collective bargaining agreement. Any additional benefits and/or allowances beyond those specified in this policy or granted by statutes and/or collective bargaining shall require the prior approval of the Board.

a. Health, Retirement and Other Benefits.

- (1) For the purpose of these policies, lecturers who teach six semester hours or less on Mānoa, Hilo and West O'ahu campuses and have no other faculty duties are considered to be less than half-time employees. A teaching load of six semester hours with other assigned faculty duties; or, a teaching load of seven semester hours or more is considered to be at least half-time equivalent. Community College lecturers who teach seven or less credit hours and have no administrative duties are considered to be less than half-time. A teaching load of eight semester hours or more is considered to be at least half-time.
- (2) Graduate assistants are excluded from membership in the State Retirement System and from Social Security coverage.
- (3) Payment for the cost of "fringe benefits" is traditionally shared by the employee and the employer. For employees on extramural funds, the University's share of the cost of "fringe benefits" is a direct cost; that is, it cannot be taken from the indirect costs category of a grant or contract.
- (4) Principal investigators, in preparing proposals for research grants and contracts that involve employees, must make realistic provisions for the inclusion of the University's contribution to fringe benefits in the direct costs of their proposals. Investigators must appreciate that for retirement and social security benefits, the University's contribution is mandatory, and furthermore that the University has no funds for such purpose except those included in the direct costs category of grants and contracts. Responsibility for the availability of the University's contribution rests with the principal investigator; if the grant or contract does not include fund earmarked for this purpose, the principal investigator will be required to transfer funds from another category of the grant or contract to cover these costs.
- (5) When the investigator preparing a proposal for a grant or contract is not clear about the regulations here stated, the investigator should discuss the specific case with the Director of Research Services (if a research grant/contract) or the appropriate dean (if a training grant/contract). Budgets of proposals should always be reviewed by the appropriate administrator while still in draft form.

b. Tax Deferred Annuity Program.

- (1) The University of Hawai'i's Tax Deferred Annuity Program is established for the benefit of eligible employees who elect to purchase 403(b) annuity contracts and/or establish 403(b)(7) custodial accounts.
- (2) Participation in the University's Tax Deferred Annuity Program shall be in accordance with the requirements of the Federal Internal Revenue Code and Hawai'i Revised Statutes and the University's plan document.
- (3) The President or designee shall be authorized and responsible to amend or update the program; ensure compliance with applicable regulatory and statutory provisions; for establishing procedures to administer the Tax Deferred Annuity Program, and authorize service providers from which employees may purchase 403(b) annuity contracts and/or establish 403(b)(7) custodial accounts.

c. Emeritus/Emerita Title.

- (1) The emeritus/emmerita title is an honor bestowed by the Board upon retiring or retired faculty members in recognition of dedicated and honorable service rendered to the University and to vice presidents and chancellors who have made exceptional contributions to the University and provided long and distinguished service, and who are recognized as distinguished leaders in their profession.
- (2) The emeritus/emmerita title is conferred, upon recommendation of the President, to those persons retiring from the University with the rank of full professor or its equivalent, or service in the position of vice president or chancellor for five or more years to the University at that rank or position.
- (3) Individuals holding equivalent or higher positions, who report to the Board may be considered by the Board for the emeritus/emmerita title using the above criteria.
- (4) An individual may be awarded only one emeritus/emmerita title from the University.

d. Exemptions from tuition and other fees. (see Section 6-4e)

Section 9-12 Executive and Managerial Personnel Policies.

The Executive and Managerial Personnel Policies shall govern the executive and managerial personnel system for individuals appointed to executive and managerial positions which are excluded from an appropriate bargaining unit. These policies, including the classification and compensation plan, the recruitment and appointment of personnel, the conditions of service and other provisions, are contained at the end of this chapter.

