LYON ARBORETUM

FUNCTIONAL STATEMENT

Org Code: MALYON

The Lyon Arboretum is under the leadership of the Director who reports to the Vice Chancellor for Research and Graduate Education. The Arboretum facilitates both research and instruction in the restoration of Hawaiian ecosystems, ethnobotany, conservation biology, and evolution. In pursuing these activities it provides a needed resource for faculty, students, and the University as a whole. Through tours, workshops and special classes, the Arboretum provides service activities for groups of student and teachers in K-12, to tourists, and to the community at large.
