

Tenure Task Force
November 4, 2021
Meeting #5

Present:

Kendra Oishi
Debora Halbert
Debi Hartmann
Ernie Wilson
Randolph Moore
David Lassner
Vassilis Syrmos
Christian Fern

The meeting began with an evaluation of the ongoing draft of our report. The discussion continued to center around the classification of faculty and how it makes it difficult to accurately describe the full scope of faculty work across UH. One reason to create a single classification system was to eliminate the problems associated with the many classifications that exist now. In reality the SCR 201 task force is really about classifications and not tenure.

The meeting then continued to address the SCR report and attachments:

Attachment 1: Completed.

Attachment 2: Percentage of tenure and tenure track faculty. The tables are created and the history of classifications and how our system differs from other R-1 institutions will be drafted.

Attachment 3: Completed.

Attachment 4: In progress but near completion

Attachment 5: In progress but near completion

Attachment 6: No change since the last meeting. May not want to do anything more until the rest of the pieces are put together.

Attachment 7: Draft in development for circulation on the Whereas statements.