EXECUTIVE AND MANAGERIAL PERSONNEL POLICIES

PART I

INTRODUCTION

- A. Purpose/Applicability. The purpose of these policies is to specify the conditions of service applicable to individuals appointed by the Board of Regents ("Board") to executive and managerial positions which are excluded from an appropriate bargaining unit as specified in Section 89-6, Hawai'i Revised Statutes, due to top-level executive, managerial, and administrative responsibilities.
- B. Authority. These policies are established pursuant to the authority granted to the Board by Article X, Section 6 of the Constitution of the State of Hawai'i, and by Sections 76-16(11), 304-11, and 304-13, Hawai'i Revised Statutes (as amended from time to time).
- C. Definition. Executive and Managerial personnel shall include the following:
1. Executive: Those personnel with system wide, campus wide or major campus program responsibility who generally report directly to the President or Board of Regents, that is, Executive Administrator and Secretary of the Board, Vice Presidents, Chancellors, Vice Chancellors, Deans (University), the Directors of the Institute for Astronomy and Cancer Research Center, and the Internal Auditor. Consequently, by virtue of reporting lines, policy and statute, the President is not defined as an executive employee, but in a singular category with appointment and terms and conditions of employment subject to the discretion of the Board.
 2. Managerial: Those who are the heads of major organizational segments of the University or represent the President in their area of cognizance in dealing with the executive and legislative branches of government, e.g., Associate Vice Presidents, Deans at the Community Colleges, Associate Deans (University and Community Colleges), Assistant Deans (University and Community Colleges), and Directors and Associate/Assistant Directors of academic and administrative units, and Executive Assistants.
- D. Review. These policies, including the appropriateness of utilizing the College and University Professional Association for Human Resources (CUPA-HR) salary survey and salaries derived therefrom, shall be reviewed at least once every two years by a committee of executive and managerial personnel appointed by the President. Appropriate recommendations shall be transmitted to the President for review and forwarding to the Board for its approval.
- E. Implementation. These policies supersede all prior policies and practices which may conflict with any provision contained herein. The President shall be responsible for the implementation and compliance of these policies by all personnel of the

University. Exceptions to the Board policies contained herein may be made only upon approval of the Board.

PART II

RECRUITMENT AND APPOINTMENT OF EXECUTIVE AND MANAGERIAL PERSONNEL

A. General. Recruitment of and appointments to executive and managerial positions shall be made in accordance with the following policies.

B. Recruitment/Selection of Candidates.

1. Executive and managerial vacancies shall be advertised in locations which are considered appropriate sources of recruitment and shall be in compliance with applicable equal employment opportunity/affirmative action requirements. Executive positions which directly supervise or have responsibility over instruction or research programs shall normally require a terminal degree in the field of involvement. Such positions shall be filled through national recruitment.

Managerial positions may be filled through an internal search process in which existing employees of the particular campus or within the University of Hawai'i system can apply and be considered for the position.

Executive and managerial positions which have supervision of or responsibility over administrative support, academic support, student services or community service programs normally do not require a terminal degree. Such positions may be filled through local recruitment.

Waiver of recruitment for positions reporting directly to the President shall require approval of the Board. The President may waive recruitment for other executive and managerial positions when appropriate.

2. Where appropriate, an advisory committee may be established to advise the President, or other responsible administrator. If an advisory committee is established, the President or other responsible administrator shall provide the committee with the following directions:
 - a. The scope of the committee's tasks.
 - b. The criteria to be followed if candidates are to be evaluated.
 - c. Appropriate time limits.
 - d. The form of any recommendations to be made (Example: each candidate shall be determined as "qualified" or "not qualified" without any indication of ranking).
3. The President shall periodically consult with the Board on the status and other pertinent information regarding the search and selection process for executive and managerial positions.

4. These guidelines do not apply in the case of temporary assignments; where additional duties which are not substantial are assigned to an individual previously appointed by the Board above and beyond the incumbent's current duties; where reassignments are made because of organizational changes; or where reassignments are made from one executive or managerial position to another executive or managerial position.

