA admit type
M student type (special code)
Can declare a major so they can do star reg/and track interest
EA will be excluded when financial is pulled
Looking at Spring 2017
