

UNIVERSITY
of HAWAI'I®
SYSTEM

University of Hawai'i Learning Centers

3 University Centers + 5 Education Centers = 8 Learning Centers
PELP 201 Learning Centers Project
Kelley Dudoit, Stephanie Kraft-Terry, Gloria Niles

Observations

- **Education Centers** connect students in their local community to the UHCC in their county, yet they are often times the "one-stop-shop" connecting their community to UH.
- **University Centers** act as "brokers" supporting students from their local community who are pursuing education at UH universities.
- **Learning Centers** is a new term that refers to ECs and UCs collectively.

Recommendations

- Create opportunities for formal convening of the 8 learning centers on a regular basis.
- Increase community building and dialogue amongst the centers and their respective administrators.
- Reimagine **Learning Centers** to function as a student-centric "concierge" model or "welcome center" for the UH system within their communities.
- Enhance awareness of Learning Centers and their functions across the system