C. Appointments. Appointments to executive positions of Executive Administrator and Secretary of the Board, Vice President, Chancellor, and Internal Auditor are subject to Board approval and considered to be a consent of employment and not contractual appointments to specific positions. Appointments to position of Vice Chancellors, Deans (University), Directors of the Institute for Astronomy and Cancer Research Center, and other positions defined as managerial are subject to Presidential approval and considered to be a consent of employment and not contractual appointments to specific positions. The University may reassign such personnel to any executive or managerial position at its discretion during the term of an appointment without loss of pay. Such appointees serve at the pleasure of the University and as such, no employment contracts aside from the normal University employing documents shall be offered to any executive or managerial employee.

1. Initial Executive Appointments.

- a. Executive and managerial personnel with return rights shall normally be appointed for one year at a time, but initial appointments of up to three years duration may be made.
- b. Executive and managerial personnel without return rights may initially have term appointments not exceeding five (5) years.
- c. Appointments which require an individual with specialized experience and management skills to develop new programs, such as a new school or college, may be made at a title and salary commensurate with the assignment, pending the establishment of the executive or managerial position.
- d. Executive and managerial personnel with multi-year appointments serve at the pleasure of the University and, as such, shall be subject to appropriate performance criteria and shall be required to maintain satisfactory performance as a condition of continued employment. If satisfactory performance is not maintained, the executive or manager may be reassigned or terminated in accordance with section 2.f. or 2.g. below, as appropriate. This requirement shall apply to initial appointments and reappointments.

2. Reappointments, Reassignments, and Non-Renewal of Appointments.

- a. Reappointments shall be based on the needs of the University.

- b. Executive and managerial personnel without return rights normally may have term reappointments for periods of up to three (3) years.
- c. Reassignment of executive and managerial personnel to any other executive or managerial position, as provided in Section C above is considered to be a continuation of employment and is not an initial appointment.
- d. The non-reappointment of individuals to executive and managerial positions is not considered a termination for cause, but is an exercise of the University's prerogative to select executive and managerial personnel to direct and manage the affairs of the University.
- e. Personnel appointed to executive and managerial positions who have return rights to another University position may be-reassigned at any time during the appointment period to such former position upon being given at least thirty (30) calendar days written notice by the appropriate administrator. See Return Rights, Part IV, B.
- f. Executive and managerial personnel who do not have return rights to another position shall be provided prior written notice of termination of appointment. During the first two (2) years of employment, three (3) months notice shall be given prior to the effective date of the termination action. After two (2) or more years of service, six (6) months notice shall be given prior to the effective date of the termination action. Notice of termination may be given at any time during the appointment period.
- g. Executive and managerial personnel serving in an acting or interim capacity have temporary appointments which may be terminated with appropriate notice. Such personnel with return rights to another position may be terminated upon thirty (30) calendar days notice. Such personnel who do not have return rights to another position should be given as much notice as possible, but in no event less than 90 calendar days.

PART III

COMPENSATION FOR EXECUTIVE AND MANAGERIAL PERSONNEL

A. Purpose/Applicability.

The purpose of these policies is to describe the provisions of the compensation system applicable to individuals appointed by the Board of Regents ("Board") to executive and managerial positions which are excluded from an appropriate collective bargaining unit as specified in Section 89-6, Hawai'i Revised Statutes.

B. Policy Statement. The University system operates in a highly competitive environment and recognizes that its faculty and administrators are primary assets, and the principal source and means by which the University carries out its mission. The University aspires to provide base compensation for its executive and managerial personnel that is competitive with pay levels of individuals who have similar responsibilities, demonstrated competence, and experience. The compensation levels for the University's executive and managerial positions shall be based on relevant competitive markets including higher education and local markets as well as on the level of responsibility of the position, internal alignment, and value of hire in fulfilling the strategic mission of the University. It is the aspiration of the University to be able to offer starting salaries in consideration of job responsibilities and demonstrated competency and experience so that most fully competent and experienced staff are compensated at the median rate paid to executives and managers in similar positions at university systems or employers with which the University competes for staff. Individuals with less experience should generally be offered starting salaries commensurate with experience between the minimum and control point. Compensation includes salary and benefits. Each employing unit is responsible for insuring that the unit maintains equity across protected groups as provided below:

