

Fall 2012 PUBLIC HEALTH OPHS COLLOQUIUM SERIES

PRESENTS:

Elizabeth McFarlane, PHD, MPH

Associate Professor

Social & Behavioral Health

Health Policy & Management

“Implementation
Science for Program
Planning and
Research: Lessons
from Home Visiting”

Implementation Research is the scientific study of methods to promote the integration of research findings and evidence-based interventions into healthcare policy and practice. It seeks to understand the behavior of healthcare professionals and support staff, healthcare organizations, healthcare consumers and family members, and policymakers in context as key variables in the sustainable adoption, implementation and uptake of evidence-based interventions. Dr. McFarlane will present a multi-level conceptual model, principles of implementation science, and theories of behavior as applied to research of home visiting programs for parents of young children.

Thurs, Nov. 29, 2012 Time: 12n-1:00pm

Location: UH-Manoa, Biomed D-207
