A9.700 ERS SERVICE CREDIT FOR PREVIOUS MILITARY SERVICE

1. Purpose

To provide uniform procedures for eligible employees to acquire military service credit for the State Employees’ Retirement System (ERS) in accordance with provisions of Section 88-132.5, Hawai‘i Revised Statutes (H.R.S.).

2. Definitions

403(b) Tax Deferred Annuity program (TDA) and 403(b) Tax Shelter Annuity (TSA) are voluntary retirement savings plans under section 403 of the Internal Revenue Code (IRC).

457 Deferred Compensation plan is a voluntary retirement savings plan under section 457 of the Internal Revenue Code (IRC).

3. Objective

To establish procedures for eligible employees to acquire military service credit for the ERS.

4. Applicability

a. This instruction applies to all ERS eligible employees of the University of Hawai‘i.

b. Any employee who rendered honorable active military service in the armed forces of the United States can acquire up to 4 years of membership service for the military service as follows:

- A member with 8 years of credited service with the ERS can acquire up to 2 years of military service if hired before June 18, 1996.

- A member with 10 years of credited service with the ERS can acquire up to 2 years of military service if hired after June 17, 1996.
• A member with 20 years of credited service with the ERS can acquire up to 3 years of military service.

• A member with 25 years of credited service with the ERS can acquire up to 4 years of military service.

c. Military service in the reserve or National Guard is not considered active military service unless the service occurred in time of war or declared a national or State emergency. Reservists and members in the National Guard are able to acquire military service for training during the times of war or declared national emergencies under the call of the President of the United States or the Governor of the State.

d. An employee’s active military service is considered service in the employee’s occupation and percentage of full time equivalence (FTE) at the time the service is credited and provides a corresponding retirement benefit.

e. Any retiree from the State, who returns to service and reenrolls as a member of the ERS, can acquire military service credit as specified above. The employee must have at least 3 years of credited service in the ERS during the reemployment period to acquire military service credit. The retiree’s total credited service shall serve as the basis for determining the amount of military service that can be acquired.

f. If an employee was eligible to acquire military service when enrolled in the Noncontributory Plan, the military service will be credited as Noncontributory service at no cost.

g. If an employee was eligible to acquire military service when enrolled in the Contributory Plan, each month of military service must be purchased based on the contribution rate of 7.8% of the employee’s current monthly salary, unless the service occurred prior to July 1, 1961, in which case, the contribution rate would be 6.0%.

h. If an employee was eligible to acquire military service after joining the Hybrid Plan, each month of military service must be purchased based on the contribution rate of 6.0% of the employee’s current monthly salary.

i. The payment of contributions to ERS is required within 60 days of notice.
5. Responsibilities

Employees are responsible for submitting the appropriate forms to ERS.