- Administer the University's compensation program without regard to an individual's race, sex, gender identity and expression, age, disability, color, religion, national origin, citizenship, ancestry, marital status, sexual orientation, arrest and court record, status as a covered veteran, or any other protected classes.
- Provide equitable pay grade classifications for executive and managerial positions. Each position shall be analyzed, described in writing, and classified according to complexity and responsibility so that comparisons can be made with comparable university systems and recruitment sources.
- Establish equitable executive and managerial pay grade classification schedules consistent with the University's organizational structure with pay grade medians equal to the median salaries paid by comparable universities and other recruitment sources.

- Maintain salary ranges for these pay grade classifications that properly reflect internal position relationships in addition to being competitive with external pay practices of comparable universities and other recruitment sources.
- Pay individuals within their salary ranges according to their level of performance, rewarding good performance and withholding increases when they are not warranted by individual performance.
- Provide guidelines for sound and consistent salary decisions throughout the organization.
- Permit delegation of salary administration authority while maintaining adequate control.

The University values the components of the work experience including a positive and healthy environment that addresses the physical, emotional and intellectual well being of its staff. Components enhancing the staff's work experience will be consistent with offerings by similarly situated university systems.

C. Review.

These compensation policies shall be reviewed at least once every two years by an advisory Compensation Committee appointed by the President. The Compensation Committee shall consult with the President when reviewing the compensation policies. Upon completion of its review, the Compensation Committee will present its recommendations to the President for review and forwarding to the Board for final action.

D. Implementation.

These compensation policies supercede all prior policies and practices which may conflict with any provision contained herein. The President shall be responsible for the implementation and compliance of these policies by all personnel of the University.

E. Classification Policies and Procedures.

1. Authority.

- a. Generally, compensation actions shall comply with the terms of these compensation policies. Exceptions, however, are permitted in unique and well-justified cases. The President has the authority to grant such exceptions, except for those positions for which the Board is the final approving authority; in those cases, the Board has the authority to grant such exceptions.

- b. The Board is the final approving authority for all appointment, reappointment, and compensation actions, including acting and interim appointments, related to the positions reporting directly to the President or to the Board specifically the Executive Administrator and Secretary of the Board, Vice Presidents, Chancellors, and Internal Auditor.

The Board shall review the list of positions for which the Board is the final approving authority at least once every two years to confirm or amend the list as may be required. The Board may, at its discretion, amend the list at any time. The President may, from time to time, submit recommendations to the Board to amend the list. Such recommendations to the Board shall be made in writing and shall include relevant justification.

The approving authority for all other appointment, reappointment, and compensation actions under this policy requires the approval of at least two executive or managerial reporting levels above the position involved in the transaction.

For example, the President is the final approving authority for all appointments, reappointments, and compensation actions involving executive or managerial positions reporting to the President's direct reports. Accordingly, the Chancellors and Vice Presidents who report directly to the President are the final approving authority for all other appointment, reappointment, and compensation actions for executive or managerial positions within their respective areas of responsibility.

- c. The Executive Vice President for Academic Affairs/Provost shall be responsible for ensuring the oversight of the classification of all executive and managerial positions and for all management compensation transactions for compliance with the University's compensation policies, and shall advise the President of transactions found not to be in compliance.

2. Initial Hires.

Chancellors and Vice Presidents are authorized to set starting salaries for new employees up to and including the control point of the appropriate classification salary range established for that position. The calculation of the "control point" for a given classification is generally understood to be based on the median of the relevant CUPA survey of public and private institutions, though the use of CUPA for these purposes will be part of the periodic review of these policies required in Parts I(D) and III(C).

The President may, upon the recommendation of the vice president/chancellor and at his/her discretion, authorize higher starting salaries for new executive and managerial employee candidates who have exceptional skills, experience, and

qualifications and who are expected to immediately contribute productive performance.

