Reception

End

Join PACE as the following six teams “swim with our sharks” and compete for a chance to **WIN \$1,000!**

CYBERCANOE DESTINY

A hybrid-reality environment that provides 20/20 visual acuity in a 13-foot wide, 320-degree cylindrical structure comprised of tiled passive stereo-capable OLED displays.

ECOPONICS

An enhanced aquaponic process that bio-converts food waste into micro-nutrients that nourish and grow organic crops while conserving 90–95 percent of the resources consumed in traditional farming methods.

HOT PLATE MINDER

A device that cuts power to a hot plate or range to prevent hundreds of thousands of fires each year due to unattended cooking.

INTERCHANGEABLE

A high-quality gardening pruner that blends quality and comfort into one horticultural hand tool by allowing users to change the handles at will.

NIMBUS

An atmospheric water generator system that filters and captures naturally occurring water vapor and condenses it into usable water in one step without power.

PRESS ON

A sustainable semi-autonomous coffee vending machine that produces the highest quality of freshly roasted, ground and brewed coffee.
