

August 20 @ 4:30PM HST

LAULIMA

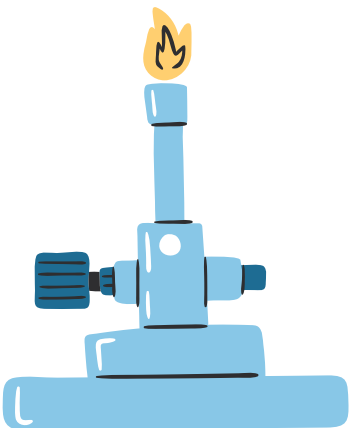

SYMPOSIUM

The Kroc Center in Kapolei

Our FIRST in-person event

The annual Laulima Symposium allows all local scientists, engineers, teachers, and researchers to network and learn about STEM in Hawai'i! Embedded in the name, Laulima is the idea that our STEM community requires collaboration with the greater community; the events in the symposium are approachable to those from non-technical backgrounds who are interested in learning about Hawai'i's STEM ecosystem.