The Board, upon the recommendation of the President and at its discretion, may authorize starting salaries exceeding the maximum of the salary range width for exceptional candidates for positions reporting directly to the President or the Board.

3. Annual Salary Adjustments In order to insure that executive and managerial employee salaries are competitive with comparable university systems, salary adjustments may be granted periodically, subject to the availability of Board authorized funds for salary adjustments. The amount of such salary adjustments shall be based on an individual's performance with consideration given to the individual's placement within his/her grade classification salary range.
 - a. Executive and managerial employees shall be eligible for merit salary adjustments and/or performance incentive awards as follows:
 - The President, upon recommendation of the Executive Vice President for Academic Affairs/Provost, shall develop annual salary adjustment guidelines. The guidelines should insure that the salary increases are granted on a fair and equitable basis. The guidelines may include a matrix for authorized salary increase amounts taking into consideration both individual performance and one's placement within his/her grade classification salary range. (Generally increases for those in the upper percentiles of their salary range are lower than for those who perform at an equal level but who are in the lower percentiles of the salary range.) The guidelines may include special provisions and/or compensation incentives for individuals whose base pay exceeds the maximum of their respective grade classification range.
 - Executives and managers who have final approval authority under these compensation policies may approve any salary adjustment within the guidelines established by the President or the Board provided that the resulting salary does not exceed the control point of the grade classification range established for that position. Base salary adjustments beyond the control point of the salary range may only be granted to those employees whose performance is above the fully satisfactory level.
 - Generally, all base salaries shall be within the authorized grade classification range. Exceptions, however, are permitted in unique and well-justified cases. The President has the authority to grant such exceptions, except for those positions for which the Board is the final approving authority; in those cases, the Board has the authority to grant such exceptions.

- Performance Incentive Awards (PIA) may be granted pursuant to University procedures for meritorious performance.

4. Special Salary Adjustments.

Special salary adjustments may be granted to incumbents in extraordinary circumstances such as retention, based on the recommendation of the appropriate Vice President or Chancellor.

5. Acting/Interim Appointments.

Individuals appointed to executive and managerial positions on an acting or an interim basis may be compensated with a temporary pay adjustment.

Chancellors and Vice Presidents are authorized to set starting salaries for acting/interim executive and managerial appointments up to and including the control point of the appropriate classification salary range established for the executive position.

The President may, upon the recommendation of the Vice President/Chancellor and at his/her discretion, authorize higher starting salaries for, acting/interim executive and managerial appointments for candidates who have exceptional skills, experience, and qualifications and who are expected to immediately contribute productive performance.

The Board upon the recommendation of the President and at its discretion, may authorize starting salaries exceeding the maximum of the salary range width for exceptional candidates for positions reporting directly to the President or the Board.

Should the employee not be appointed to the position after serving in an acting or interim capacity, the following will apply:

- Additional temporary pay adjustments received for serving in an acting or interim basis will be terminated upon completion of the assignment.
- Upon return to the individual's former position, his/her salary shall be that which he/she would have received at the time of return had he/she not accepted the acting or interim assignment, adjusted as may be equitable under the circumstances.

F. Compensation Administration Responsibilities.

The Executive Vice President for Academic Affairs/Provost, shall direct and oversee the administration, monitoring, and maintenance of the compensation policies that

includes a salary schedule applicable to executive and managerial classes and for the assignment of executive and managerial classes on the salary schedule to ensure competitiveness and to stay abreast of current trends. Copies of the most current salary schedule shall be provided the Board. The University's Office of Equal Opportunity/ Affirmative Action working through the Vice President for Legal Affairs and University General Counsel shall be responsible for the oversight of internal compensation equity to ensure both legal and policy compliance.

