

<b>RP 5.201 Instructional programs consultation comments</b>						
<b>Campus</b>	<b>Title/Office</b>	<b>Section</b>	<b>Page</b>	<b>Proposed Revision</b>	<b>Comment/Rationale</b>	<b>Response</b>
UH Hilo	Registration	III.A.2.a	1		A few years ago I remember having a couple of courses that we offer but are not in a program. Not sure if that becomes an issue with this statement if they are in a certificate or minor.	I don't think so but if there is better language please advise.
UH Hilo	Registration	III.B. 1	3	and baccalaureate		Change made
<b>FOLLOW-UP REVIEW COMMENTS</b>						
UHM	Faculty Senate	III.A.1 & III.2	1	"...requiring the use of resources..." instead of "significant resources."	Many programs use resources already in place, and no new resources are required. The term "significant" is inaccurate in many cases.	The intent of defining significant resources is to allow for campus leadership to approve programs that do not require significant resources (such as those discussed in the comment where no new resources are required) rather than have these programs go to the BOR.
