

Third Thursday Virtual Event

Advancing Toward a Hydrogen Powered Society

Technological advances in the area of hydrogen are making great strides in the world today. This source of clean fuel is being taken seriously to address carbon emissions, global warming and our dependence on fossil fuels. 500 billion dollars are being invested by private investors, industries, non-profit organizations, and global economies. We will hear about initiatives to help move us closer to this reality.

THURSDAY
August
17
2023

12:00 p.m. HST
3:00 p.m. PST
6:00 p.m. EST

Zoom registration: <https://zoom.us/meeting/register/tJwvd-CtpjgoHNdM33KtUrt0TMqKdsgxyhJX>

For more information: Karen Awana kawana88@hawaii.edu

Featured Presenters

Mitch Ewan

Hydrogen Systems Program Manager
Hawai'i Natural Energy Institute
University of Hawai'i at Mānoa

Ganesh Arumugam

Senior Materials Engineer
Oceanit