The Executive Vice President for Academic Affairs/Provost, may recommend revisions of the program as required and provide appropriate reports to the President and the Board. Specific responsibilities shall include the following:

1. Consults with and reviews salary actions or recommendations to insure conformance with these compensation policies, administration guidelines, and the salary adjustment budget. Reviews and makes recommendations to the President for salary actions requiring the President's or Board's approval.
2. Requests the Vice Presidents and Chancellors annually to review their executive and managerial position descriptions to insure that they are current and accurate. If the duties and responsibilities of the position have changed, a revised position description shall be submitted to the System Office of Human Resources.
3. Reviews the salary grade classification pay ranges annually and recommends revisions if required by changes in the competitive market (e.g., as reflected by changes in the CUPA survey used to establish the control points for classification ranges). Consideration shall be given to the general movement of salaries paid in comparable universities for comparable positions, based on surveys and specific job analysis.

The Executive Vice President for Academic Affairs/provost shall direct the preparation of a report and recommendation for salary structure adjustments if necessary for the President's review and approval.

PART IV
CONDITIONS OF SERVICE

A. Performance Evaluation.

Every appointee to an executive or managerial position shall be evaluated for performance and accomplishments annually during the March-June period according to criteria and procedures established by the President, which shall include performance categories as well as criteria upon which executive and managerial appointees are to be evaluated. Such evaluation shall include a review of the position description and classification assignment of the position to which the individual has been appointed.

The results of the evaluation shall be the basis for reappointment as appropriate and for consideration of salary adjustments and performance incentive awards. Performance incentive awards are to be paid as lump sum bonuses based on the evaluated performance for the immediately completed fiscal year, without increasing the base salary of the employee.

B. Return Rights.

Personnel appointed to an executive or managerial position, with return rights to another University position, may be reassigned to such position. Upon return to the position, either during or after an appointment period, the individual's salary shall be that which the individual would have received at the time of return had he/she not accepted the executive or managerial appointment, adjusted as may be equitable under the circumstance.

C. Professional Development.

D. Professional Improvement Leave.

1. Purpose. Executive and managerial personnel may be granted leave with pay for professional improvement consistent with development in their profession and the needs of the University. The leave shall be used to

enhance or gain professional expertise, and engage in professional activities to better serve the University in support of the University's mission and goals.

2. Application. An application for professional improvement leave shall be submitted at least six (6) months before the start of the leave in accordance with the purpose in section D.1.
3. Duration. Professional improvement leave may be granted after six (6) years of full-time continuous service, including creditable service in other Board classifications, for periods up to six (6) months at full pay or twelve (12) months at half pay with total months earned at the rate of one (1) month for each year of service. Leaves of shorter duration and intermittent leaves may also be granted. However, the total duration of the intermittent leave taken with pay should not exceed the total leave provided for under this policy.
4. Return to teaching, research or other professional duties. An employee who will leave an executive or managerial position to return to teaching, research or other professional position with the University is encouraged to apply for professional improvement leave if the duration of the executive or managerial appointment has been for at least six (6) years and a professional improvement or a sabbatical leave was not taken during this period.
5. Compensation. The leave approved under this provision shall be taken at the salary applicable to the position the individual will occupy upon return from the professional improvement leave. For example, if the individual will return to an executive or managerial position, the leave may be taken at the current executive or managerial salary; however, if the individual will return to a faculty position, the leave shall be taken at the appropriate faculty salary for the faculty position.
6. Return service obligation. An individual granted a leave with pay for professional improvement shall agree to return to service at the University. The return service obligation shall be equivalent to the duration of the leave. Upon the return of the employee from professional leave, the individual shall submit a written report to the appropriate supervisor on the activities during the leave.

These leaves of absence except for urgent personal reasons, shall normally be granted for no more than one year at a time. There may be combinations of leaves, such as paid professional improvement leave followed by leave without pay. Leaves for urgent

personal reasons shall not be granted for more than ninety (90) days at a time.

Discretionary leaves such as professional development leave and in certain circumstances, military leave, may be granted provided a satisfactory temporary replacement, if needed, can be secured. Approval of personal leaves of an emergency nature shall not be unreasonably withheld.

