Double-check your submitted application and verify that your recommendations have been completed

The site allows you to update and change recommender information if needed. It's your responsibility to be sure all your application materials are in by the deadline.

Do your FAFSA!

While a FAFSA isn't required to be eligible for non-need based scholarships, it's needed to apply for scholarships that require "need". Without a FAFSA, committees won't be able to determine if you have "need", which means they can't determine if you're eligible for a need-based scholarship, either.
