1. **General**

This administrative procedure provides guidelines and instructions for the use of non-University space and facilities. It is the policy of the University of Hawaii to use existing University, State, or other public facilities to the maximum extent practicable. However, when such facilities are either unavailable or otherwise insufficient to meet the operational requirements of University programs, privately-owned space and facilities may be rented or leased provided the need is clearly justified.

2. **Types of Use**

   a. The following types of non-University space and facilities may be utilized to meet operational requirements:

      1) Training facilities;
      2) Auditoriums, camps, and classroom space;
      3) Athletic and recreational facilities;
      4) Office and warehouse space; and
      5) Other facilities necessary to administer the educational, research and community service responsibilities of the University.

   b. The rental of hotel space and services or booth space at conventions and trade shows shall be administered pursuant to the procedures for the procurement of goods and services in accordance with APM A8.200.
c. The rental of non-University facilities may be considered when:

1) Program needs cannot be satisfactorily met by University facilities;

2) Terms are on a favorable basis to the University with due consideration given to cost, maintenance and operational efficiency;

3) Rental charges, maintenance fees, and other costs are consistent with prevailing rates in the community for comparable facilities; and

4) Competition has been obtained to the maximum extent practicable among suitable available locations meeting minimum University requirements.

d. A short-term use agreement may be entered into when the duration of use of the non-University space or facility is for ninety (90) days or less and the total payment for such use is $5,000 or less.

Such use of non-University space or facilities may be accomplished by execution of a short-term use agreement and issuance of a purchase order.

e. A lease or other form of rental agreement shall be prepared when the duration of use of the non-University space or facilities will exceed ninety (90) days or involve University payments exceeding $5,000.