F. Other Leaves of Absence

Executive and managerial personnel may be granted or placed on other types of leaves of absence, with or without pay, in accordance with policies, procedures and practices. This includes a leave of absence with pay for purposes of conducting an investigation when the University determines the absence of the employee in the workplace would facilitate the investigation and/or operations of the University, facilitate the securing of sensitive information or resources essential to an investigation, or be in the best interests of the employee or the University.

G. Perquisites.

Executive and managerial personnel may be granted perquisites not in conflict with State law. However, prior Board approval is required when an executive or managerial employee is being offered a perquisite valued at one hundred dollars (\$100.00) or more per month and/or not afforded all other University employees.

H. Discipline and Appeal.

1. Executive and managerial personnel shall not be disciplined except for proper cause.
2. Reassignments and non-reappointments as provided for in Part II, Section C.2, are not disciplinary actions and are therefore not appealable.

- a. Board appointees will be evaluated periodically in accordance with the guidelines below and the specific procedures developed by the appropriate administrative offices to implement this policy. These performance evaluations shall be conducted in order:

 - (3) to provide means for the improvement of performance in furtherance of the University's mission.
- b. In recognition of the special role of the faculty in the academic mission of the University, procedures for periodic review of faculty performance must provide safeguards for academic freedom and shall provide the opportunity for participation of faculty peers in the review process. Accordingly, each Chancellor, in consultation with appropriate faculty governance organizations, shall develop procedures for such review which incorporate these principles. The procedure shall include a requirement for evaluation of every faculty member at least once every five years, and may provide for exempting faculty who have undergone a review for reappointment, tenure, or promotion, or who have received a merit salary increase during this period. Faculty review procedures shall be submitted by the Chancellor for approval by the President.

For any campus which does not have an approved faculty review procedure development in accordance with paragraph b. above for implementation in academic year 1981-82, faculty shall be evaluated according to procedures approved by the President. Section 9-14 Teaching Assignments for Instructional Faculty.

The instructional faculty of the University of Hawai'i has duties and responsibilities that encompass a number of professional activities in addition to teaching. The nature and scope of these additional duties depend on the particular mission of the unit and

program and the relationship of that mission to the faculty member's professional qualifications. As instruction is the University's highest priority, however, teaching remains the most important duty of its faculty. This policy sets standards for the assignment of the instructional component of faculty responsibilities.

- a. Except as otherwise provided herein, the standard teaching assignments for full-time instructional faculty shall be as follows:
 - (1) 24 semester credit hours per academic year at the University of Hawai'i at Mānoa,

 - (1) an appropriate measure of the instructional activity (contact hours, number of students supervised, etc.), and
 - (2) an equivalence relating the designated measure to semester credit hours.

It is expected that the development of appropriate equivalents will involve consultation of the appropriate faculty, department chairpersons, and academic deans.

Such equivalents shall be reviewed and approved by the President and reported to the Board upon their establishment or subsequent revision consistent with Board policy.

- c. In recognition of the diverse responsibilities of the University and its faculty, each Chancellor shall develop and recommend equivalents for specific non-instructional activities that are consistent with and in furtherance of the mission of the University unit and program.

It is expected that the development of appropriate equivalents will involve consultation of the appropriate faculty, department chairpersons, and academic deans.

The definitions of these equivalents shall include:

- (1) a description of the professional activities for which they may be granted,

(2) an explanation of the relationship of these activities to institutional and program mission and priorities, and

(3) guidelines for determining the circumstances which warrant granting them.

Such equivalents shall be reviewed and approved by the President and reported to the Board upon their establishment or subsequent revision consistent with Board policy.

The implementation of this policy shall be the responsibility of the Chancellors of the respective units.

- d. Teaching assignments for part-time instructional faculty or for faculty paid less than full-time from instructional funds shall be as in section a. above pro-rated by their fractional full-time equivalent in instruction.
- e. Each unit shall ensure against discriminatory teaching assignments. In addition, Chancellors shall establish procedures to monitor the effectiveness of teaching reductions for non-instructional duties.
